Developing downtown
City enters into agreement with Seldal Properties

BY JEFF HELFRICH

MANAGING EDITOR

ROCHELLE — At its June 13 meeting, the Rochelle City Council unanimously approved a development agreement with Seldal Properties, LLC for the redevelopment of five downtown properties on Lincoln Highway.

The agreement is for 318, 320, 322, 324 and 326 Lincoln Highway and the redevelopment will consist of mixed-use retail and residential space. The total project will be just over \$1 million. The city will reimburse Seldal Properties, LLC \$300,000 in five separate \$60,000 payments, starting upon the acquisition and completion, but no sooner than Dec. 31, 2023. The money will come from the city's downtown and southern gateway tax increment funding (TIF) district.

The work planned by Seldal Properties, LLC Owner Bruce Seldal includes an extensive remodel of the front facade of the downtown building and remodeling to 10 rental units upstairs and three of the commercial units below

for potential future tenants to open businesses in.

City Manager Jeff Fiegenschuh said June 15 that the project is "exactly why" the city established that TIF district.

"It's to redevelop older, blighted vacant buildings and beautify them, get them up to code, replace roofs and facades and all those types of things," Fiegenschuh said. "And then in turn, people will want to rent commercially or live upstairs. We have people who are investing significant dollars into our downtown, which is great and it means people believe in our downtown and know there's an opportunity to turn a profit. People open businesses to make money. Obviously there are people who believe they can sustain their business in our downtown. And I'm very happy about that."

Fiegenschuh said that mixed-uses of commercial and residential are used in "a lot of successful downtowns" such as in DeKalb. The Lincoln Highway project is going to redevelop older rental units and address issues such as beautification, windows and energy efficiency that haven't been addressed in the past, he said.

Fairways building on record year

BY JEFF HELFRICH MANAGING EDITOR

ROCHELLE — Last year was the best that Fairways Golf Course Superintendent Mitch Hamilton has seen in his 22 years at the facility.

Just over 13,000 rounds of golf were played at Fairways in 2021. During the pandemic-impacted year of 2020, high round numbers were seen as well, with around 11,000 rounds played despite the course not being able to fully open up until May due to restrictions. The one thing people could do that year was golf, Hamilton said.

"It's in the golf world now," Hamilton said. "COVID-19 sprung golf because we were able to go outside and play. The thing was, to retain those golfers after that."

HIVE Powered by BroadPath cuts ribbon

Business hiring for unique hybrid model in healthcare industry

BY JEFF HELFRICH

MANAGING EDITOR

ROCHELLE — A ribbon cutting was held Wednesday afternoon by the Rochelle Chamber of Commerce for HIVE Powered by BroadPath, a new local business at 448 Lake Lida Lane.

BroadPath has been a business process outsourcing company in the healthcare sector for over 12 years with over 4,000 employees working from home across the United States and abroad. Clients include seven of the top 10 health insurance companies, BlueCross BlueShield organizations and a number of regional and specialty plans.

The Rochelle site is part of a new program BroadPath has launched in partnership with United-Healthcare called HIVE, which is designed to bring quality work-from-home jobs into smaller communities where United does not currently have a presence.

"You think about a Fortune 50 company, they're not likely to come

into a small town like Rochelle or even Rockford and build an office," BroadPath Founder and CEO Daron Robertson said. "They're typically establishing themselves in more significant labor markets....but then so is everyone else. With wages skyrocketing, the competition for talent is fiercer than ever and it's become very difficult to attract and retain good people."

At the new Rochelle business, employees will enter a paid 6-week "college of insurance" program during which they will earn a health producer's license from

the state of Illinois and get trained to represent UnitedHealthcare in the Medicare marketplace. After successful completion of the program, they relocate to home offices and begin a 4-5 month tour of duty as BroadPath employees working on behalf of United.

Finally, if successful, they are positioned to transition to UnitedHealthcare around January or February as regular full time employees with "access to great benefits, higher earning potential and a wealth of career opportunities."

