The successful Contractor will be responsible for all work and/or debris deemed ineligible. In order for both parties herein to close their books and records, the contractor will clearly state "Final Invoice" on the contractor's final/last billing to the Parish. This certifies that all services have been properly performed and all charges and cost have been invoiced to the Parish.

Invoices submitted for payment shall be accompanied by an electronic worksheet, in Microsoft Excel format, which includes information contained in the approved worksheets and/or debris ticket. The final format of the daily worksheet and information to be contained will be approved and agreed upon by the Contractor and the Contract Administrator. Any discrepancies between the Owner's records and the Contractor's submittals must be rectified, to Owner's satisfaction, by the Contractor, before payment on those items will be made by the Owner. Contractor shall computerize all tickets daily and present to the Owner as a summary reconciliation document within (48) hours of the daily completion of the work. Contractor shall note that thousands to tens of thousands of tickets may be produced per day and Contractors plans and computer program must encompass such potential volumes. Contractor should provide sample forms and program formats; describe their data processing experience, their data management center (if any), their data management programs and procedures and their key data management personnel in their proposal.

Owner and Contractor shall meet daily (within 48 hours of the issuance of the tickets) to reconcile tickets and work performed. Contractor shall revise the computerized reconciliation sheets with any corrections discovered and re-present a corrected Daily Reconciliation sheet to the Owner for signature within twenty-four (24) hours thereafter.
