

North Carolinians' right to know
disciplinary records of THEIR state and
local government employees ranks near
the bottom of all states!

WHAT IS THERE TO HIDE?

It's high time NC joined the ranks of the most transparent states by passing the **Government Transparency Act of 2023**. Governor Cooper should call out Democratic leaders and the party's rank and file for going AWOL on a significant public policy improvement for North Carolina. We need transparency now more than ever...***we have a right to know***. Contact your lawmaker and ask for them to support this bill or ask what they are trying to hide.
