The Green Shack

By Cheri Roshon

Nestled away behind Pineview Apartments just outside of Dodge Center, you will find an unexpected world of wonder! 20658 County Highway 34 is the address to visit! A nondescript building behind the apartments houses some very unique activities for folks of all ages.

Brittany and Zach Wilcox moved back to Minnesota from North Carolina in 2008. They own and operate The Green Shack(2019). Brittany grew up in Byron, and Zach in Preston, and decided to come home to roost in Dodge Center were they welcomed their children Alex (13) and Emily (10).

Inside the building you will find spaces for all kinds of classes and activities. Behind the

building is a mini farm, consisting of a large garden space and home to animals--- Lots of animals! On my tour, I asked Brittany and Zach what their purpose in starting their business was. Their reply....they want to give people a place to learn new things in a safe and welcoming environment. Finding the property was enough to get the wheels turning, and today they have so much going on, I had to share the treasure I had found.

Brittany has a degree in Horticulture. Inside the building, under grow lights, you will find succulents and houseplants growing on shelves. She uses these plants in different classes, one being building your own succulent garden, and learning how to care for the plants.

MUST DO's

By Pastor Dave Breederland
Faith Community Church
of West Concord

At this time of year, there are a lot of “must do” things. Farmers work long hours gathering their harvest. Then they have their post-harvest machinery clean up, repair, and storage. Other folks realize they “must do” something about their leaves, yard, garden, and flowers. With winter looming on a cloudy horizon, the lawn mower must be winterized, the boat put in storage, new tires ordered before the snow flies, and the snow blower started. For still others, cutting and splitting wood for their wood burners is now a high priority on their “must do” list.

A “must do” list is not new. It varies from season to season. Yet a careful reading of the Gospel of Luke reveals that even Jesus had a “must do” list. The motif of what Jesus “must” do is strong in the Gospel of Luke. For example, see Luke 4:43; 9:22; 13:33; 17:25; 24:7, 44. (And that’s just for what Jesus must do. There are many verses detailing what we must do in Luke, but those will have to wait for another article someday.)

For Jesus, his “must do” helped him with his priorities. He had lots of people clamoring for his attention. The religious leaders of the day often disagreed with what Jesus said and did. They wanted him to change, to conform to their ways. At the temptation of Jesus (see Luke 4), the Devil tried to divert Jesus from God’s plan. Growing up, my father often told

me to “Plan your work and work your plan.” Jesus’ work was planned by his Father, and he did it. We can be thankful for that. “Jesus said, I have brought you glory on earth by finishing the work you gave me to do.” (John 17:4 NIV)

Jesus also stated, “The Son of Man must suffer many things and be rejected by the elders, the chief priests and the teachers of the law, and he must be killed and on the third day be raised to life” (Luke 9:22 NIV). How many of us would like that to be on our “must do” list? Jesus knew what was ahead of him and in faithful obedience completed his mission, preparing the way for our redemption, our forgiveness, our adoption, our sanctification, our glorification, and much more.

The “must do” of Jesus was part of God’s plan of love for the world. He sent Jesus to earth on a mission. Jesus completed that mission of his Father, and because of that invites us to believe in him, i.e., Jesus. Too often, we think we have to “do” something for our salvation, for our deliverance. So, we throw ourselves into good activities, religious rites, trying to have our good outweigh our bad, and more. Yet those things won’t get us into heaven, it is only by the gracious work of Jesus on our behalf and our commitment to him that will get us there. As the hymn writer stated, “Jesus paid it all, all to him I owe.”

This fall, with all the things on your “must do” list, take some time to reflect and rejoice on Jesus’ redemptive work on the cross.

All are welcomed to a free
**Christian Book Study via Zoom on
“You Are Never Alone”
by Max Lucado,
offered by Pastor Chad Christensen
and Trinity Lutheran Church,
West Concord.**

Second Thursday of each month,
beginning August 10th and into the fall, at 6:00pm
(one hour).

Call or text Pastor Christensen at
(507) 517-4160 with your email address to enroll.

This study is particularly for those who are unable to get out on a regular basis or are homebound. But the study is open for all to participate.

Moses and Monsters

“I [Wisdom] was there . . . when [God] gave the sea its boundary so the waters would not overstep his command.” — Proverbs 8:27-29

Historically Moses, directed by God, is understood to be the writer of the first five books of the Bible. Growing up as part of the royal family in Egypt, Moses (a Hebrew child adopted by the king’s daughter—Exodus 2) would have been taught many myths about the origin of the world. An old Mesopotamian myth, for example, held that Marduk, a warrior god, fought against Tiamat, a monster ruling the chaotic sea. Marduk defeated Tiamat and brought order out of chaos.

Now, let’s look at Genesis 1 again. We see powerful waters, but they are not described as a god or a monster; they are simply a part of the world God is creating. God tells the waters where they can go and where they cannot go. (See also Proverbs 8:12-31.) Moses shows that the true God is in control of all things.

In myths about creation there is always uncertainty about whether a people’s gods can hold back the forces of chaos. The ancient Egyptians, for example, believed that their sun god Ra had to descend into the underworld every night to defeat the great serpent Apophis, or else the ordered world would be destroyed.

But in the Genesis story, God creates and makes peace not through battle but with a word. No other force or would-be god is there; creation has only one true Lord.

Lord and God, we praise you that no force in heaven or on earth has power over you, and that you hold all things in your hands. Amen.

Steven Francis Elton

Steven Francis Elton, 60, of Dodge Center, formerly of Kasson, MN passed away on Friday, September 22, 2023.

Steve was born in Kankakee, IL and built a life in Kasson, MN with his wife, Danita, and their three children.

Steve worked at the Federal Medical Center - Rochester. Following retirement, Steve never stopped working. Steve found enjoyment in working on engines; most recently small engines at Earl's Small Engine Repair in Byron, MN. Steve's work ethic was instilled in him through his time serving in the U.S. Marines. Aside from work, Steve enjoyed spending time with his friends and his family; especially his grandkids. Steve was a member of the Blue Knights and loved riding his Harley. Steve loved fiercely and was willing to help anyone.

Steve's life plan altered when Danita passed away in 2022. Steve was able to find life after loss in his companionship with Susan Himle, of Zumbrota. Steve's passion for life and for people will live on in all those who knew him; if even for a moment.

Steve is survived by his three children; Amber (Aaron) Beissel, Brianna (Kyle) Johnson, Cristina (Lucas) Nienow and his five grandchildren. Along with his mother, Myrna Elton, brother Donald (Nilah) Coleman, and step-sister Victoria Zafft; and many friends who were truly his family. He is preceded in death by his wife; Danita Elton. Along with his father, Gerald Elton, and brothers, Ernest,

Russel, Roger, Dale and Terry, and other loved ones.

In lieu of flowers, the family requests donations be made to Toys for Tots.

A memorial service was at 3:00 p.m. Saturday, October 7, 2023, at Czaplowski Family Funeral Homes, 801 7th St. SE in Kasson, MN. Pastor Pete Wyttenbach officiated. Visitation was at 1:00 p.m. until the time of the service at the funeral home. Military Honors were provided by the Kasson American Legion Post 333.

To share a special memory or condolence please visit www.czaplowskifuneralhomes.com, Czaplowski Family Funeral Homes, 801 7th St SE Kasson, MN 55944 (507)634-6510. Blessed be his memory.

Lois S. Boe

Lois S. Boe, 83, beloved wife and mother, of West Concord, died Thursday October 12, 2023 and will never be forgotten.

She was born December 5, 1939 in Kenyon to Herman and Emma (Neseth) Sahl.

She married Arlo Boe July 23, 1957 in Kenyon, MN.

From 1960 until 1977, she and her husband, Arlo, operated the West Concord Nursery and Greenhouse. From 1977 until 2004, they operated Concord Restoration.

She has felt at home at Medford Senior Care in Medford, MN this past year.

Lois was a fun, bubbly soul, who lived her life out loud. She believed having a laugh a

day was the way to a wonderful life. She and her husband were very active in many antique auto associations, in particular the Pierce-Arrow Society. They traveled to many antique car meets and had a lot of fun along the way. She also was active in her community and Trinity Lutheran church plus was a member of the Red Hat Society.

