## Flag disposal box at Veterans Park is a Cecil Harrison memorial

**BY BRANDON LACHANCE**  
Amboy News Reporter

**AMBOY** — When Cecil Harrison passed away this summer, members of the American Legion Post #453 Poths-Lavelle in Amboy put their noggins together to think of a way to properly honor their brother at arms.

After some time, it became obvious of what the legion was going to do in memory of Harrison.

With the help of many, they created a flag disposal box at Veterans Park to honor “Cecil the flag man.”

“Cecil used to be one of our riflemen. When he got older and couldn’t handle the rifle anymore, he said, ‘I want to be the flag man,’” said Jack Mead, the commander of the Amboy American Legion. “Of course, don’t ever name yourself because then you’re stuck there. Cecil became ‘Cecil the flag man.’ He loved doing it.”

“Our dad’s responsibility at the graveside services for fallen veterans that the American Legion provides, was to hold the American flag,” the family of Cecil Harrison said. “A job he took very seriously and was extremely proud of, so it is very fitting that the Legion chose to memorialize him in this way.”

“He was a long-term legion member. He had been here at least 50 years. He was always very active in the legion, or at least as much as he could be,” Mead said.

“Dad was a very proud member of the American Legion; he loved his country and all that our beautiful flag symbolizes,” the family of Cecil Harrison said.

The Amboy Legion, named after Poths-Lavelle who died during World War 1, has been active in the community for 102 years.

And although the legion has had a long history in Amboy, they didn’t have a designated spot to collect retired flags.

“Steve Gardner, a member of our legion, said, ‘At our Veterans Park, we do not have a disposal for retired flags.’ We were going to use an old mailbox. We found that they’re almost impossible to find,” said Mead, who has been the post’s commander for the last seven years. “I’m sure there are junkyards full of them, but we couldn’t find any. Mike Hickey, another member of our legion, said there was a box at First National Bank that used be an old courier box. It was just sitting there. We got the box and Joe Dewey, owner of Becker Auto Body, volunteered to sand blast the rough exterior and paint it the American flag blue.”

Mead’s wife, Loreen Mead, painted the lettering on the box, just like she had painted the murals on the side of Becker Auto Body. The lettering reads “Cecil Harrison Memorial, donated by his family, 2022.”

“I think it is important. People used to leave flags at city hall, the bank, or on our front porch,” Mead said. “It’s good to have one local area where everyone can correctly dispose of flags. The box has been there a month and you can’t believe how many people have saw the box and brought their retired flags that they have piled up at home.”

“We the family would like to thank the American Legion for this beautiful memorial honoring our dad/husband. He would be so humbled and proud,” the family of Cecil Harrison said.

## CLIPPERS ADVANCE

*The Clippers wanted revenge for their 40-30 Week 4 loss against Milford/Cissna Park. They capitalized on the opportunity in dramatic fashion during a second-round playoff game on Saturday as the Clippers took the lead for the first time in the fourth quarter and secured a Milford fumble to ice a 30-28 victory. The No. 5-seeded Clippers play No. 8 St. Thomas More in an 8-man football semifinal at 2 p.m. Saturday in Amboy. A story on the game and more pictures appear on pages A10 and A11.*

## TEC5 Donald Joseph Girton

The year 1919 was an eventful one for Americans. The 18th amendment known as Prohibition took effect in January, women were guaranteed the right to vote with the nineteenth amendment in June, Babe Ruth went from the Red Sox to the Yankees, and labor strikes and anarchist bombings were

common news headlines. The President was Woodrow Wilson, and Americans hoped world wars were finished once and for all.

Meanwhile in Amboy, the economy was rooted firmly in railroad traffic and farming, as families held high hopes for the future. In that same year, Donald Joseph Girton was born on Oct. 21 to Louis and Julia Hanrahan Girton. When the family was filled out, Donald would be the sixth of eight children born to this couple, residing at 330 S. Madison Street.

