Season Outlook: With a good number of state placers back in both the girls and boys side I expect us to be very competitive in most of our track meets, especially on the girls side. We have won the league on the girls side two years in a row and was state runner up in 1a. The boys will have some good quality at the top, but we will see how we can compete as a team. I am happy with our numbers and look forward to seeing how this team improves and competes from meet to meet.

Season Outlook: This will be the first season for golf at CCHS, but there is definitely excitement around the program. We have a pretty large group of kids going out. Currently we have eight meets on the schedule, four on grass greens and four on sand greens. There will be some growing pains, but I have confidence that the kids will use those opportunities to improve. We will just look to get better everyday. I would like to thank the school and the community members for the huge support we have received in helping start this program from the ground up. Go Eagles!
Senior Spotlight: This year's seniors are going to be who I look for on this team. They have displayed it in other activities for school, so I fully expect them to provide it once again. We have a few seniors that have golfed before providing some experience, as well as some that are just new to the game. I do think it is a benefit to having boys and girls as seniors, as this will help with some of the younger players looking up to them. Even though it is the first year of golf, I have enjoyed watching them grow into young adults.