She is survived by her son, Jeff (and DeAnn) Boe, Daughter Rachel (and Dan) Lewis, grandsons, Jacob (and Eliza) Boe, Brandon Richey, Evan Richey, Drew Ian Richey, Ryan Lewis and Eric Lewis, granddaughter, Jordyn Boe (and Riley), great granddaughter Quinn Richey and great grandson Isaac Richey, brothers and sisters, Merty Boe, Marilyn Boe, Bill Leonelli, Ervin and Susie Boe, Stanley and Tammy Boe, Gregg and Margie Albert, Jim and Zoa Heckman, Along with nieces and nephews, Steve and Tracy Boe, Deanna Boe and Rachel Zakariasen, Norma and Rob Radtke, Chuck Rice, Ana Boe, Karla Boe, Kris Boe, Kari and Matt Swigerd, Amy and Ron Flicek, Joan and Travis Boerner, Marty and Angie Leonelli, Michael and Johanna Leonelli, Pam and Scott Severson, Jon and Amy Boe, Lyle Boe, Adam and Megan Boe, Jason and Gwen Boe, Heidi Boe, Sarah Buchel, Tim and Holly Albert, Alexis and Andrew Blaugh, Joshua and Angie Heckman, Amber and Chris Pucci, Jordan and Sarah Heckman, Cheryl and Jim Bischoff, Marla Manley, Doug and Patricia Sahl. Including all their wonderful children: Remembering Aunt Lois!

She was preceded in death by her husband Arlo Boe and daughter Pauline Boe-Richey, Peter and Signora Boe, Art Boe, Burt Boe, Liz Leonelli, Susan Boe.

Funeral Services including visitation will be held on Saturday October 21, 2023 at Trinity Lutheran Church in West Concord, MN. Visitation will be held at 1:00 pm and the Service will begin at 2:00 pm. Interment will be in the Concord Cemetery in Concord MN. The Church will have the Funeral on their live feed from their website for the people who cannot attend.

Lowell Gene Bakkedahl

Lowell Gene Bakkedahl, 88, of Dodge Center, formerly of Hayfield, MN, passed away on Friday, September 22, 2023, at Pine Haven Rehabilitation Center in Pine Island.

Lowell was born May 13, 1935, in Dodge Center, to Ervin and Edrie (Thompson) Bakkedahl. He grew up on several farms that the family rented and owned throughout the years. He loved farming, animals, and all of nature. He graduated from Hayfield High School in 1953. He was drafted into the US Army and served from 1956-1958.

Lowell (Odie) farmed with his father on two farms on the Dodge-Mower County line. His dairy cattle were his most prized possession. Beautiful flower beds were nurtured on many of his properties. Some were huge displays of vibrant beauty, while others were smaller exhibits of natural splendor. His love of flowers was much greater than his love of grass. He bowled for many years in the local bowling league. He also enjoyed watching many sports, including football, boxing, UFC, and baseball. He was a proud Minnesota Twins fan and followed them faithfully. Lowell married Barbara Elias Arnold on July 8, 1984, in Las Vegas, Nevada; and they had 39 years of love and companionship.

Lowell is survived by his wife, Barb, as well as his four sisters: Judy (Maynard) Johnson of Blooming Prairie; Janice (Russell) Johnson of Lake City; Laurene Heydt of Stewartville; and LaVonne (Russell) Boullion of Hayfield. He is also survived by two stepsons: Troy (Bev) Arnold of Sargeant, and Tim Arnold (Deb) of Kasson, in addition to 7 step-grandchildren: Tonia (Joel) Kautz, Nichole (Justin) Holtan, Phillip Adams, Nathan (Hannah) Arnold, Gadge Arnold (Mariah), Samantha (Lee) Schmeling, Alexis (Tanner) Arnold and 7 step-great-grandchildren; sister-in-law, Nancy Klassen of Arizona; brother-in-law, Doug (Bev) Elias of Glencoe, and numerous nieces and nephews.

He was preceded in death by his parents, Ervin and Edrie Bakkedahl; father-in-law and mother-in-law, Donald and Glee Elias; cousin, James Hetchler; brothers-in-law, Virgil Heydt and Dave Klassen; and two step-great-grandchildren, Macy Jo Holtan and Ryan Kautz.

A memorial service was held at 11:00 a.m. on Thursday, September 28, 2023, at Trinity Lutheran Church, 104 1st St SE, Hayfield, MN. Pastor Kristen Anderson officiated. Visitation was one hour prior to the service at the church. Inurnment was in Fairview Cemetery in Hayfield.

To share a special memory or condolence please visit www.czaplowskifuneralhomes.com, Czaplowski Family Funeral Homes, 501 2nd St NW Hayfield, MN 55940 (507)477-2259. Blessed be his memory.

Family Fun Night

Family Fun Night will be held on Wednesday November 1st at Faith Community Church in West Concord.

Supper will be served at 6:15 p.m. followed by fun, games, music & more. The fast-paced evening is designed to serve the entire family and concludes at 7:45 p.m. The nursery will be available.

These fun nights are planned for the first Wednesday of each month, starting in October and running through May. Family Fun Nights allow families to eat, play, and learn together. Mark your calendars now and plan to join us.

Dodge County Dairy Princess Chosen as State Finalist

This year celebrated the 70th Princess Kay of the Milky Way, the pageant for the dairy industry representatives. Each year young women with dairy farm backgrounds are chosen in each county to be spokespersons for the products.

Makenzie Alberts of Dodge County advanced to the state competition and on August 24th was named runner up in the Princess Kay pageant. Emma Kuball of Waterville was crowned Princess Kay. On August 28th, Mackenzie had her image carved in a 90 pound block of butter at the Minnesota state fair.

Makenzie is the daughter of Eric and Angie Alberts of Pine Island and a seventh-generation dairy farmer. The family milks about five hundred Holsteins at the Pine Shelter Farms.

Makenzie is a sophomore at South Dakota State University where she is pursuing a dual

major in agricultural communication and leadership and a minor in dairy industry. She is a 2022 Pine Island graduate and this is her first year as a dairy princess. She has been active in 4-H and FFA and just finished her position as Minnesota state FFA secretary.

Makenzie started showing calves as a novice in 4-H and grew to love showing cattle at the fair. In high school she joined FFA and continued to be involved in agricultural activities. She fed calves on the family farm, helped with herd management, takes turns at one of the three times a day 7-hour milking shifts and drives tractor hauling forage in from the fields during harvest. Her mother was on the Dodge County Dairy board and she remembers wanting to be a dairy princess since she was a young girl.

This summer she will be working on the family farm and taking part in representing the dairy industry at events like Breakfast on the Farm and the Dodge County Fair. The week before the Minnesota State Fair will be the most exciting time when one of the ten finalists will vie to be chosen as the 2023 Princess Kay of the Milky Way.

Her favorite memories were growing up on the close-knit family farm with her cousins and doing fun things like sliding down the bunker plastic as kids. Now she helps to fill

the bunker and throw tires on the plastic.

After college she plans to follow a career in a company involved in the dairy industry and

help educate the public about how dairy products get to the table.

Local Vets to Be Honored With Quilts of Valor at Legion Post #384

(continued from page 1)

It says, "thank you for your service and sacrifice in serving our nation."

To date (as of 9/30/23) 359,727 quilts have been awarded by the Foundation.

Quilts are awarded at many different levels: they may go to military hospitals where chaplains award them to service members; they may be awarded to entire service units returning from deployments; they may be awarded at veterans' homes, or they may be awarded individually. All Awards must be Registered.

Several local service members are being honored on November 11, 2023 and The Messenger will be on hand to cover the story in its entirety.

The Program begins with a Social Hour from

Noon - 13:00

13:00 - 14:00 Lunch

14:00 - until the finish of Awards Ceremony and Presentations.

The Legion is the nation's largest wartime veteran's service organization, founded in 1919 and committed to advocacy for service members and the community. The American Legion is open to members currently honorably serving or Honorably Discharged from any branch of the military since 12/7/1941.

This week, October 16 - 20, 2023 is National Buddy Check Week.

Buddy Check Week is a national campaign that encourages Veterans to connect or reconnect with their Veteran friends - just to check in. See if they are doing OK. Ask if they need anything. Find out how they are. Catch up. Non-Vets are also encouraged to check in with their Veteran and Servicemember friends.

If you are a service member or veteran who

needs help, it is available 24/7 at the Veterans and Military Crisis Line, call, 988 Press 1, text 988 or use the online chat function at www.veteranscrisisline.net.

The Wells-Peterson Post 384 of the American Legion is located at: 401 Hwy Street West, Dodge Center, Minnesota 55927 (507) 633-6420

The Origins of Halloween

By Cheri Roshon

With Halloween on the horizon, you may be thinking about what kind of a costume will you wear for trick or treating, or for that Halloween Party you are invited to. Or you may be out shopping for candy to give to the trick or treaters coming to your door. But do you ever wonder where the holiday actually originated? Why would people dress up and go out asking for candy, and what does "Trick or Treat" mean when the children all chime in when you answer your door? First of all, if you refuse to give a treat, the kids in the costume will trick you in some way, encouraging you to just give them a treat. I don't know if anyone actually does these tricks, but that's what Trick or Treat means today.