When the first peacetime draft took effect in 1940, many families had spent a decade struggling through the Great Depression and all its cruel scarcity. Donald’s father, like many men that year, was employed on a W.P.A. government road building project to make ends meet. In October 1941, before

America’s entry into World War II, Donald J. Girton was drafted, and entered the U.S. Army in Chicago. When his training was complete, he was assigned to the 87th Armored Field Artillery Battalion as a technician. Army technicians were soldiers who had the essential training for operating tanks, howitzers, or other specialized military equipment. Eventually, Donald would achieve the rank of Technician, grade 5, making him indispensable to army artillery units.

The 87th AFABN ar-

rived on Omaha Beach on D-Day+3, or June 9, 1944. After securing routes inland from the beaches, paratroopers and infantry became heavily engaged in the deadly hedgerow fighting while other troops secured roadways to move tanks and artillery further into the mainland. After fighting through hedgerows, American forces moved west toward Cherbourg, a key coastal port for receiving more Allied Troops and denying German reinforcements. From there, the Army pushed south to break out of Norman-

dy and further on toward Paris.

On July 24, the U.S. Army launched Operation COBRA, designed to break through German lines at St. Lo. With this battle, the army focused on clearing German troops from northern France and in the weeks to come, moving south to liberate Paris.

At this point, Donald’s Battalion became attached to the 3rd Armored Division with the goal of crossing the Siene River on that push to free France from the Nazi army.

## GIRTON continued from page A1

By Aug. 1, the 87th arrived at Hamby, Manche, in its designated artillery support position. According to the After Action Report issued by the 87th headquarters, “[The 87th] Battalion moved forward to position near Boisbenatre. In the morning the Battalion was subjected to severe artillery shelling, and later was at-

tacked by enemy foot troops. The position was successfully defended and the enemy repulsed. Our losses were high.” In that same report, TEC5 Donald J. Girton was listed among those killed in action during heavy fighting on Aug. 2. In the days after, his family must have been officially notified of his death and that his remains would be interred along

with other fallen soldiers in a new cemetery being formed in this section of Normandy. For his sacrifice and bravery, Donald J. Girton was awarded the Purple Heart posthumously, and a cross marks his grave in perpetuity at the Brittany American Cemetery, Montjoie Saint Martin, France. “Time will not dim the

glory of their deeds.”

Lee County Historical  
to present program in  
Dixon on Nov. 14

**LEE COUNTY** — The Lee County Historical and Genealogical Society is hosting a program on the railroad history in our area and the Cherry Mine Disaster on Monday, Nov. 14. The program by Mike McBride will start at 7 p.m. at the LCHGS office at 113 S. Hennepin Avenue in Dixon.

The LaSalle and Bureau County Railroad was one of the last of the steam-era shortlines in the area before paved roads. A shortline was a railroad of a few miles in length that connected a town with the outside world via an interchange with a mainline railroad.

The LS&BC railroad was built in the 1870s to connect a zinc mill in LaSalle with nearby mainline railroads. LaSalle, at that time, was the largest zinc mill in the country! The railroad survived after the mill closed by serving a few on-line industries via a bizarre series of interchanges with five other railroads into the 1970s.

Prior to the Depression, some of the interchange traffic was from area mines. The program will look at the Cherry Mine.

There is no fee to attend and the public is welcome. There is ample parking nearby and the office is handicapped accessible. Please come join us. For further information, call 815-284-1134.

## Department on Aging recognizes National Family Caregivers Month

**SPRINGFIELD** — The Illinois Department on Aging (IDoA) is raising awareness of support services available to unpaid family caregivers during National Family Caregivers Month, an observance spearheaded by the Caregiver Action Network and celebrated every November.

“Most everyone has been, or will be, a caregiver at some point in their life,” said IDoA Director Paula Basta. “Caregiving is a near universal experience, and it is an act of love, but the physical, emotional and financial demands of caregiving can lead to high stress levels and burnout. Illinois’ Aging Network offers a variety of resources for anyone who needs support in their role as a caregiver.”

Unpaid family caregivers are a primary source of support for older adults and persons with disabilities; however, many caregivers experience conflicts between providing care and competing responsibilities, such as work, raising children and caring for their own health. Studies show that coordinated support services can reduce caregiver depression, anxiety and stress, and enable them to provide care longer, which avoids or delays the need for placement of the care recipient in a long-term care facility.