Owen enters second year on patrol 'If I can help... I feel as if I made a difference'

BY JEFF HELFRICH

MANAGING EDITOR

ROCHELLE—Trevor Owen is a patrol officer on night shift for the Rochelle Police Department. He's been with RPD for seven years, five of which were spent in dispatch before moving to patrol. He's a graduate of Rochelle Township High School and spent time at Kishwaukee College.

Owen's responsibilities in his position include responding to emergency

calls and enforcing traffic-related violations. He said he enjoys the people he works with and the community he has the privilege to serve.

"I enjoy helping the community I grew up in," Owen said. "Most calls we handle are assisting members of the community on their worst day. If I can help in any small way, I feel as if I made a difference."

When he's not working, Owen said he enjoys spending time with family, playing golf and watching the Minnesota Vikings during the winters and the Chicago Cubs in the summers.

Owen believes a career in law enforcement is "what you make it."

"So for me, every day is different and is extremely rewarding to me, whether it is a citizen assist or a medical assist until an ambulance arrives," Owen said. "People often forget that police officers are jacks of all trades and that for me is something that makes this a career and not just a job."

When asked what he wants the community to know about RPD, Owen sang the praises of his co-workers.

"I would like to inform the community that the people within this department are truly one of a kind," Owen said. "If you look beyond the uniform and badge, you will see a group of men and women that are here to help and protect no matter the situation."

Johnston joins administration at Stillman Bank

STILLMANVALLEY

– Stillman Bank is pleased to welcome Derrick Johnston as vice president/chief credit officer and director of ag lending. With over 13 years in the financial industry, Johnston has experience in ag & commercial lending, credit administration, special assets, OREO management and property/ facilities management. In his position, Derrick will manage the bank's credit operations and oversee all phases of Stillman Bank's agricultural lending.

"We are excited to have Derrick join our team" stated Thomas R. Hughes, Stillman Bank president. "His industry expertise and commitment to our local communities will continue to be a strong asset as we move forward in delivering exceptional service to our customers."

Originally from Belvidere, Johnston is relocating back to the area after recently residing in Monmouth. Prior to banking, Derrick worked in law enforcement for over 20 years with the Boone County Sheriff's Department, Belvidere Police Department and Monmouth Police Department. An avid sports fan, Derrick also previously

Pascua hired to marketing director position with **Broadway Grand Rapids**

GRAND RAPIDS, **Mich.** — Jennifer A. Pascua, a former Rochelle resident, has accepted the position of marketing director at Broadway Grand Rapids. Pascua is familiar to the west Michigan community. She was part of the community relations team at Spectrum Health where her focus was on relationship management. During the pandemic, she started teaching at Hope College as an adjunct professor in the communication department and launched a media freelance group, Halo Halo Multimedia, LLC. She worked at Serendipity Media as the content engagement manager and previously spent 25 years as a broadcast journalist, most recently at WZZM in Grand Rapids. She holds a BA from Northern Illinois University and an MS from Grand Valley State University. Pascua brings with her a

strong passion for arts and culture in West Michigan. Her vision aligns with the mission, brand, image, and voice of Broadway Grand Rapids. She hopes create more community partnerships while continuing to strengthen and sustain current ones and aid in elevating accessibility to the arts through initiatives highlighting diversity, eq-

uity, and inclusivity. "My passion for Broadway started when I was eight years old and was cast as Princess Ying Yowalak in a high school production of 'The King and I.' Ms. Carol Weidman (who eventually became one of my favorite high school teachers and one of my speech/team coaches), cast me in the only speaking part among my peers and stepping on stage paved the way for my love of theatre," Pascua said. "Since then, any time I had an opportunity to attend any on or off-Broadway show I was ecstatic and grateful. I became fully aware that some were not as fortunate to have been exposed to the arts due to a variety of barriers. I am excited to work under the leadership of Meghan Distel and with the BGR team and in collaboration with the BGR board to find ways to introduce others to the experience and provide a welcoming environment to all people."

CITY: Seldal Properties redeveloping downtown buildings

From page 1

"I think part of any vibrant downtown is having a nice residential component to it," Fiegenschuh said. "And this goes along with that theory. Housing is definitely an issue in our community. And we've got the new workforce housing project coming on the south end of town. We've had some discussions about some additional senior housing maybe coming to the community. Again, this is just one component of an overall issue that needs to be addressed and that's good quality housing for our residents. If you want people to move to your community, they have to have a place to live."

