Ideal for any member of the organization looking to generate Nota outputs from chromium based web browsers with a few clicks

The Nota toolsuite is built API first

### Nota's Editorial Leadership Board

Nota's Editorial Leadership Board, comprising industry experts, guides AI development for responsible journalism practices and product innovation. The board ensures ethical standards, refines AI outputs, and identifies opportunities to advance AI-driven solutions in the journalism industry.

## Nota's Al-powered tools are driving tangible results

### POLARIS LLM Simply Outperforms.

#### Why Newsrooms Choose Polaris:

- Purpose-Built for Journalism: Expert-tuned AI designed for legacy media workflows.
- Advanced Accuracy Metrics:
   Word-for-Word precision, Semantic
   Similarity, and Keyword Precision deliver
   content that matches editorial standards.
- Unmatched ROI: Measurable efficiency, engagement, and revenue growth for every newsroom.
- For Your Products and Workflow: Polaris allows any news organization, of any size, to build their dream solutions.

### POLARIS surpasses all cutting edge models by +15%

# Chartbeat has partnered with Nota to offer a made-for-media Al suite.

Nota's assistive AI tools fit seamlessly into existing workflows, complementing Chartbeat's analytics and optimization tools for publishers.

### Nota Customer Spotlight

#### A Lifelong Connection to the Defender

I was born into the business, deeply rooted in the Defender's impact on the Houston Black community. My path has been anything but linear—from finance to culinary arts, and ultimately, back to our family's mission.

My educational journey took me from Morehouse College to the Culinary Institute of America, and even to Le Cordon Bleu in Paris. As an Executive pastry chef, I was pursuing my passion—until COVID-19 changed everything.

When the opportunity arose to join the Defender, it felt like coming home. I've worn many hats here: paperboy, secretary, distribution team member, virtual event producer, video producer, social media manager, and sales professional.

Through these diverse roles, I've witnessed firsthand how the Defender doesn't just report on community—we are the community.

### The Nota Tool Deep Dive - TONE

#### Overview

- Tailored Voice Matching: Exposes outputs that that are specific to your writing style and voice for your brand
- Content-Driven Calibration: Submit sample content and Nota tools will adjust outputs to reflect the exact style and tone.
- Language Nuance Refinement: For English variants (US, UK, NZ), outputs undergo an additional refinement step to capture regional nuances.
- Spanish Language Compatibility: Available in Q4. More to come.

### **Tool In Beta: SCRIPT**

#### Overview

- Script Submission: Upload ENPS scripts directly to Nota CMS integrations for processing.
- Comprehensive Analysis: Scripts are combined and sent to our Polaris LLM for content analysis and refinement.
- Optimized Output: Broadcast or on-air audio instructions are removed, producing a clean, article ready version based on the original transcript.
- Retrieval Augmentation (RAG) Articles are then connected to your archives, augmenting the story being made with data that is aligned with it from your archives, making the end product far more robust.
- Metadata Enhancement: Seamlessly switch to the complimentary tools in the Nota suite to generate article metadata for publishing and SEO optimization. .

### **Tool In Alpha: CLIP**

#### Overview

- Live and Archived Video Processing:
   Process both live and archived video feeds,
   generating real-time transcriptions for efficient
   content management.
- Targeted Semantic Search: Allows journalists, editors and video teams to set specific topics of interest, enabling CLIP to locate and generate precise video segments.
- Detailed Segment Output: Each generated clip includes the transcript, timestamp, and video segment (ranging from five seconds to longer).
- Seamless Content Integration: Clips can be sent to other Nota tools for expanded content creation (see SCRIPT), repurposing and optimized sharing.

TOTOT

### Future State: Nota Agents

#### Overview

- Integrated Workflows: Seamlessly connect Nota tools to create comprehensive solutions, such as full social media posts with coordinated IMAGE, VID and SOCIAL elements.
- Efficiency Amplified: Streamline processes by automating multi-app tasks, reducing the time and effort needed to achieve complex outcomes.
- Consistent Results: Maintain brand consistency and tone for publishing to specific platforms.