Since July 1, IDoA has distributed \$4 million in state funding, plus additional federal American Rescue Plan Act (ARPA) funding, to Illinois’ regional Area Agencies on Aging (AAAs) to strengthen support services for unpaid family caregivers. Depending on where in the state a caregiver resides, available

services may include:

- Respite care, which allows family caregivers to take a break from the daily routine of caregiving. Respite care can take place in the home, at adult day care centers, or at residential or nursing facilities that offer overnight stays.
- One-on-one counseling, support groups, and workshops to help family caregivers cope with the demands of caregiving and identify signs of burnout before it becomes unmanageable.

IDoA also provided funding to the AAAs to purchase TCARE, an assessment tool that identifies the stressors of individual caregivers and provides personalized tools and resources to support their caregiving journey. Many communities have designated caregiver specialists who conduct the TCARE assessments and are available on an ongoing basis to share information and connect caregivers to specific services and tools. To find a caregiver specialist in your area, please call 1-800-252-8966 or contact your local AAA.

IDoA serves and advocates for older Illinoisans and their caregivers by administering quality and culturally appropriate programs that promote partnerships and encourage independence, dignity, and quality of life. For information about the Department’s programs and services for older adults and persons with disabilities, visit <https://www2.illinois.gov/aging/programs> or contact the Senior Help-Line toll-free at 1-800-252-8966, Monday through Friday between 8:30 a.m. and 5 p.m.

## New smoke alarm law goes into effect January 1, 2023

**ROCKFORD** — In conjunction with Fire Safety Month, state and local fire safety experts gathered recently at the Rockford Fire Department to make the public aware of Illinois’ new 10-year smoke alarm law, which goes into effect Jan. 1.

“In 2021, there were 97 residential fire deaths in Illinois and sadly nearly 70 percent of these deaths are occurring in homes without working smoke alarms,” said Illinois Fire Safety Alliance (IFSA)/IL Firefighters Association Government Affairs Director Margaret Vaughn. “To have the technology readily available to save lives and prevent injuries and yet not use it, is something that needed to change. We worked with the General Assembly to pass a law, which will require Illinois residents to replace their old smoke alarms with the type that has a long-term 10-year sealed battery by Jan. 1. This would apply to residents that are still using alarms with removable batteries or alarms that are not hardwired.”

Rockford Fire Department Division Chief Matthew Knott explained, “Residential smoke detectors are not a new requirement. Since 1988, the Illinois Smoke Detector Act has required all dwellings to have smoke detectors. Homes built starting in 1988 had to have hardwired smoke alarms and any dwelling built before then, could use alarms that were just battery operated. So, the new requirement simply updates a law that has already been on the books for 30 years, to reflect the changes in new technology, while making it easier and more cost effective for Illinois residents to comply. This new law would apply mostly to homes built prior to 1988.”

“Nothing is more heartbreaking to respond

to a fatal fire and find non-working smoke alarms in the home. While the number of fire deaths may have decreased in the past few decades, you are more likely to die in a residential fire than you were years ago. This is because the majority of these deaths are caused by smoke inhalation and not burns, which is why escape time so critical. The toxic gases that are emitted from the synthetic material in modern homes, as opposed to the more natural woods and fibers that were used in the past, contribute to this problem and flashover is occurring in as little as 3 minutes as opposed to almost 30 minutes a generation ago,” said Rockford Fire Chief Michele Pankow.

“With a long-term 10-year battery smoke alarm, there is no need for battery replacement, saving the average homeowner between \$40-\$60 in battery costs over the life of each alarm. At the end of the 10-year life cycle, the smoke alarm will automatically alert the homeowner to replace the alarm,” said Illinois Fire Safety Alliance Executive Director Philip Zaleski. He explained further, “while many people deactivate their older model smoke alarms or remove the batteries while cooking, the 10-year model is not a cooking nuisance and has a 15-minute silencer button. They are also very affordable with the current retail price being about \$15 and as low as \$10 if you buy them in bulk. To avoid ‘false alarms’, smoke alarms should not be placed within 15 feet of a stove or within 3 feet of bathrooms because of the humidity.”