TIF is a geographically-targeted economic development tool that captures the increase in property taxes, and sometimes other taxes, resulting from new development, and diverts that revenue to subsidize a development. Construction of new buildings is not TIF-eligible.

Development agreements are "based on the financial need" of entities like Seldal Properties that the city works with, Fiegenschuh said.

"Our job at the city is not to pay for the project," Fiegenschuh said. "It's to close the funding gap to make the project possible. And that's what that TIF district

The City of Rochelle's development agreement with Seldal Properties LLC is for 318, 320, 322, 324 and 326 Lincoln Highway and the redevelopment will consist of mixed-use retail and residential space. The total project will be just over \$1 million.

does. [\$300,000] was the need Mr. Seldal requested. Those TIF dollars are just us rebating a portion of his tax dollars back to him. Everything Mr. Seldal wants to do is TIF-eligible. To get reimbursed, he'll bring in all of his receipts and we'll verify them through our

legal and finance teams and every year for five years in December after the project is completed, we'll pay \$60,000."

Fiegenschuh said having renovated spaces for new businesses is "great" and hopes they'll bring in new business types the city doesn't currently have or give a business that's currently home-based to chance to find a storefront.

The city manager has enjoyed seeing new downtown businesses open up recently and people investing in the buildings. The Lincoln Highway project

could yield "a lot of positive economic and social impacts," he said.

"It's one of the projects I'm most proud to have been part of because along with the Kennays and everyone else who has put money into downtown properties, it shows that people are willing to invest in our downtown and that's a good thing. It says a lot when someone wants to make that kind of investment downtown.

"And what it says is they believe in the downtown and the direction of our community."

Kishwaukee College earns ICCTA Equity and Diversity Award

MALTA — Recognizing Kishwaukee College's commitment to equity, the Illinois Community College Trustees Association (ICCTA) has recognized Kish with the 2022 Equity and Diversity Award. The honor recognizes the commitment of Kish's board of trustees and leadership to achieve diversity, equity and inclusion in the college's education programs.

ICCTA officials announced the award at the organization's annual banquet on June 10 in Chicago. At the banquet, Dr. Laurie Borowicz, president of Kishwaukee College, accepted the award and recognized the effort the college has made over the past several years to improve the achievement gaps for all Kish students.

"In 2019, we produced our first annual data book. It pointed out some of the challenges we had as a college in student success. While our overall student college completion rate was increasing by double digits, this was not the case for some of our student

populations," Dr. Borowicz said. "It's hard to argue with numbers — we had work to do."

In the same year, Kishwaukee College joined the Illinois Equity in Attainment Initiative (ILEA), the signature initiative of the Partnership for College Completion (PCC). This partnership between 25 other colleges and universities in Illinois allowed Kish leadership to take a hard look at the institution's achievement data. Matching trends with the rest of the state, it was clear Kishwaukee College needed to provide more assistance to its low-income students and students of color.

The first step was creating a strategy. Kish officials worked with the ILEA and sought feedback from students and the community to design the Kishwaukee College Equity Plan, including a new equity statement: "We are committed to a sustainable culture of equity, focused on respect and fairness, in all aspects of the Kishwaukee College experience."

college's diversity, equity and inclusion over the past several years. College board members, leadership, faculty and staff were present at the ICCTA's annual banquet to accept the honor. Along with the college's commitment to equity, the plan focused on six strategies, including developing an Intercultural Center, cultural competency training for employees, improved hiring practices, enhanced wrap-around services, creation of a math success program, and implementation of the Office of Instruction retention project.

ICCTA President Jon Looney praised Kishwaukee for its record of accomplishment in its equity

endeavors. "Three years ago, Kish-

waukee College made a bold commitment to inclusion, accessibility and success for all students," Looney said at the award ceremony. "We applaud the work of the Kishwaukee Board and staff to reflect the needs of an increasingly diverse world."