But what is the origin of this bizarre tradition, and why is it held every year on October 31st? Well, you are about to find out! The Halloween tradition was a Celtic tradition, signifying the end of the year's harvest. It was held at a religious celebration called Samhain (SAH-win) where the people of the villages would dress up as goblins, ghouls and other scary things to ward off the ghosts during the harvest.

In the 8th century, Pope Gregory III named Nov. 1 as a time to honor the saints. Soon after, All Saints Day came to incorporate some of the traditions of Samhain. The evening before All Saints Day was known as All Hallows Eve, and later Halloween.

But where do today's traditional Halloween activities come from?

The traditions of carving pumpkins into Jack O' Lanterns originated in Ireland, using turnips instead of pumpkins. As the story goes, it all started with a man called Stingy Jack. Jack was said to have trapped the Devil several times, and would only let him go after the Devil promised not to take him to Hell when he died. But when Jack died, he found that Heaven didn't want his soul either, so he was forced to wander the Earth for all eternity as a ghost. The devil gave Jack a burning lump of coal inside a carved out turnip to light his way. The locals started carving scary faces into their own turnips to scare the evil spirits away.

The festival of Samhain marked the transition from the end of the year (harvest) to the beginning of winter. The Celts believed this was when spirits walked the Earth. Later on, Christian missionaries introduced All Saints Day on Nov 2nd, which started the idea that the living would come into contact with the dead around the same time of the year. In order to keep the evil spirits from terrorizing the Celtic people, they came up with the idea of wearing disguises so the evil spirits wouldn't bother them.

There are several versions of why people dress up and go door to door, but the most popular one says that during the time when the evil spirits came to Earth, people began to put food outside their doors to appease the bad spirits, and the spirits would leave them alone. This evolved into folks dressing up as scary entities and asking for a treat at every home in return for not playing tricks on the household.

Black cats are another symbol of Halloween. Back in the Middle ages, dark felines were considered a symbol of the Devil. It didn't help that, centuries later, accused witches were often found to have cats, black ones in particular. People began to believe that cats were a "witches familiar", supernatural entities that would assist in the practice of dark magic, and the cats and spells have been linked ever since.

The black and orange colors associated with the holiday also trace back to Samhain. Black symbolized the "death" of summer, and orange symbolized the autumn harvest season because of the fall colors.

The game of bobbing for apples has long been associated with Halloween parties, but the origin is actually more rooted in love and romance. The game goes back to a courting ritual that was part of a Roman festival honoring Pomona, the Goddess of agriculture and abundance. The gist was that young men and women would be able to predict their future relationship based on the game, but I haven't been able to find the rules to the game. When the Romans conquered the British Isles, the Pomona Festival blended with Samhain, and that's why we bob for apples in this day and age!

Lighting candles and bonfires was done to light the way for souls seeking the afterlife, and now most people just burn candles instead of bonfires.

Bats were likely present at the earliest prototype of Halloween celebrations, because

large fires were built to keep the bad spirits from interrupting the harvest celebration. Fires attract insects, which in turn attract bats, so seeing bats became a part of the festival. Medieval folklore expanded on the eeriness of bats with a number of superstitions built around the belief that bats were the harbinger of death. Well, at least for the insects!!

Well, there are more things associated with Halloween, but these are the most common. Now that you have acquired all this new

knowledge, be sure to go out and celebrate the end of summer, gardens, and swimming pools, and be prepared for the mittens, boots and coats. There are several Trunk or Treat options for safe trick or treating, and one of them is in Oronoco on October 28th from 11 am to 1 pm. It will be held at the Presbyterian Church at 20 3rd Street SW. There will be a photo booth, a craft/bake sale and lunch available. Be sure to dress up and have some fun, and be safe! Happy Halloween!!

The Green Shack

(continued from page 1)

Other classes include making a Fairy Garden to bring home to grace your place, indoors or out. Knitting and crocheting are taught in a quiet space, sign painting, painted stained glass projects, ceramics, and even a Bob Ross painting class are some of the skills you can learn here. I asked about a few things I would like to learn, like glass yard art and wire wrapped jewelry classes, and Brittany rose to the challenge! Canvas and Cocktail classes are offered (BYOB), as well as many other fun things for all ages. Each class is different, and the cost of each one varies (see website).

Coming up in October is a Halloween Extravaganza! It is a Halloween Trunk or Treat event, combining a petting zoo, special treats, crafts and games for the kiddos. Alisha's Sweet Treats will be there as a yummy craft to decorate your own spooky cookie. Mark your calendars for Sunday October 29th from 3 to 5 pm. Salvation Army of Dodge County will be there to serve hot apple cider and cocoa. 4H group Ripley's believe it or not will be having a bake sale, members of the Dodge Center Chamber of Commerce will be hosting trunk's at the trunk or treat, and much much more! Bring the family and have some fun!!

Other products they produce onsite are farm fresh eggs, both chicken and Button Quail, honey, and goat milk soap products. They have about 70 chickens, 28 ducks, 3 geese, 7 goats, lots of bunnies, and don't forget the 2 geckos! They host many events throughout the year, both at the Green Shack and off site.

As you can see, they are a pretty sustainable family!

Hosting events is a big part of the business. It all started with an Easter Egg Hunt a few years back. They advertised the event and hid 1000 eggs for the kids to hunt for, and guess what? They ran out of eggs before they ran out of kids! So they got more eggs and the party was saved! It was such a success, they decided to add it to their yearly event list. You can book them for birthday parties and special events by calling (507) 633-3100, or on the website at thegreenshack.net. They can provide the events offered with soda, movie style popcorn and cotton candy. We are talking about 38 flavors of cotton candy!!! The building can be booked for your event, or they will come to you.

Another aspect of their venture is giving back to the community. They have participated in events sponsored by Dodge Center Chamber of Commerce on Main Street in Dodge Center, as well as Dodge Days, Community Ed Events, and Fairs. They also host a community garden sponsored by The Center Clinic and University of MN extension.

Out the back door where the animals reside is becoming a beautiful oasis to sit on a bench and watch the animals interact with each other while you sip your cider or cocoa, eat your cookies, or bring your lunch during the nicer months of the year. It is a peaceful place to hang out.

Be sure to pop in and get your Halloween on, and see this hidden gem for yourself. It's an amazing place to see!!

From the simplest residential closing, to the more complex commercial or farm real estate transaction, Dodge County Land Title Company is committed to providing real estate transactional expertise and personal customer service.

Windy Willow Farm Adventure

By Cheri Roshon

Where can you find 40 different activities to do in one place, outdoors, and a variety of classes and fun gifts inside? Answer.... 9748 110th St. E, Northfield MN!! I met Colleen and Chad Almen at the Farmers Market in Dennison one windy end of summer day. They were buying some of my freeze dried candy, and telling me about their newest adventure on their farm, just a few miles away. I was intrigued, as they have some classes coming up that I would love to attend. They asked me if I would be interested in consigning some of my candy, and I said yes! We made a date to get together in a few days so I could see the Windy Willow Adventure, and deliver the goods.

As I drew near to the farm, I began to see structures spread all over the acreage. A giant Corn Hole game stood out, as well as rows of tires, and so many things, you will have to go

see it for yourself! There is a large driveway into a parking lot that I found out will eventually be home to craft fairs and Farmer's markets.

The set up is well planned for expansion and new ideas.

This farm has been Colleen's home since she was born. Her family all live close to or on the adjoining properties, so it is a family business right from the beginning. Colleen and Chad have 2 daughters that help keep the business running smoothly, and of course their 3 year old official Junior Manager, Ruth! Ruth is the daughter of Colleen and Chad's oldest daughter, Kayla Ballstadt, and she is happy to answer your questions! Ashley Almen is also on staff to answer questions and help you find what you are looking for.

Outside you will find many activities to choose from. A few of the 40 different activities are the giant Corn Hole game, Hay rides, a corn maze, and friendly farm animals to visit. There are cows, sheep, goats, turkeys, ducks, pigeons, chickens, rabbits, pheasants and a pig. Colleen's mother used to be in charge of the Children's Barnyard at the Rice County Fair, and Colleen has carried on the tradition at the farm. It's a place where all ages can connect to nature, and have a fun day exploring all kinds of things. It is fun to show the youngsters where their food comes from. I like the sign out front as you come in. The motto is "Bridging the gap between urban and rural areas, through exciting educational fun!" That pretty much says it all!

Indoors you will find a large area with homemade goods, from cookies and bars, muffins and freeze dried candy, to kitchen essentials like towels, scrubbies and dishrags,

to paintings, crafts and jewelry. There are pet supplies, hair accessories, coffee mugs, lotion and soaps. Local honey and maple syrup, cheese curds and meat sticks top it all off. And believe me, there is a lot to choose from as a souvenir of your day! There are even farm fresh eggs. On busier days, there is a food truck available, and on the slower days, a hot dog cart and fresh movie style popcorn.