## Local nature and history

By Jim “Mazie” Long

Once prized by hunters and naturalists, the American bobwhite quail thrived in grassy habitats. This chromolithograph of a male and female with chicks was popular in the late 1800s. It was created by Alexander Pope, an important American artist of the period. Source: Library of Congress

## Remember the call of the bobwhite? It was the first bird call once learned here...

From “The Birds of Illinois,” published in 1895, I quote the following: “the farmer has no better friend than this species (bobwhite) which devours bugs of all sorts in large quantities, and is particularly fond of the Colorado

### Quail by the numbers

Editor: According to the Illinois DNR, hunters in Illinois harvested over 2 million quail per year from the 1950s through the 1970s. In 2020, that number was 5,000 statewide. Changes in land use and farming practices removed most of the habitats that support these birds, while leaving very little winter cover. In spring, the mowing of roadsides and non-crop areas have disrupted the nesting of quail, as well as pheasant and other grassland birds.

*Editor’s Note: James Brady Long was born in Amboy on June 12, 1926. Known by many as “Mazie”, he grew up in Amboy, served in the army during World War II, then studied forestry at the Michigan College of Mining and Technology. His studies in botany and forest protection continued as he ventured into farming here. A beloved story-teller, his farm became a place of learning and adventure for relatives and friends. In his later years, he contributed a series of local nature articles to The Amboy News. Upon his death in 2000, his many hand-written drafts were gathered and initially curated by Brenda Boyle. The present, renewed series draws from those drafts, both unpublished and previously published.*

## CECIL

continued from page A1

The Cecil Harrison flag disposal box is one of many symbols of honor at Veterans Park. Created in 1919 because of World War I, the park has expanded over the years offering more ways of remembering loved ones and war heroes.

When the Friendly Motors building, which housed other businesses as well burned down, all that was left was slab of concrete. The land was donated to the legion, which gave it the opportunity to add to the park.

“The late Dennis Donna who owned Dreamscapes by Dennis, was talked into helping. He helped turn the rest of the burned wall into a wall for us to honor our veterans,” Mead said. “There are bricks at the park people can buy and put a soldier’s name on. He put in many volunteer hours to curve the wall and make the park look amazing.”

Veterans Park, which holds six service flags, is also routinely visited by City of Amboy staff and the 4-H Club. The American Legion pulls weeds, but the City of Amboy mows, and every spring the 4-H members help maintain the park in any way possible.

“It really helps us out a lot. We have so many people who help us out,” Mead said. “The Amboy Lions Club donate money and help us keep our flags always looking new.”

## THE PASTOR’S PEN

### I MADE IT THROUGH IT!

**BY PASTOR RICK WULF,**  
The East Grove Union Church of Rural Amboy

Hello, Friends,  
Well, it’s another month later now, and we have had quite a wild ride. Permit me to recap these past few months of the saga of Pastor Rick Wulf for those who have forgotten or haven’t read it all in the Amboy News.

With the discovery that the nodule in my left lung had grown in size from the previous year, I was referred to a Pulmonologist at U W Healthcare in Madison. A biopsy was done on Sept. 1 up in Madison, and of course it came back positive. “Moderately differentiated pulmonary adenocarcinoma” was the diagnosis. Wow, is that a \$100 term or what? Well, now onto a surgeon to discuss surgically removing the cancer. If I recall that it was only 3 CC’s and classified as Stage 1. Now onto scheduling surgery which was Oct. 21. There was a PET Scan ordered for Oct. 11 to be sure that there was cancer nowhere else in my body. I had asked people to pray that when the scan was done that no more would be found and that in fact the spot in my lung wouldn’t be there as well.

As I said last month in my post, I asked Him to heal me. I believed that He is able, the question was He willing to do so. I felt that I had prayed for His will to be done, knowing that God’s will is perfect and good. Friends, my prayers were selfish. I came to realize that and confess to God that I was seeking a life of comfort and convenience. I jokingly told my people that I didn’t want to travel to Madison for this. It was not convenient. As the saying goes, “Have things to do, places to go, and people to see.”