Early returns on Kish's initiatives are positive. Students have received mentorship, tutoring, textbooks, supplies, financial support, food support and more. Completion and retention rates among underrepresented groups are APARTMENT AVAILABLE

"In the last three years, I am proud to say we have made considerable progress in improving the outcomes of all of our students. We have not arrived but are on our way," Dr. Borowicz

Deputies respond to twovehicle accident with injuries

OREGON — On June 21 at approximately 8:42 a.m. deputies responded to a two-vehicle accident at Big Mound Road and Kilbuck Road. A preliminary investigation revealed Glenn Wille, 41, of Davis Junction, was eastbound on Big Mound Road in his 2015 Dodge Dart when he failed to stop for the stop sign at that intersection. Wille's vehicle collided with a 2021 Chevrolet Silverado being driven by James Sundly, 37, of Machesney Park. Sundly and his passenger, Dominic Patton, 19, of Lindenwood, were transported to Rochelle Community Hospital for suspected minor injuries. Wille was cited for disobeying a stop sign. All subjects are presumed innocent. The accident remains under investigation. On June 21 at approxi-

mately 5:29 p.m. deputies, Monroe Center, Lynn Scott Rock, Stillman Valley and Kirkland Fire/EMS responded to the intersection of East Illinois Route 72 and North Mulford Road for a two vehicle accident with injuries. After investigation, it was determined that a gray Chevrolet sedan, driven by Mark Dunklau, 61, of Paw Paw, was traveling southbound on North Mulford Road, just north of East Illinois Route 72. The Chevrolet then continued traveling southbound into the intersection without stopping at the posted stop sign. The Chevrolet was then struck by a red Volvo truck-tractor, hauling a silver trailer driven by Alfredo Mantiel, 27, of Kirkland, who was traveling eastbound on Illinois Route 72 just west of the intersection. Both vehicles came to rest in the southeast

On June 23 at 1:08 a.m. deputies responded to the 100 block of Allen Street in Holcomb for a domestic disturbance. After a brief investigation, Tommy Marcum, 35, was arrested for domestic battery. Marcum was transported to the Ogle County Jail where he was held pending a court appearance. All subjects are presumed innocent.

On June 23 at approximately 2:15 a.m. deputies responded to the intersection of Pines Road and Lowell Park Road for a reported disabled vehicle. After a brief investigation, Tanis O'Brien 22, of Dixon, was arrested for improper container/driver(cannabis). O'Brien was also cited for operating an uninsured motor vehicle. O'Brien was released on scene with a return court date. All subjects are presumed innocent.

Girl Scout Tree Promise

STEWARD—Steward Girl Scout Troop 1870 worked in coordination with Steward's Board of Trustees and the Steward Elementary School Board to achieve their Take Action Project and also fulfill their contribution to the Girl Scout Tree Promise. On Monday, June 20, Troop 1870 planted a Ginkgo tree on the Village John Street easement of Steward Elementary School. The troop donated the tree. This project also contributed to Steward's Tree City status as another tree planted and volunteer hours.

To be a Tree City USA, towns must have a tree board or department, a tree ordinance, spend two dollars per capita on urban forestry and celebrate Arbor Day. The Village of Steward has accomplished this for the past 18 years.

This year, Steward held its Arbor Day celebration on Friday April 29 with the Steward Elementary students and staff at Steward United Methodist Church. They learned about the importance of

trees, which provide cooler temperatures, cleaner air, higher property values and healthier residents. Tree jokes were shared and a brief history of Arbor Day was given. Students also tried their hand at leaf identification. The school was challenged to achieve Tree Campus K-12, a new designation being offered by Arbor Day Foundation. The Arbor Day tree, an ornamental crabapple, was donated by McCormick's Nursery and Garden Center in Sterling. It was planted in front of the school by the students. A subsequent

tree planting was done by Village volunteers, adding an additional five trees to benefit residents.

Early this spring, resident and Tree Advisory Board Member Tom Ellis purchased and planted a horse chestnut tree in memory of Les Bonnell, who had made many contributions to the village. This tree is on Tyler Avenue easement

near the park. Steward encourages other area cities and villages to investigate becoming Tree City USAs as well. Check out arborday.org for more information.