Classes include a Barn Quilt Painting class on Nov 5th, a Paint and Sip on Nov 9th, a DIY wooden Christmas centerpiece on Nov.16th, Porch Pot class on Nov. 30th and Dec. 2nd, and a wreath Building class on Dec 2nd, too. January will be a Pour Your Own Epoxy Charcuterie board, and more to choose from. See The website for more classes and costs

at www.windywillowfarmadventure.com, To contact them with questions about the events, etc, email them at windywillowfarmadventure.com, or call 507-581-9248 to schedule your next event. They have indoor and out-

door spaces for birthday parties, family reunions, church socials, field trips and family fun days. As you can see, they have a little bit of many things for you to enjoy.

As I was walking around the property, taking it all in, I met Cathy Franklund and her family wandering around looking at everything Windy Willow has to offer. I asked her if she had been here before, and she replied, "I've been watching the progress for 2 years, wanting to come and see it all in person. As you come up the road, you get excited because you know it's going to be a lot of fun!" And I could tell the 3 generations were all having a great time on the property. Another lady I talked to said she brings her granddaughter to the farm often.

So, if you are looking for something to do to take advantage of our relatively short beautiful fall season, head over to Windy Willow Farm and see for yourself why once you visit, you will definitely want to go back, time and time again! And tell them Cheri sent you!

Ask the Nutritionist

By Noel Aldrich, PhD, CNS
Licensed Nutritionist

In last month's article, I presented the benefits of eating an apple each day. In my clinical practice, I love to present the ways that food can be used as medicine. Nutrition is designed for healing. Nutrition is the origi-

nal health program. When you recognize what foods will provide the nutrients your body needs, you are on your way to managing your health well.

But where do you start? First, consider the current health symptoms that you are managing. How long have you had these symptoms? Have you considered that your symptoms may be related to what you are eating?

For example, many clients will mention they have acid reflux. Acid reflux is also called GERD or "heart burn" because of the burning sensation located near the heart, especially following meal time. Many medical doctors will recommend antacids such as TUMS or Roloids, or will prescribe a medication to reduce stomach acid. However, too much stomach acid is not the problem. Not enough stomach acid is being produced. How can this be?

The problem is with the special muscle that connects your stomach with your esophagus.

This muscle squeezes shut when stomach acidity gets high. If the stomach acidity is

not high enough, it will resist closing. So the problem is not too much acid in the stomach, but not enough. Additional reasons this muscle may not close properly include: a hiatal hernia, H. pylori infection, obesity, smoking, some medications, and some foods like chocolate, onions, or alcohol, which relax the muscle that is supposed to close.

When prescription medications are taken to stop the production of stomach acid there are side effects. The chemical pathway to make stomach acid will be reduced, and the chemical pathway that makes energy for muscles can also be reduced. The energy pathway is affected by the same medication that slows down stomach acid production. In addition, lower stomach acid will increase the risk of bacterial infections coming through the digestive system. When the digestive system is working well with quality stomach acid then most bacteria are killed in the acidic stomach. A report from 2021 stated a 77% increased risk of dying from COVID infection among those who were taking prescription medication for acid reflux. Your digestion system has great defenses to keep you protected. You do not want to reduce these defenses.

Quality stomach acid is produced from foods that are rich in hydrogen. Fresh fruits and vegetables will provide much of what your body needs. Hydrogen and chloride will combine to make stomach acid that will be effective to digest your food. Good sources of chloride include - sea salt, rye, lettuce, celery, and olives. If you notice an

event of acid reflux coming on, eat some stalks of celery, some olives, or drink some celery juice and notice if this resolves the event. If you do improve quickly, you know that your body needs more chloride to produce the necessary stomach acid.

Some additional ways to address acid reflux may include:

- 1 Tablespoon of Apple Cider Vinegar mixed in a large glass of water with a meal
- Eat some sauerkraut or drink some cabbage juice with a meal
- Eat some papaya with a meal
- Eat fresh pineapple with a meal
- Take a digestive enzyme supplement such as Betaine HCl with a meal

As we get older, the body decreases its production of enzymes. Digestive aids from various foods or supplements will help to keep the digestion strong. In order to get all the nutrients from your food, you need to have quality digestion.

I welcome your questions and enjoy the opportunity to discuss healthy options with those who reach out to me with questions.

If you would like to present a question for a future article please write to:

Dr. Noel Aldrich, P.O. Box 167, Northfield, MN 55057

or send an email to: nutritionproportion@gmail.com

Embracing Unity: Exploring the First Universal Law of Oneness

By Susan Hinrichsen
CHC, CLC, MC
susiecoaches@gmail.com

In the tapestry of existence, there exists a profound principle that transcends boundaries and connects every facet of our reality—the First Universal Law of Oneness. This fundamental concept invites us to explore the interconnected nature of the cosmos and the potential impact it holds on our lives.

Understanding the Law of Oneness:

At its core, the law of oneness posits that everything and everyone in the universe is intricately interconnected. It's a perspective that goes beyond the surface of individual experiences, emphasizing the idea that we are

all threads in the same cosmic fabric. This interconnectedness extends beyond the tangible world, delving into the realms of spirituality, science, and philosophy.

Spiritual Perspectives:

Many spiritual traditions across the globe embrace the concept of oneness. Whether it's the idea of a universal consciousness, a divine energy, or a collective soul, the essence remains the same unity. Recognizing this interconnectedness can lead to a profound shift in perspective, fostering compassion, empathy, and a sense of shared responsibility.

Practical Applications:

Beyond the spiritual realm, the law of oneness finds resonance in practical aspects of life. Systems thinking, an approach that considers the interdependence of elements within a system, mirrors the principles of oneness. From ecological balance to social dynamics, acknowledging our interconnected existence opens doors to holistic solutions and a deeper understanding of cause and effect.

The Ripple Effect:

Every action, thought, or event creates ripples that reverberate through the fabric of existence. Understanding the law of oneness implies recognizing the profound impact our choices have on the collective experience. It encourages mindfulness and a sense of responsibility for the energy we contribute to the interconnected whole.

Embracing Harmony:

As we delve into the First Universal Law

of Oneness, we discover an invitation to embrace harmony. This isn't just a theoretical concept but a practical guide to living in balance with ourselves, others, and the world around us. It encourages a shift from individualism to a more collective consciousness, fostering a sense of unity that transcends borders and differences.

In conclusion, in a world often characterized by divisions, the First Universal Law of Oneness serves as a timeless reminder of our interconnected existence. Embracing this principle offers not only a spiritual awakening but also a roadmap for creating a more harmonious and compassionate world—one where the threads of oneness weave a tapestry of unity.

If you find yourself inspired to deepen your connection with this universal truth and integrate it into your daily life, consider the transformative power of personalized guidance. As a life coach, I specialize in helping individuals navigate the journey of self-discovery,

aligning their actions with the profound principles of oneness. Together, we can explore practical strategies to embrace harmony, unlock your full potential, and create a life that resonates with the interconnected rhythm of the universe.

Ready to embark on this transformative journey? Contact me at susanhinrichsen.com for a complimentary discovery call to explore how life coaching can be the catalyst for your personal evolution in alignment with the First Universal Law of Oneness.

Creating a Sense of Belonging

Tim Penny
So. MN Initiative Foundation

come.

Several years ago, SMIF became a member of Welcoming America, joining many other organizations and communities in our region which are dedicated to making southern Minnesota a welcoming place for all. We were excited to see many of our partners in our region celebrating the nationwide Welcoming Week in early September. One of the organizations that was very active during this time was B.E. Welcoming based out of Blue Earth. SMIF has supported the organization with two Small Town Grants. They organized a number of programs throughout the week, including a community bonfire, a story walk and inclusive yard signs to celebrate the people who make Blue Earth what it is.

Many of the inclusive programs that SMIF supports are focused on children in our region. SMIF's Early Care and Education Grant, which is currently open, helps fund early care and education services for children birth to age five, including initiatives which support underserved and diverse populations. During the previous grant round, Healthy Community Initiatives in Northfield used their grant for community outreach to promote local programming that helps low-income and BIPOC families prepare young children for kindergarten. The Rochester Montessori School used their grant to design weekly lessons for small groups using culturally relevant stories and activities for di-

verse classrooms.

We are also excited to open up a special round of SMIF's Inclusive and Equitable Communities Grant in late October. This grant supports initiatives which will build inclusive, welcoming entrepreneurial environments and opportunities, especially for BIPOC individuals and/or immigrants or refugees. Earlier this year, the Council of Churches Refugee Services in Mankato was awarded an IEC Grant to support small business leadership skills and engage in cross-cultural learning. The Owatonna Public

Schools is using their IEC Grant to provide immigrants and BIPOC adults the opportunity to learn more about how to successfully launch a small business. Look for details about this grant on our website in a few weeks at smifoundation.org/inclusive.