Now, comfort is neutral in itself and is not wrong, but when that is all that you are seeking, which I may have been bordering on, it could lead to sin. I didn’t want to go through surgery. I am

not a fan of needles or any object that would violate my skin. When I received the diagnosis of cancer, I asked people to pray that the PET Scan would come back negative. When it didn’t, I resolved myself to believe that God would use the skillful hands of the surgeons to bring healing to my body. I have been convicted by God that we are not to seek a life of comfort and convenience. He never promised anything like that. Jesus said in John 16:33, “These things I have spoken to you, that in Me you may have peace. In the world you will have tribulation; but be of good cheer, I have overcome the world.” What an amazingly great promise this is. Jesus told us the truth about what life on Planet Earth would be like for those of us are His true followers. Even though this truth may not sound very encouraging, His use of that wonderful conjunction “but” does encourage us. We are to be of good cheer, He has overcome the world.

If God had answered my pray and divinely healed me, I can look back now and see all of the experiences that I would have missed. I have gained much insight into life and continue to become more empathetic to those who are going through the “stuff” of life. In 1971, Christian singer and songwriter, Andrae Crouch wrote an amazing song, “Through It All” Here’s his message:

“I’ve had many tears and sorrows, I’ve had questions for tomorrow, There’ve been times I didn’t know right from wrong; But in every situation God gave blessed consolation that my trials come to only make me strong

I’ve been to lots of places, And I’ve seen a lot of faces, There’ve been times I felt so alone; But in my lonely hours, Yes, those precious lonely hours, Jesus let me know that I was His own.

I thank God for the mountains, And I thank Him for the valleys, I thank Him for the storms, He brought me through; For if I’d never had a problem, I wouldn’t know that He could solve them, I’d never

know faith in God could do.”

### CHORUS

“Through it all, Through it all, I’ve learned to trust in Jesus, I’ve learned to trust in God; Through it all,

Through it all, I’ve learned to depend upon His Word.”

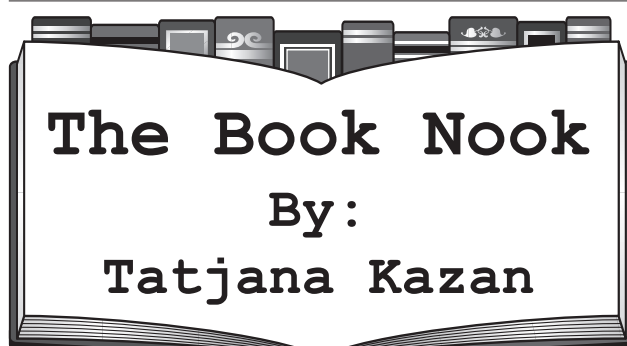

As a teen I remember singing this amazing song with my church youth singing group, and as I look back now, and ask myself, what did I know about going through life’s experiences? Guess what, I have been learning a lot in these past six years, and, yes, am still learning.

The Lord has inspired me to write an annotated chronology of the past six years of my life. It will be entitled, “What Do We Know?” “A Different Look at Romans 8:28,” subtitled, “How God began to use the events of Sept. 11, 2016 to change my life for His honor and glory and my good.” Another subtitle might be, “Many of the Lessons of Life that I Learned Were in my Hospital Bed.” I have learned a lot in life and I feel that the Lord wants me to record these events and share these with that they, too, may receive a blessing from our loving Lord.

The Apostle Paul wrote this in Romans 8:28, “And we know that all things work together for good to those who love God, to those who are the called according to His purpose.” Basically, Paul says that God uses everything, the good and the not-so good things in life to help us in what we go through. I have learned that when things are going well in life it is easy, it’s easy not to think much about God. However, when we face life’s tough challenges, and He is the only One upon whom we can call and rely upon, our faith is deepened.

For those who know me and/or have been following this now more than two-month long saga, I appreciate your prayers and concerns. I know that this is only temporary. This, too shall pass.

May God continue to bless and sustain you.

### THE FINAL GIRLS

The final girl is a stock figure in horror films. It refers to the last girl or woman alive to confront the killer, the one who lives to tell the tale – think of Neve Campbell’s Sidney Prescott in the “Scream” franchise or Jamie Lee Curtis in “Halloween.” In Alex Finlay’s “The Night Shift” (2022), there are two final girls, each the survivor of a massacre in a small New Jersey town.