Morris band shell July 1 MT. MORRIS — The Mt. Morris Jamboree is pleased to announce the highly-anticipated return of

Chicago's oldies rock and roll band, The StingRays, to its band shell for a free two-hour concert on July 1 from 7-9 p.m.

Everyone fortunate enough to have seen this exciting and engaging act will fondly remember the dynamic stage presence of this wonderful band and will attest to the "do not miss" level of their show.

The StingRays play the greatest music ever written and they play it with the energy, passion and authenticity of the artists whose music they love. Their music, great rapport with audiences, their look and the famous StingRay moves have made them repeated favorites at festivals, concert series and parties throughout the Midwest. The Sting-Rays love interacting with audiences through trivia, dance contests and joining people in the audience. The StingRays always get the crowd singing and dancing to songs from the 50s through the 70s.

Concessions for the evening will be provided by the Ogle County Beef Producers and Hector's Corn Roaster. The Let Freedom Ring Committee will be serving root beer floats. That will all take place from 6-8 p.m. It's opening night of the annual Let Freedom Ring Festival, with the Jonas **Fultz Memorial Car Show**

happening on the north end of the campus from 5-8 p.m. with signup at 4 p.m. There will also be a 50s and 60s costume contest with winners announced at 8 p.m. and the craft fair will be located at the north end of the campus from 5-9 p.m.

Please bring a blanket or chair, or enjoy the new benches and join the fun on the beautiful, historic campus in the center of Mt. Morris, two blocks south of Illinois Route 64 on Wesley Avenue and enjoy the free rock & roll concert. In the event of rain, the whole show moves to the Pinecrest Grove Community Center, located at 500 Evergreen Lane, seven blocks south of Illinois Route 64 on McKendrie Street at the same times.

"We're basically playing matchmaker between a world-class employer and an overlooked community," Robertson said. "We get to bring awesome jobs into the community while giving our client access to an untapped pool of great talent."

HIVE held a hiring event Wednesday and currently has 40 employees in the Rochelle office undergoing training. It plans to hire and train another 50 employees this year and if the process is successful, will recruit 100-150 new employees annually.

Robertson said that BroadPathhas been a work-from-home company for over eight years and the business was not heavily impacted by the COVID-19 pandemic.

"But in the 100 percent remote model, building a strong, connected culture has been a challenge," Robertson said. "A hybrid solution like HIVE offers the best of both worlds. Our employees are bonding with each other during training and for team building events, but still get the flexibility of working from home with no commute, more time for family, personal interests and self-enrichment"

Chamber Executive Director Tricia Herrera welcomed HIVE Powered by BroadPath at the Wednesday ribbon cutting and thanked the business for choosing and investing in Rochelle. Mayor John Bearrows was on-site representing the city.

"I'm here to welcome you not only to the chamber, but to the City of Rochelle," Bearrows said. "I think as time goes on, you'll see how both of those things will be great advocates to not only grow your business, but make it more sustainable."

The word 'patriot'

Brad

Jennings

NCE again, peoplearetakingthe word "patriot" and ruining it.

A word that was never meant to be political is now being used by a variety of

people and groups to show how much they supposedly love America. Well, their actions tell a very different story. American is a

warm, welcoming and open country. We will take your tired and your hungry. We are all in

favor of everyone having and enjoying freedom.

Isn't that right?

Well, many who wrap themselves in the flag in the name of "patriot" these days don't seem to understand that. In fact, many seem bent on voicing hate and division and a wide variety of anti-American

The latest group to do so is the Patriot Front. You have probably heard of these whiny children because they were recently arrested for planning to riot at a gay pride event in Idaho. If you didn't know, June

is Pride month. This is when the LGBTQ community celebrates the freedom to be themselves. Freedom, celebration – very American things, if you ask me.

Look, I realize there are many people who, for a variety of reasons, do not want to celebrate gay people or gay culture. Fine, no one is asking

But rioting and harming those who do is not only illegal, it is not what America is all about.

So, this Patriot Front – which sounds like a real jackboot organization, if you ask me – is a white nationalist group made up of young men who apparently don't want everyone to have the same freedoms they enjoy.

