Councilman Lonnie Watts explained that the property owners had requested this so it would give them

The vice-chair asked if there were any questions from the audience or the Council members. Having none, Councilman Watts stated that he wished to make the motion and Councilman John Mangus advised that he wished to second that motion

Councilman Dean Coates informed the vice-chair that he had a comment. He questioned Councilman Watts about the request to grant a waiver for a fifty (50°) foot servitude. Councilman Watts stated that he property was fourteen (14) acres in total and the waiver request was to allow them to get just past the house. Councilman Coates asked if it was in an existing neighborhood. Councilman Watts stated that it was not. Councilman Coates called upon Mr. Robert Dugas, Department of Public Works Director, and asked him if he had any information on this request. He further stated that the question that he had concern with, was what the ordinance indicated, being that the servitudes need to be settly (60°). Get to be accepted by the pariety huges the ditches are convered. duestion that he had concern with, was what the orunance increased concern be sixty (60') feet to be accepted by the parish unless the ditches are covered.

Mr. Robert Dugas, Department of Public Works Director, approached the podium as requested by Councilman Coates and addressed the Council members. He stated that the current ordinance allows for a fifty (50') foot servitude if it is subsurface or curb and gutter. He reiterated that the property owner could have a fifty (60') foot servitude if they had subsurface in that area. He stated that the problem with fifty (50') feet was that you did not have enough of the road, the shoulder, the ditch and everything else.

Mr. Dugas advised if they were going to have a fifty (50°) foot servitude, his recommendation would be to require them to make sure that it is curb and gutter. Then it would fall within the development code and the waiver would not be needed. He said that the problem that he wished to point out and that he had to question with a waiver, is that if it ever became a public road, then the Parish would have a public road with a fifty (50°) foot right-fo-way. He further stated that it was probably not their intent now, but he could tell them now that the Parish had plenty of roads that the intent was not to be embles or of whose who was a supplied to the probable of the supplied to the probable of a public road when they started. Councilman Lonnie Watts asked the Council members if he could reach out the property owners that were requesting this waiver to advise of Mr. Dugas's recommendation and see what they wanted to

do.

Councilman Watts replied that the way that he understood it, that there was just a one hundred fifty (50°) foot section of the servitude that was fifty (50°) feet wide and then it opened back up to sixty (60°) feet. He explained that they had sixty (60°) feet throughout the servitude with the exception of that first entrance going in and there was a house positioned there that stopped the servitude from being sixty (60°) feet. Councilman Joe Erdey asked Councilman Watts if he could get that arranged for the curb and gutter please if that was possible. Councilman Watts replied that he did not know. The vice-chair requested if Councilman Watts could pull this agenda item back and then speak with his constituent about the curb and gutter and come back to the Council. Councilman Watts was agreeable and advised that he did not mind doing that.

did not mind doing that.

Mr. Dugas came back to the podium and addressed Councilman Watts. He stated that he was going to get a little bit creative in the way that he explained what he wanted to say next. Mr. Dugas explained that as long as it was not an open ditch when it is drawn up and it is a fifty (50') foot servitude that is acting like a curb and gutter, it doesn't mean that it has to have subsurface if the drainage doesn't allow for it. He wished to reiterate that he wanted Councilman Watts to be careful when considering giving fifty (50') feet, because they did not want to end up with some open ditches in a fifty (50') foot servitude, but if it allows for the drainage in the road and the ditch is not necessary, there is no reason for an open ditch to be there, so you could consider that as your "subsurface". He encouraged Councilman Watts to call him the following week so that they may discuss it further.

The vice-chair asked if Councilman Watts would like to change his motion and make it a me Councilman Watts was agreeable and stated that he wished to defer this agenda item until the Council could find out more information. Councilman Mangus made the second to this motion.

24-3/10 was offered by Lonnie Watts and duly seconded by John Mangus to defer the authorization of a waiver request of Section 125-37(6), "Requirements for Minor Subdivisions"; that would allow a fifty (50) foot servitude located off Cane Market Road, in Council District 1, so that more information may be obtained for the Council members to make a decision to grant and allow the waiver request.