On New Year’s Eve 1999, “The night was expected to bring tragedy. Planes falling from the sky. Elevators plunging to earth. World markets collapsing. A digital apocalypse. But Y2K was an otherwise typical Friday night at the Blockbuster Video in Linden, New Jersey.” So begins the story of the first massacre. Four teenage Blockbuster employees were viciously attacked. Three were killed, and only one – Ella –

survived. Fifteen years later, there was a second mass murder in Linden in which four high school girls were attacked as they were coming off the night shift at an ice cream shop. Again one survived, her name is Jesse, and as with Ella, the killer whispered in her ear, “Good night, pretty girl.”

The plot is cleverly constructed around three narrators. They cover events past and present. Ella has become a therapist and is drawn into the ice cream murders when her old high school principal asks her to talk with Jesse. Chris Ford is a public defender whose older brother Vince was accused of the Blockbuster murders. Vince disappeared shortly after his arrest, never to surface again. Chris is still obsessed with finding him. Enter FBI Special Agent Sarah Keller, the third narrator and by far the best drawn character of the novel. She is smart, incredibly brave, intuitive, and eight months pregnant with twins. She is tasked with finding the connection between the two massacres.

Though she does not narrate her side of the story, which is substantial and highly significant, Jesse, our other final girl, like Agent Keller, enlivens every scene she is in. She is capricious, willful, and dogged in her pursuit of the killer. Like Keller, she lets nothing get in her way. As to the other side of the ledger, there is a kind of spectrum of evil. The killers are beyond even a sliver of redemptive potential. The ending is over the top, disappointing because it’s not quite believable. Yet the action of “The Night Shift” is terrific. Inventive and fast paced, it twist and turns, and holds our attention to the end. In other words, it’s really fun to read.

## Time is running out to save local news

Local journalism is a cornerstone of democracy and a vital source of information for communities across the country, with newsrooms covering local politics, high school sports, local business openings, cultural events, and other matters that help a community remain vibrant and connected. But the industry is facing an existential crisis because of the unyielding power of Big Tech platforms such as Google and Facebook.

With less than four weeks left in this Congress, now is the time for the Senate to pass the Journalism Competition and Preservation Act (JCPA) (S. 673 and H.R. 1735). The JCPA was favorably reported out of Committee on Sept. 22 with strong bipartisan support and now must head to the floor for a vote. The JCPA will hold tech giants accountable and provide a necessary lifeline for local papers, requiring Big Tech to compensate small and local outlets for the use of their content.

Big Tech benefits tremendously from journalism content, yet they refuse to pay local publishers fairly for the journalistic content that fuels their platforms. As a result, local papers are being replaced by tech platforms using black box algorithms designed to keep users inside their walled gardens — all while charging exorbitant ad fees — up to 70 percent of every advertising dollar.

Since 2000, U.S. newspaper circulation has dropped by half, with 31 million fewer daily newspapers in circulation

in 2020. The vast majority of U.S. counties with no regular newspaper — “news deserts” — are in rural areas. Despite record audiences, since news outlets transitioned to digital, revenue has drastically declined.

The tech giants have built their empires by profiting off the hard work of journalists without fairly compensating them. And as local publications struggle to stay afloat, Big Tech has only doubled down on their anticompetitive practices, further consolidating their control over the flow of information.

This is fundamentally unfair, and the JCPA will bring about much-needed change. The JCPA will benefit small and local publishers exclusively and impose severe penalties if the tech platforms do not negotiate with them in good faith. The bill has a limited scope of six years to address a broken marketplace, while the broader competitive landscape is fixed through other legislation and the courts. The JCPA also incentivizes publishers to hire more journalists and protects our Constitutional freedoms of speech and the press. The bill’s scope is limited to compensation and does not allow for negotiations around up/down ranking or display — it serves only to ensure fair compensation for local news outlets. The JCPA has strict transparency requirements on the terms of each agreement reached between tech platforms and journalism providers and establishes clarity in how news outlets spend the funds they receive.

News publishers around the world are being compensated

by Big Tech. Australia passed a similar policy to the JCPA, the News Media Bargaining Code, for media organizations to bargain for payment, which has produced significant revenue (billions of dollars, if translated to the U.S. market) for hundreds of publications of all sizes. One Sydney journalism professor noted that she hadn’t seen her industry so financially robust in decades. There are so many open positions for reporters, they cannot all be filled, a signal of the improved economic health of the industry. The swift and clear successes of the Australian Code — and efforts in other countries such as Canada, the UK, European Union, and more — should serve to encourage the passage of the JCPA in the United States.