Thirty-one of these wannabe storm troopers were recently arrested before they could actually cause the havoc they planned, thankfully. And as always seems to be the case with these hate groups, they were dressed like some kind of military force.

Please, stop with the

dress up. Our military is betterthan you and your smallminded friends will ever be. Please feel free to actually join the military and protect ALL Americans.

Sadly, right now in our country extreme

right-wing hate groups are a serious threat. And that not only goes for gay Americans, but for many minority groups and others. Hating others because of their color or religion or sexual orientation is not at

all American if you ask me.

Sadly, the Internet has made spreading the message of hate and recruiting much easier. It is hard to understand how this many Americans are so full of anger and rage.

Look, there are people who have a different sexual orientation than you everywhere. You don't have to like it, just like they don't have to like you. But every American has the right to life, liberty and pursuit of happiness.

I have many gay friends, some from childhood. I have written before about one guy in particular, who I have known for as long as I can remember. He is a realtor living in the West and has been with his now husband for more than 30 years. They got married, when the law changed, decades into their committed relationship.

To me, that is something to celebrate. I don't find people loving each other wrong. I am glad when people find others they love and commit too. It's awesome.

Some people seem to have a hard time with others enjoying their freedom, especially if it goes against their beliefs. Well, that's tough.

I celebrate with my friends this month and am thankful that in 2022 they can more openly celebrate who they are and those that they love. That is an America I want to live in – an American which is truly equal for all.

And if you really are a patriot, you understand that.

The danger of electing extremists

ARY Miller frightens Yes, I'm talking about the member of Congress from Southern Illinois who is running against Rodney Davis for the Republican nomination in the 15th Congressional District.

She is not pitching poli-

cies. She is selling anger. But I could also say it is the same about a whole

host of candidates on the far left or far right who mix anger, pandering and rigid orthodoxies. You may remember Mill-

er as the person who quoted Adolf Hitler on her third day in office and said his efforts to indoctrinate the young were worthy of emulation. It doesn't surprise me that there

After all, I've been covering politics for more than 35 years. I've encountered plenty of cranks and conspiracy theorists during that But the difference is that until

are people like Miller in politics.

recently, no one took those folks seriously. And then they began winning elections.

Today, extremists are redefining both political parties. And the country is not the better for it. There are too many folks inter-

ested in stirring up anger but too few willing to get stuff done. The era of constructive compromise seems to be a memory of a bygone time. My political leanings are not a

secret. I believe in limited government, low taxes and protecting individual liberties. That said, I split my ticket between Republicans and Democrats in just about every election. There are good people in both parties. I even vote for folks I often

don't agree with. For example, the late Sen. Paul Simon was far more liberal than me. But he consistently earned my vote because he exhibited integrity in how he conducted himself. He was also a thoughtful individual who considered all sides of an issue.

Scott Reeder

The older I get, the more I'm convinced the key to progress is electing good people who think independently and act with integrity.

Miller is not one of those people. She is running in the Re-

publican primary against Rodney Davis, a conservative Republican from Taylorville. By all accounts Davis knows how to bring home the bacon to his district. If he is reelected, he's in line to be a committee chair. And most folks, no matter their political persuasion

consider him to be a serious member of Congress.

But Miller, quite literally, has the Trump card. The 45th president has endorsed her and will be holding a rally for her June 25 in Quincy three days before election day.

Miller is a member of the hardright House Freedom Caucus along with others including Marjorie Taylor Greene, a Georgian known for comparing COVID-19 mask mandates to steps the Nazis took to control the Jewish population during the Holocaust. Greene is said to have lobbied Trump to endorse Miller.

Lord, help us. Miller, Greene and Lauren Boebert, the congresswoman from Colorado who falsely accused a Muslim member of Congress of being a terrorist, are card-carrying members of the Kook Klux Klan. The 15th District was drawn by

Democrats to consolidate Republican votes. Quincy is the biggest city in the horseshoe shaped district that covers one-third of the state's counties including much of Sangamon. Robin Johnson, a lecturer at Mon-

mouth College and a Democratic consultant on rural voting behaviors, lives in the 15th and perceives an angry electorate.