Belonging begins with us. We can all help make southern Minnesota a welcoming place for all.

As always, I welcome your comments and questions. You can reach me at timp@smifoundation.org or 507-455-3215.

The MBT Kid's Club is a fun way for newborns through age 13!

As a member of the MBT Kid's club
you'll have fun learning about
saving money and earning
cool prizes with our mascot,
Bailey the panda bear!

When you sign up, you'll get:

- An MBT Kid's Club piggy bank and a gold dollar to get you started
- A special surprise during the month of your birthday
- Earn entries into a grand prize annual drawing

MBT Kid's Club Accounts

Bring your parents or grandparents to any MBT Bank location to open your Savings account or Saver's CD!

Kid's Club Savings

- \$25 minimum opening deposit
- \$3 minimum balance fee, waived with \$25 minimum balance
- First 6 withdrawals per month free, then \$3.00 each
- Interest compounded monthly
- Monthly statements

Saver's CD

- \$25.00 minimum open deposit
- Any additional deposits must be \$5.00 or more
- Two CD terms to choose from
- Interest is added to the CD
- 12 month CD penalty applies
- Pays a higher rate of interest
- Maturity notice sent 14 days prior to the maturity date

Deposit Days

The last Wednesday of every month, we invite kid's to bring in their deposits for a special prize or treat!

Ages 14-23

When you reach age 14, we'll help transition you into a traditional account. Check out our **GoSmart Checking account**, designed for kid's 14-23. This interest bearing account earns a higher interest rate than our traditional savings accounts.

Congratulations to the Triton homecoming court and the Triton Cobras football team. The Cobras won their homecoming game 29-12 over St. Charles.

Cobra Communications

Craig Schlichting
Superintendent

One of my favorite things about Triton has always been the people that I have met and had the privilege of getting to know. Recently, at a superintendent meeting, we had a presentation from a company that works with schools and has a variety of services that they provide to help support schools. One of the Co-CEO's that was presenting was a former student that I knew from when I first started at Triton almost 30 years ago. When something like that happens, I can't help but smile and think about

all of the amazing students that I have had the opportunity to meet and know during my tenure at Triton Public Schools.

We currently have our entire high school English department composed of former graduates. Even our high school principal is a former graduate. We have a number of folks that work at Triton that are former students. They fill a variety of roles from driving bus, working with our food service, working as administrative assistants, custodians and paraprofessionals. Just about every position in the district has a former student that is working every role. It is always a blessing when we get to hire former graduates. They understand what an amazing school district we have, and are happy to return. I think it says a great deal about how amazing our school district has become over

the years.

I realize that I will retire at some point in my career, but having the opportunity to have worked for our amazing district is something that I am very thankful for. When I started at Triton in the fall of 1993, we were a very new school district and had just started working together to serve the three communities of Claremont, Dodge Center and West Concord. We have seen a number of changes that have taken place over the years, but the one thing that I think has always been a constant is the great people that live and work in our school district. I am thankful that I landed in such an amazing place and have been able to raise my family and work in such a great place with great people. We have a great number of things to be proud of in our school district, but one of my favorite things will always be

the great people that I have had the opportunity to serve as students. Even better is when you run into them unexpectedly and see them doing amazing things with their career.

Please reach out to me with any questions that you may have regarding our school district. You can email me at schlich@triton.k12.mn.us or you can call me at 507-418-7530 to reach me at the district office. I would be happy to set up a time to meet with you or your organization. I believe that communication is an important aspect of my job responsibility, and I welcome the opportunity to learn from your perspective. GO COBRAS!

We are planning many new and exciting exhibits and fun for the entire family — watch for more information over the coming months!

Triton Work Readiness Class

The Dodge Center Ambulance came to Triton's Work Readiness class to discuss careers in first responder careers.

Triton's Supermileage Program has students racing towards a bright future!

In an effort to increase support for and promotion of Technology Education, public awareness in the area of fuel economy and student involvement, MTEEA will hold the Supermileage Challenge, a fuel economy competition for technology students every spring. Competing students and clubs will be challenged to build a one-person, fuel-efficient vehicle powered by a single cylinder four-stroke cycle engine. The 33rd annual competition will feature vehicles competing in Pro Sport, Super Sport, E-85, Urban Concept and Plug in Electric classes.

The supermileage season is fast approaching. 2023-2024 will be the 3rd season after a 20-year hiatus. For some students this will be their 3rd year competing and the advisor's second year advising. The year 2021 showed us there was definitely a need for the club as many people were interested in competing. We learned that year that too many people was detrimental to the team. Organizing and delegating duties was a job in itself. Last year with a core group of 5 on a team worked, but still had room to grow. Ideally a team needs to be well organized and have a solid 7-10 members. Last year's team consisted solely of 10th and 11th graders that worked well together. This year it will be exciting to incorporate new members. The Supermileage Club is looking for 9-12th graders with an interest in the manufacturing process and in motorized vehicles.

Going forward ideally, we would like to create 2 teams, basically a Junior Varsity and a Varsity team of 7-10 members each. The competition allows us to use the same vehicle for 3 consecutive years with a major modification each year. The modification could be fuel type, chassis design or some other main component.

This year's Varsity team is excited to use their experiences of the last two years and create a new vehicle utilizing the success and failures of the past 2 years. The 2022-2023 would be handed down to the JV squad with several recommended modifications. This repurposing of the vehicle will allow it to be modified with minimal expense to the club. The JV team will have a season with a proven vehicle to learn on and gain their own experiences with the Varsity team mentoring them

through the entire process.

Each team would have their own set of Officers with Varsity members mentoring Junior Varsity Officers throughout the entire process. All members would be responsible for fundraising and the manufacturing and design of the car. Formal meetings will be held twice a month that may be followed by workdays or used to schedule workdays.

The objective of the competition is to provide Career Technical Education students and MTEEA Clubs with a challenging project that allows practical experience in design, fabrication, and testing. This is exactly what the STANDARDS FOR TECHNOLOGICAL LITERACY from the International Technology and Engineering Educators Association are all about!

In an effort to increase support for and promotion of Technology Education, public awareness in the area of fuel economy and student involvement, MTEEA will hold the Supermileage Challenge, a fuel economy competition for technology students every spring. Competing students and clubs will be challenged to build a one-person, fuel-efficient vehicle powered by a single cylinder four-stroke cycle engine. The 33rd annual competition will feature vehicles competing in Pro Sport, Super Sport, E-85, Urban Concept and Plug in Electric classes.

For the Supermileage Challenge, cars were expected to make 6 complete runs on the Brainerd International Road course. Each run is two laps around the course for a total of 6.2 miles on each run. The minimum time allowed is 15 minutes with the maximum time being 24 minutes. The maximum speed allowed is 30 MPH with no minimum speed. The race directors supply the fuel bottles which hold 250 ml of pump grade fuel. The race directors measure the weight of the fuel before and after each run to calculate the fuel used. The average of six runs fuel economy will decide team placement. If a team fails to complete 6 runs they will not be eligible for placing in the competition.

2022 season best of 246 MPG but completed less than 6 runs

2023 season best of 201 MPG and completed more than 11 runs

2024 season goals are yet to be determined.

2022 was an example of good efficiency but poor reliability. 2023 yielded good reliability but less efficiency. Experience and new members with new ideas should see an all-around improvement. The following are some of the guidelines that we need to adhere to.

- Some of the car's requirements include:
- Pro Sport-Any motor between 0-140cc
 - Super Sport-Any motor between 141-250cc
 - E-85 CLASS-Any motor between 0-250cc run a fuel mixture of an 85% Ethanol blend fuel.
 - URBAN CONCEPT CLASS
 - The vehicle must have 4 tires in contact with the road at all times
 - The vehicle must have an enclosed body with a windshield and roof
 - Wheels must be located inside of the body

• Each vehicle must have a steering geometry capable of a 35 foot inside turning radius.

- Vehicle wheelbase may not exceed 114" Length X 70" Width.
- SuperMileage Challenge requires a minimum of two kill switches grounding the engine ignition
- brakes must hold the vehicle and driver on a 15-degree ramp
- the driver must be able to exit the vehicle unassisted in under 10 seconds.
- All vehicles are to be equipped with at least two rear view mirrors
- A minimum 5-point, SFI type race harness is required

Generous donations from individuals and businesses within the community are what allows this program to exist.

Triton Honors Profile of a Graduate Award Winners!

Congratulations to the latest Profile of a Graduate Award Winners! These students continue to be leaders and role models. They have excelled in the profile area of communication.