Thousands of hometown papers from across the political spectrum, as well as both Democrats and Republicans in Congress, support the JCPA. Moreover, in these highly polarized times, polling data found that 70 percent of Americans support the JCPA. The JCPA has such broad support because ultimately, it is about basic fairness.

Local papers cannot afford to endure several more years of Big Tech’s use and abuse, and time to take action is dwindling. If Congress does not act soon, we risk allowing social media to become America’s de facto local newspaper. The Senate must advance the JCPA to the Senate floor for a vote before the end of the year to rein in Big Tech and restore fairness to local journalism — one of the most important checks and balances we have against corporate power and government corruption — before it’s too late.

# SOS White alerts consumers to beware of flood-damaged cars caused by Hurricane Ian

**SPRINGFIELD** — Illinois Secretary of State Jesse White is alerting consumers interested in purchasing used vehicles to beware of flood-damaged cars resulting from flooding caused by Hurricane Ian or other natural disasters.

"We are taking steps to ensure that flood-damaged vehicles from hurricanes do not receive clean titles in Illinois," White said. "While my office will do everything it can to protect Illinoisans, it is always important that consumers also take active steps to protect themselves from purchasing damaged vehicles."

In an effort to protect Illinois consumers, White has instructed his office to closely

monitor title applications involving potential flood vehicles. This includes ensuring vehicles coming from counties impacted by flooding are properly identified and labeled as flood vehicles when applicable.

White urged consumers to gather as much information as possible about a vehicle before making a purchase. Consumers are encouraged to obtain a National Motor Vehicle Title Information System (NMVTIS) vehicle history report by visiting <https://vehiclehistory.bja.ojp.gov/>. In addition, White said that CARFAX is providing a link to check for flood vehicles. To visit the free link, go to [www.carfax.com/flood](http://www.carfax.com/flood).

# Princeton church to host concert

**PRINCETON** — The Evangelical Covenant Church in Princeton will host blues and gospel singer/songwriter, Glenn Kaiser on Sunday, Nov. 13 with doors opening at 6:45 p.m. and the concert beginning at 7 p.m. No tickets are necessary; this is a free concert and it is first-come, first-serve for seating.

Kaiser has been singing the blues and sometimes soul, R&B or rock since he was 12 years old. He has fronted over a dozen bands, and written and performed solo acoustic music — all before turning 19 years of age. His adolescence was plagued by drug and alcohol abuse, but Kaiser got clean through following Jesus after a life-changing spiritual confrontation around his 18th birthday. With

more than four decades of making original music — 25 years of which fronting the hard-rock Resurrection Band — Kaiser, is known for his raw, bluesy vocals, fiery guitar playing, bottleneck slide and harmonica work. He and his family have lived in Chicago's inner city for over 30 years doing mission work with people not unlike he once was. Kaiser is a Covenant Pastor and a member of Jesus People USA.

Kaiser has released several acoustic-based CDs between his electric blues and blues/rock albums.

The church is located at 24 N. Main St. For more information, contact the church office at 815-875-2124.

# North Central Bank announces essay-writing contest

**LADD** — North Central Bank announces a competition that enables Illinois high school seniors to enter a statewide essay-writing contest. It is all part of a program sponsored by Illinois Community Banks and the CBAI Foundation for Community Banking to increase public awareness of locally owned banks and their contributions to the community.

North Central Bank is a member of the Community Bankers Association of Illinois

(CBAI), which formed the Foundation in 1996. A monetary award in the amount of \$1,000 a year for up to four years of higher education will be given to the author of the best essay submitted to the CBAI Foundation by a participating Illinois high school senior. Up to 11 additional first-place \$1,000 awards and 12 second-place \$500 awards are available throughout the state. An additional \$500 will be awarded to the high school of the overall winner.

North Central Bank is also offering a local award. The same essays sent to the state competition will be judged locally.

The bank is working with local high schools to invite seniors to submit a one-page essay on the theme, "How are fintechs impacting the banking industry?"

