“Why 1,000 homicides in St. Louis remain unsolved”

Judge’s comments:

“Too often, the "if it bleeds, it leads" practice at too many news outlets means the victims -- as well as the perpetrators -- are forgotten as reporters move on to the next attention-grabbing event. This collaboration focused attention where it needed to be -- whether justice was being done, perpetrators were being held to account and justice was done for the victims. In St. Louis, clearly, too much was lacking as these reports uncovered and too often law enforcement wasn't doing its job, allowing those who failed in their duties to remain a victim's race or ethnicity had an impact. Thorough, enlightening and important reporting that prompted policy and practice changes -- and hopefully a more aggressive pursuit of justice.”