The Triton Profile of a Graduate is our locally developed approach to what it means to be a graduate of Triton High School. We have incorporated many principles and competencies designed to help all students develop the skills necessary for success in college, in a career, and most importantly in life.

The Profile of a Graduate is designed around a community-engaged process to create a beacon for future educational strategic planning. It presents a clear visualization of priority goals for teaching and learning that can be easily communicated to students, parents, and staff to align collective efforts. Our Profile articulates the Triton community's aspirations for all students and will serve as a North Star for future system transformation.

Driver's Training with Mr. Johnson and Enhanced Driving Institute

The Enhanced Driving Institute is proud to offer the most comprehensive driver's education program available, and we are extremely excited to be bringing our program to Triton High School with a teacher the students know and trust! Our next class will run October 23rd -November 3rd. Classes will be Monday-Friday from 3:30-6:30PM and will be held in the Triton High School Media Center.

All students over 14 years old are legally eligible for class, though we recommend waiting until students are 15 or nearly 15. Our Complete Package (\$415) includes 30 hours of classroom instruction AND the 6 hours of Behind the Wheel Training with a licensed instructor that is required by the state of MN. All behind the wheel lessons will begin and end at our Rochester campus location. The Complete Package is subject to a one year program agreement which requires all 3 behind the wheel lessons to be completed 10 months after the first day of class. Students who will not turn 15 for a bit, could also register for the Classroom Only Package (\$240). The Classroom Only Package is not subject to a program agreement. These students would receive their Blue Card when they enroll in BTW training (\$240).

All registration is done completely online through our website: <https://www.enhanceddrivinginstitute-mn.com/triton>

If you want to know more about our program e-mail Mr. Johnson: jjohnson@trion.k12.mn.us

Triton High School Concurrent Classes

By Christi Runnells

Each issue of this school year's Triton Times, I'd like to highlight Triton High School's concurrent course offerings available to our students. A concurrent course is a class that upperclassmen can take to earn both high school and college credit—FREE and right at Triton. Concurrent courses are taught by our own Triton teachers to sections made of only Triton students. Students earn anywhere from 1-4 credits for each class, depending on which class they take. Teachers must have a master's degree and a minimum of 18 graduate credits in that field. This month we'll look at some of the English department offerings.

Concurrent English 1 is the equivalent of Rochester Community & Technical College's ENGL 1117 Reading & Writing Critically 1

and ENGL 1118 Reading & Writing Critically 2. Successful completion of each semester course earns the student 4 credits, for a total of 8 credits of English. This course is open to juniors and seniors who have a qualifying ACT or MCA test score or pass into college level reading on the Accuplacer test. We could find documentation that we have had this class for 23 years at Triton, but we think it started even before that around 1996. (If anyone reading knows the start year—I would love to know!). Currently Karen Kleinwort and Anne Wotherspoon each teach one section of this course. Ms. Kleinwort stated she loves to see students challenged and see themselves grow in new ways. She feels this is a great way to get a taste of college rigor while still having the high school

student experiences. When asked who should take this class, her answer was "Everyone! This class is worth it! Many do not believe they can do it, but I have seen them not only successful, but gain confidence in all areas of their life because they meet and exceed their own expectations."

Concurrent English 2 is the equivalent of Riverland Community College's ENGL 2241 American Literature 1 and ENGL 2242 American Literature 2. Each semester is 3 credits, for a total of 6 credits earned if the student successfully completes both semesters. The course is open to seniors who have taken Concurrent English 1. Anne Wotherspoon helped us bring these courses to Triton and has taught the course since we started offering it in the 2018-2019 school year. This is her fifth year teaching the course. As a second level class, it allows students to really dive into American literature. Ms. Wotherspoon especially enjoys hearing the students' insights on the literature they're discussing. She believes this is a valuable class for Triton students because it can save them thousands of dollars instead of taking the class in college and it's a great way to see what shaped modern literature from the beginning. She also adds that this class includes a persuasive speech, which helps to prepare students for

their capstone senior board.

We are very proud of our ability to offer college credits to students right here at Triton. Ms. Kleinwort summed up concurrent courses best: "Even if students do not think they are college bound at the moment, it is still beneficial to take advantage of the concurrent opportunities. It may be that one day down the road they decide to try something new. Concurrent allows them to save time and money even if it seems like an unlikely possibility at this point in their life."

Thank you to Concord Church of Christ for their donation of school supplies!

If you or your organization would like to donate to Triton Public Schools, please call the Elementary Office at 507-418-7500 to find out what is currently on our list of needs!

COLOR RUN

Sign up for the color run today!

When? November 4th at 10:00 AM

Where? Triton High School

Why? To raise money and awareness for suicide prevention (proceeds go to NAMI Rochester)

Registration is \$20 and includes a T-shirt

Registration forms can be found in the Triton High School office or in this QR code down below.

OUR STORIES--- Improv Class Child's Play Theatre

Have you ever told your own version of a story or movie you watched? In this class, we'll take stories the students are familiar with, and they will need to improvise the entire story using all of the main characters and plot points in less than 5 minutes! Think you can act out the entire story in just 5 minutes or less? If you can, then this might be right up your alley!
 November 3
 Cost: \$17
 3:15-5:15PM at TES Media Center

Triton Early Childhood Family Education

Please pre-register for these classes so that we can prepare to accommodate all participants. Call 507-418-7550 to register.

Growing Together—Friday Mornings Children 2-5 years, not yet in kindergarten and an adult

Join Mrs. Vermilyea on Friday mornings and meet some new friends! This class provides time together with your children in a variety of activities that will help your children develop new interests and social relationships. Mrs. Vermilyea will provide many activities, games, toys, and crafts for your children to explore. The last half hour of the session will give parents time to connect with other adults to share in supportive discussions about the topics that are on their minds.
 Cost: \$20/family per Semester
 Fall Semester Dates:
 September 22, 29
 October 13, 27
 November 10, 17
 December 1, 15
 10-11:30AM in Mrs. V's Room (#315)

Evening Adventures Children aged 2-5 and an adult

Join us this fall with your preschooler, ages 2- 5 years (not yet in kindergarten). Mrs. Vermilyea will plan a special evening centered around a theme. You will participate in activities, games, explorative play, reading and art around the same topic. Mrs. V has also invited many experts from our community to join you and share their knowledge and resources to make these truly amazing experiences for all who participate. Snacks will be provided, so PLEASE alert us if your child has any allergies or sensitivities to food.
 Please pre-register for each of these classes, so that we can provide the appropriate number of materials and supplies needed.
 Cost: \$8/class or \$20 per semester/family
 Dates:
 October 4 Healthy Habits
 October 30 Halloween Hijinx
 (wear your costume if you'd like!)
 November 1 TBD
 November 29 TBD
 December 6 TBD
 ***TBD topics that are being scheduled are focused on the environment/nature, bugs, farm animals, construction, gym time, music, and food. We'd love to hear what interests you and your child have for future sessions. Feel free to email us at avermilyea@triton.k12.mn.us with your ideas!
 6-7:30PM
 All classes will be in Mrs. Vermilyea's Room #315 in the Elementary School.

Triton Youth Wrestling Try It Day

Kids Preschool-6th Grade are invited to give wrestling a try!

This 2 day camp a for kids who have never joined wrestling before and want to try it before deciding to register for the youth wrestling season.

Kids must pre-register for this event so that we are prepared with enough help to give all kids the attention that they need.

**Kids Prk through 6th Grade
 Tuesday 11/7 and Thursday 11/9.
 6-7:30PM in Triton's Multipurpose/Wrestling Room,
 enter through the Main Activities Entrance
 FREE**

To Register use this QR Code

Participants assume the risk of injury in route to and from as well as during these events, and by registering wave any suit due to injury. Parents must acknowledge with a YES on the registration form in order for their child to participate in the CE Youth Wrestling Try It Days.

TRITON COMMUNITY ED ADULT ENRICHMENT 507-418-7550

Knitting for Beginners with Sandy

Sandy Huber

Learn the basics of knitting and start a new life-long hobby! Sandy will teach you how to make an 8" dish rag. She will have odds and ends yarn that you can use, or bring a skein of yarn that you would like to use. You will also need to bring your own knitting needles (size G or H) is recommended to learn with.

Cost: \$14

This is a 2-night class:

October 23 and October 30

6:30-8PM, both evenings (3 hours of instruction total)

Triton's FACS room located in THS Room 150

Enter through the Main HS Entrance

Learn to Crochet!

Brittany Wilcox, The Green Shack

Join Brittaney from the Green Shack and learn to crochet! Crocheting is an easy and relaxing hobby that will help you find your creative side. You will work on a project that should be completed at the end of the class. She will teach you the basics and before you know it—you'll be a pro! Min 2, Max 8.