Information on the contest is available at the bank, its website [www.northcentralbank.com](http://www.northcentralbank.com) and the schools; essays must be submitted to NCB in Hennepin or Ladd by Feb. 15,

# DON'T LET BIG TECH CANCEL LOCAL NEWS

ESSENTIAL CONTENT | WATCHDOG JOURNALISM

Local news organizations are under pressure.

Local news strengthens our community, but local papers across the country are under threat. Big Tech takes advantage of the news and information created by local publishers, but they won't pay for it.

The Journalism Competition and Preservation Act (JCPA) is a bipartisan bill that allows local news companies like this one to negotiate with Big Tech to ensure that they are treated fairly and compensated justly. If Congress doesn't pass the JCPA, communities across America will continue to lose quality local, fact-based news coverage.

## Amboy survives thriller

### Clippers advance to semifinals

BY BRANDON LACHANCE

Amboy News Reporter  
**AMBOY** — Halloween may have past, but the thrillers have not.

“Milford/Cissna Park had the ball on our 4-yard line. It was fourth down, they needed 2 yards, and there were nine seconds on the clock,” said Scott Payne, the Amboy-LaMoille-Ohio football coach. “They ran a sweep. We hit them, Eddie Jones stripped the ball, and Quinn Leffelman recovered the ball in the end zone.

“It was an emotional roller coaster. You can’t really explain it. It was a great finish to a really good game. We were lucky enough to come out with the victory.”

The Clippers trailed the Bearcats in the 8-man football second-round playoff game Saturday in Milford until mid-way through the fourth quarter.

Amboy was able to get the points and the defensive stops it needed to win, 30-28.

The playoff victory feels even better for the Clippers since Milford beat them in Week 4.

“We totally used that loss to them as revenge factor. All week long we talked about how bad we played in first game, but we still had a chance to win,” Payne said. “We told them if they played well, they could win.

“The second half was probably the best football they played all year.”

Junior Landon Whelchel recorded 24 carries for 174 yards and three touchdowns while Leffelman had 19 touches for 98 yards and a score.

Tucker Lindenmeyer, the senior quarterback, had 26 rushing yards, 36 passing yards, and a touchdown pass to junior receiver Brennan Blaine.

“It was so windy, so we couldn’t throw deep. The TD pass was a tunnel screen to Blaine,” Payne said. “We put

Lindenmeyer in the second half as defensive back. We were trying to hold out on returning him to the defensive side of things because he just came back from his injury, he had in Week 4 against Milford. But we had to put him in to help us.”

Playing against Milford in Week 4 helped Payne and the Clippers better prepare for the second time around.

“We went to a no-huddle offense to stop them from substituting their big defensive tackles in and out of the game like they did,” Payne said. “It worked really well. It wore them down for the fourth quarter. We wanted to wear them down and make sure they were tired so they weren’t as effective.

“The kids picked it up really well and they did a great job doing it. It was hand signals, so nothing too complicated, and they did a great job.”

The semifinals will be in Amboy as the No. 5-seeded Clippers are playing host to No. 8 St. Thomas Moore of Champaign at 2 p.m. Saturday.

## CLIPPERS continued from page A10

Payne and his staff have already scouted the Sabers. "They have a big offensive line and a great wide receiver, Peace Bumba. They like to throw deep to him. We will have to work on our passing defense," Payne said. "Offensively, we will do what has worked well for us and that's running the ball. We will take our shots in the air when we have the opportunity."

"They were obviously excited after the Milford game. Halfway through the bus ride home, they realized they have another game. They know their mission isn't finished. We found out we are playing, St. Thomas Moore, on the bus and they were immediately ready."

"We got to the semifinals last year and we lost. They don't want that to happen. We should have a great week of practice as they're hungry to get further than they did last year and want to play for a state title."

Payne is also hoping his team plays like it did in the second half against Milford, not the first.

The Clippers threw an interception and lost a fumble in the first half. In the fourth quarter, Amboy forced two Bearcat turnovers as Jones picked off the Bearcats' quarterback and then stripped the ball for Leffelman to recover the fumble to end the game.

Senior quarterback Tucker Lindenmeyer airs the football to one of his favorite targets, junior Brennan Blaine, during the Clippers 30-28 second-round playoff victory over Milford/Cissna Park Saturday in Milford.