Cost: \$28, includes supplies needed

5 evenings--November 13, 14,15,16,17 from 5:30-7PM

Triton's FACS room located in THS Room 150

Enter through the Main HS Entrance

The Marvelous Wonderettes

Sidekick Theatre at the Masonic Heritage Museum, Bloomington, MN

This smash off-Broadway hit takes you to the 1958 Springfield High School prom where we meet Betty Jean, Cindy Lou, Missy, and Suzy, four girls with hopes and dreams as big as their crinoline skirts! As we learn about their lives and loves the girls serenade us with classic 50's hits including "Lollipop," "Dream Lover," "Stupid Cupid," and "Lipstick on Your Collar." In act two, the Wonderettes reunite to take the stage and perform at their ten-year reunion. We learn about the highs and lows the young women have experienced in the past decade and are charmed to find that no matter what life throws their way, they will conquer it together. Featuring over 30 classic '50s and '60 hits, The Marvelous Wonderettes will keep you smiling in this must-take musical trip down memory lane!

We will have a beautiful buffet lunch in the ballroom. The lunch menu is Creamy Chicken Breast, served with Roasted Red Potatoes, Glazed Carrots, Coleslaw, Dinner Rolls, Assorted Dessert, Coffee, Hot Tea, and Water. Maximum 30 guests.

Cost: \$88, includes ticket to show, lunch buffet/gratuity, and coach bus ride

Wednesday, November 8

Save Your Brain, Prevent Dementia

By Shauna Burshem, D.C.

Save your brain, prevent dementia. The more you eat a diet based on whole healthy foods the more you can improve brain power and brain function. Certain foods can delay or prevent age related cognitive decline and other brain disorders. For instance, anchovies, sardines, mackerel, herring and wild caught salmon are full of omega 3 fats that have neuroprotective properties for the brain. Cruciferous vegetables (broccoli, cauliflower, asparagus, brussels sprouts) and leafy greens also contain brain protecting nutrients like folate, vitamin E, K, lutein and beta carotene. Free range, grass fed eggs, particularly the yolks contain choline which is needed for your body to make acetylcholine which is involved in maintaining

your memory.

Women with the highest cardiovascular fitness had an 88% lower risk of dementia than those with moderate fitness. Cardiovascular fitness can be used as measure of how well blood is circulating to your heart and your brain.

Tomatoes and fruit have been shown to improve lung function. A recent study showed that former smokers who consumed tomatoes and fruit improved lung function and even restored damaged lung tissue. The two main compounds responsible for helping the lungs were the flavonoids contained in fruit and the lycopene contained in tomatoes.

The federal government has rebranded the covid boosters as a new annual vaccination. Sadly, Pfizer's testing of the new formulated booster only involved 10 mice. Moderna's version was only tested on 50 adults. The updated mRNA injections were developed to correspond to the Omicron variant, which now only accounts for 3.1% of the circulating strains currently out there.

46% of American adults suffer from high blood pressure. High blood pressure is affected by circulating blood volume and blood vessel constriction, both of which are regulated by the kidneys. Research data demonstrates high levels of uric acid, cleared through your kidneys, may increase your risk of gout and kidney stones and raise your blood pressure. Vitamin D helps protect against early kidney disease and therefore helps prevent high blood pressure.

Chiropractic and neuroplasticity: Neuro-

plasticity is defined as the brain's ability to change, reorganize or grow neural networks. Neuroplasticity is a common talking point when discussing degenerative brain conditions, such as Alzheimer's or dementia. Memory loss, brain fog, and mental exhaustion are symptoms of neuroplasticity degeneration. The spine – specifically the cervical spine – plays a very direct, very integral role in maintaining brain function. The spine houses essential nerve bundles and lymphatic delivery systems, which are charged with feeding the brain. Nerve bundles housed in the cervical spine carry critical messages to and from the brain, facilitating both unconscious and complex functions. Likewise, blood supplied to the brain provides oxygen, amino acids, electrolytes, hormones, and more, for healthy operation. With the link between the spine and brain evident, researchers have begun to look at how chiropractic may be used as a tool to help preserve positive neuroplasticity. Clinical studies have already begun, monitoring the effects of chiropractic on patients' abilities to solve puzzles, multi-task, and recall memories. A 3-year study comprised of 100 volunteers, presented at the International Research and Philosophy Symposium held at Sherman College of Straight Chiropractic. The study monitored the mental activity of participants using electroencephalograms (EEG), comparing readings before and after chiropractic adjustments. In an overwhelming majority of readings, brain function showed improvements across the board.

It's Easy to Make a Plan for a Safe and Successful Deer Hunting Season

By Minnesota DNR

As archery deer hunters enjoy the current hunting season and 400,000 hunters prepare for firearms deer hunting seasons, the Minnesota Department of Natural Resources reminds hunters to plan ahead for a safe and enjoyable hunt.

“Enjoying the hunt is a lot easier after doing

some simple planning. To that end, we’ve added a wealth of information for hunters on our website to assist in preparing for deer hunting,” said Barb Keller, Minnesota DNR big game program leader. “Using these planning tools is easy and can open up some breathing room for hunters once the season arrives so they can focus on having a safe and successful hunt.”

The Minnesota DNR’s online make a plan tool opens in a new browser tab provides a comprehensive step-by-step list of information hunters need to consider before heading to deer camp. Hunters can walk through the steps to consider, including knowing the hunting regulations, planning for deer processing, getting their deer sampled for CWD, being safe and making the most out of their hunt. To use the online tool, all hunters need to know is the deer permit area

number or DPA numbers where they intend to hunt, which they can find on an interactive deer map.

In Minnesota, archery deer season began Sept. 16 and continues through Sunday, Dec. 31. Youth and early antlerless seasons are

Thursday, Oct. 19, through Sunday, Oct. 22, and firearms deer season is Saturday, Nov. 4, with various closing dates depending on a hunter’s DPA. Muzzleloader is Saturday, Nov. 25, through Sunday, Dec. 10.

Halloween Safety Tips for Pets

Some pets love the hustle and bustle of Halloween, while others will find this spooky holiday a bit stressful. We recognize that animals are individuals, so while you while enjoy the festivities, consider it from your pet’s perspective: A dog’s natural instinct is to protect their home or to alert you that a stranger has arrived, while cats typically prefer a quiet environment with their family. Trick-or-treaters continually knocking on the door or ringing the bell can be very stressful to both dogs and cats. Read on for our tips and tricks on taking the terror out of your pet’s Halloween!

1. Halloween hype causes pet stress

Before the trick-or-treating starts, put your pets in a quiet room where they will be safe from all the Halloween activity. If your pup is likely to try to run out the front door and is comfortable in a crate, consider putting them in the crate with a treat-filled toy and some soft music playing in the background. A spritz of Feliway (find it on Amazon!) can help keep cats calm.

Minimize noise by sitting outside to keep trick-or-treaters from knocking on the door or ringing the bell.

Even if you are just having friends over for a Halloween party, keep your pets away from the festivities in their safe room. Masks and costumes change how people look and smell to a pet, so even familiar people may become frightening. Put a sign on the door to the safe room so your guests know it’s off-limits.

When going out trick-or-treating, leave your dog at home. Dogs can be easily excited by the Halloween commotion, and a bite or a lost dog will quickly end the evening’s fun.

2. Halloween candy—a treat for you, a trick for your pet(s)

Pre-Halloween and during trick-or-treating, keep candy safely stashed in a high cabinet secured with a lock or child-safety latch. Many foods, such as chocolate, gum and xylitol (a sweetener used in many foods) are hazardous to pets.

Watch your kids! Children may make the harmful mistake of sharing their loot. Make sure they know the difference between a treat for them and a treat for their four-legged friends.

Keep the 24-hour ASPCA Animal Poison Control Center hotline handy: 888-426-4435. (The hotline may charge a consultation fee.) If you suspect your pet has eaten something that’s bad for them, call your veterinarian or the Poison Control Center immediately.

Pumpkin can be good for dogs and cats, but too much can cause digestive issues. Rotting pumpkin may harbor bad bacteria; keep jack o’lanterns safely away from becoming a holiday snack.

3. Steer your pets away from dangerous Halloween decorations

Introduce your pets to their safe room before you decorate indoors. Changes to your home can make your pets, especially cats, nervous or frightened. Or they may decide those fake spiders pose an existential threat and need to be killed.

Be aware of which decorations pose threats. Some hazards are obvious, like lit candles (fire hazards and toxic to birds if scented). Other potentially dangerous decorations include rubber eyeballs (choking risk), glow sticks and fake blood (possible poisons), fake cobwebs (can choke or entangle pets and wildlife), potpourri (toxic to birds) and strung lights. Watch out for those candy wrappers and plastic packaging too!

Create pet-friendly holiday décor. Make your cat a haunted house out of cardboard boxes or put treats and toys in a paper bag (remove any handles first as cats can get stuck) for a feline version of trick-or-treat.

4. Be cautious with pet Halloween costumes

If you do choose a costume for your pet, consider your pet’s personality and what type of costume they may tolerate and for how long. Masks and hats that fit around the face, for example, may be OK for the length of time it takes to snap a quick pic, but they can pose dangers and make your pet feel uncomfortable. Best to keep pet costumes minimal.

Keep an eye on your costumed pet to make sure the costume is comfortable and allows your pet to move freely. Also be sure to remove any chewable parts or objects that could come off and choke your pet.

If your pet appears uncomfortable, take off the costume. Signs of discomfort include folded down ears, eyes rolling back or looking sideways, a tucked tail or hunching over.

5. Protect your pets from outdoor dangers

Bring your pets indoors before night falls. Cats are always safest inside with you, but on Halloween it’s especially important to secure all pets inside so they don’t run away out of fear of adults and children in costumes.

In case they escape, make sure that all your pets are wearing tags with current IDs and that their microchip is registered with your most up-to-date information. Opening the door repeatedly for trick-or-treaters creates plenty of opportunities for a pet to slip outside and disappear into the night. Proper ID will help you reunite with your lost pet and take a recent picture of your pet that can be used for lost flyers just in case they get lost.

Be aware that not all the wild creatures outside will be wearing costumes. You may see nocturnal animals such as raccoons, opossums and foxes foraging for food while you’re trick-or-treating or walking from your car to a party.

Do You Need Life Insurance After You Retire?

Do I still need life insurance after I retire? I've been thinking about dropping my policy to escape the premiums. Is this a good idea? --Approaching Retirement

Dear Approaching,

It depends on your family and financial situation. While many retirees choose to stop paying their life insurance premiums when they no longer have young families to take care of, there are several reasons you may still want to keep your policy. Here are some different factors to help you decide.

Family situation: Life insurance is designed to help protect your spouse and children from poverty in the case of your untimely death. But if your children are grown and are on their own, and you have sufficient financial resources to cover you and your spouse's retirement costs, then there is little need to continue to have life insurance.

On the other hand, if you had a child late in life or have a relative with special needs who is dependent on you for income, it makes sense to keep paying the premiums on your policy.

You also need to make sure your spouse's retirement income will not take a significant hit when you die. Check out the conditions of your pension or annuity (if you have them) to see if they stop paying when you die, and factor in your lost Social Security income too. If you find that your spouse will lose a significant portion of income upon your death, you may want to keep the policy to help make up the difference.

Debts: If you are still paying off your mortgage or have other large debts, you should probably keep your policy to help your loved ones pay off these debts when you die. But if your debt payments are a small part of your net worth that poses no risk of financial difficulty, then you may not need it.

Work: Will you need to take another job in retirement to earn income? Since life insurance helps replace lost income to your family when you die, you may want to keep your policy if your spouse or other family members are relying on that income. However, if you have very little income from your retirement job, then there's probably no need to continue with the policy.

Estate taxes: Life insurance can also be a handy estate-planning tool. If, for example, you own a business that you want to keep in the family and you don't have enough liquid assets to take care of the estate taxes, you can sometimes use a life insurance policy to help your heirs pay off Uncle Sam when you die.

To help you with this decision, consider talking to an estate-planning expert or a fee-only financial advisor who can help you weigh out the pros and cons.

Sell or Swap Your Policy

If you decide that you don't need your life insurance policy any longer, you may want to consider selling it in a "life settlement" transaction to a third-party company, which typically pays four to eight times more than the policy cash surrender value. The best candidates are people over age 65 who own a policy with a face value of \$100,000 or more.

If you're interested in this option, get quotes from several life settlement providers or brokers in your state. To find them, the Life Insurance Settlement Association provides a directory at LISA.org.

Another option is to use a tax-free 1035 exchange to swap your policy for a hybrid product that blends life insurance with long-term-care insurance coverage. These products come in various forms, but they often combine a whole or universal life policy with a long-term-care rider. If you don't use the long-term-care coverage, your heirs get the death benefit.

Changes in Latitudes, Changes in Attitudes Memories of my Great Grandfather Norman

By Terry Campbell

This column is written by Messenger editor and Minnesota native Terry Campbell. Terry now splits his time between Minnesota when it's warm here and Tennessee when it's cold here.

My grandmother told me stories of my great grandfather Norman Campbell. His parents homesteaded our farm in the 1850's before Minnesota was granted statehood. When he was just a small child, the Dakota Indian uprising of 1862 took place. The story was that during this time in August of 1862, his parents kept the horses hitched to the wagon at all times fearing that they would have to flee to Rochester if news that the Indians were approaching. The horses remained harnessed with the buckboard packed and ready to leave at a second's notice if necessary.

The Minnesota Indian War of 1862 caused the greatest loss of civilian life of any one incident until the terrorist attack of September 11, 2001 in New York. The corruption of Indian agents withholding payments to the Dakotah tribe was the catalyst for the uprising. Trading post owners would take the funds to be distributed to the Indians per the treaty agreement, and claim as payment for past debts. Some years they withheld nearly all the money. When desperate Indians tried to buy food on credit, one trader told them to eat grass. He was one of the first killed in the

uprising of August 17, 1862. Little Crow the Dakota chief advised against the uprising but young braves were not dissuaded. Over the next couple weeks more than 800 settlers were killed in the New Ulm area as Indians attacked settlers farming there, before troops arrived and over powered the Indians. Thirty-eight Dakota braves were hanged in Mankato in December of 1862 for their part in the killings. Many of the settlers had been friends with the native Indians in western Minnesota and blamed the government for the war more than the Dakota Indian tribes.

There were more dangers lurking on the homesteaded farm one hundred and fifty years ago. One evening Norman brought the horses into the limestone barn which was cut into the hillside. As he went to scoop some oats out of the burlap bag sitting on the floor, he held the lantern up and saw there was a rattlesnake coiled up in the bag. Fortunately, he looked before he reached or I may not be telling this story here today. One afternoon in the late 1880's, Norman found a number of rattlesnakes sunning themselves on the rocks along the bluff on the north end of the farm. He took a stout oak branch and cudgled eighteen of the reptiles to death that day. His hunt must have been complete because I heard of no other rattlesnake stories on the farm. Never the less this story made quite an impression on me as a young boy and I explored the woods with a snakebite kit and my trusty .22 rifle.

My father also told of a story about Norman later in his life. He took the buckboard and horse to Mantorville one day for supplies and the hired man asked him to bring him back a plug of chewing tobacco and a bottle of whisky. One the way home Norman stopped by a number of the farms on the way and talked with the farmer and gave his horse a drink at the water trough under the windmill. As he visited, he would offer the farmer a nip from the bottle. After three or four such stops, he noticed the bottle was getting empty, so at the last farm he refilled the bottle from the hand pump and put the cork back in. The next time he went to town, the hired man asked him to buy the whiskey somewhere new because the last bottle was quite weak.

My great grandfather Norman with his four hitch team of horses

A Minnesotan: Trunk-or-Treat

By RosaLin Alcoser

With the exception of 2020, every Halloween since I graduated from college I have participated in Trunk-or-Treat in the church parking lot. Which I absolutely love taking a part in, mainly because I really love Halloween.

For those of you who might not know what Trunk- or- Treat is, it's when children go trick or treating in a parking lot, often at a church, during the day by going from car trunk to car trunk to get candy.

Ideally the people who set up a car trunk for the kids to go to have decorated said trunks for the children. Much like some people used to do to their yards or garages when I was a kid going out on Halloween night.

Even though I can't go over the top with a trunk like I remember some people doing with their houses I still try to get really into the decorating part. Last year I had bats and ghosts hanging all over my hatch back. This year I'm turning it into a 90's Halloween movie grave yard. Which completely isn't just an excuse to buy a plastic skeleton and dress it up.

It is completely an excuse to buy a plastic skeleton and dress it up. His name is now Gary.

The first couple of years I was really just helping out a family member with their trunk but last year I started doing my own. Which is one of the real signs that you're moving up in the world is when you have to start doing or bringing our own thing to the event instead of being tagged onto someone else's.

I love helping at this event and the people running the event love me coming to help because I usually know or can guess what the kids are dressed up as. I for one remember that it was super important to me as a kid, and now, for the adults to know what my costume was when I was a child. Even in the event when I was the only one who knew what I was for Halloween it was still super important to me that people knew what I was without me explaining it to them.

It is starting to get harder for me to know what some of the character costumes from the newer shows meant for preschool and kindergarten aged children are as Halloween is slowly becoming the only time that I interact with children of that age. Anything that is a classic costume though I can identify nearly every time.

DO YOU HAVE A STORY IDEA?