"I see Mary Miller and Darren Bailey signs all over the place. I sense there is a real appetite for insurgent candidates. Could Trump's visit make a difference? Yes. In a close race, it certainly could. And

we know in the areas where he had rallies he boosted his own vote totals. Whether that translates over to candidates he is campaigning for, we really don't know yet.'

Davis is traditional, much like his old boss, John Shimkus. By no leap of the imagination is Davis anything but a conservative. Whether its taxes, guns, abortion or any of the other GOP litmus tests he comes out solidly on the right. But he has avoided the confrontational far-right

In other words, he's gentlemanly with those he disagrees with. And he seeks consensus to get things done. Miller goes for the flash. She is

more about capturing headlines and

soundbites than seeking legislative achievements. It is a race between hard work and Hollywood. Or maybe it's a choice between steak and sizzle. A lot of political pundits have written Miller's candidacy off. I'm

not one of them. There is a real chance she can win. She is trying to tap into a pervasive disillusionment permeating rural America.

I know of which I speak. I live in the 15th District, grew up on a hog farm and reside in a village of 650. I know rural America.

Republican consultant Patrick Pfingsten said Miller is a member of the Trump personality cult. "Miller is part of a group of people who are content on raising cane, but never getting anything done." He added, "And at some point that playbook is gonna run out of

a grabber. So, he's not gonna be around forever. And I have a really hard time believing that the party is forever in the eyes of Trump.' The question rural voters – and all of us face – is do we give into

plays. The dude's 76 years old and

one Big Mac away from having

the temptation of anger or the desire to get things done?

Three from Rochelle named to Marquette's spring 2022 dean's list

MILWAUKEE — Three students from Rochelle have been named to the dean's list for the spring 2022 semester at Marquette University in Milwaukee, Wisconsin.

They include Emma Mehrings (accounting), Ayah Sbeih (biomedical sciences) and Abby Tilton (human resources).

To make the Dean's List, students must have earned at least 12 credits for the spring 2021 semester and have no disqualifying grades. The GPA threshold varies by college - for the College of Education and the Klingler College of Arts and Sciences, undergraduate students must have at least a 3.7 to be named to the dean's list.

The undergraduate GPA requirement is 3.5 for the following colleges: the Diederich College of Communication, the College of Business Administration, the College of Health Sciences, the Opus College of Engineering and the College of Nursing. All minimum.

GOLF: Fairways seeing increasing number of rounds played

From page 1

"Last year we noticed we were able to hang on to those golfers that basically tried it for maybe their first or second time in 2020. We retained some of them because our rounds went up. Now year after year, we're going to see if those golfers are going to stick with us or if we're going to lose them."

After the current season started slow at Fairways due to wet and cold weather, rounds have gone "right back up" to where they were in 2021 and have even surpassed them on a daily basis, Hamilton said. On Memorial Day weekend, over 100 rounds were seen each day, which is a lot for Fairways, Hamilton said.

"Eighty is usually a lot out here," Hamilton said. "That following week, we even averaged about 75 rounds per day. That was kind of the kick off of summer like everybody says. Since then, the weather has been great and we've been able to keep those rounds going up. Hopefully we can catch back up to where we were last year."

Fairways keeps track of where golfers live that play the course. In a recent report that was run to give a yearly update, Hamilton found that around 37 percent of its golfers came from outside the local ZIP code.

"That was nice to see," Hamilton said. "We do a lot of marketing outside of the area. We try to reach out to the new golfers

Rockford area to at least come down one time and try it and then we hopefully grab them and they keep coming back."

Hamilton called the golfindustry "still tough," but said numbers coming up the past couple of years has helped to be able to sustain the golf course. Operations of the golf course have also been helped by working with the City of Rochelle and Flagg-Rochelle Community Park District financially.

Fairways has also been able to use park district and city equipment, which helps with work on the course that it used to have to contract out and has inturn saved money.

"Since the city and park district have been part of this, we've put some money back into the course," Hamilton said. "We're seeing a lot of people who have played it beforehand see all the upgrades we did and that's one thing that's attracting them to bring other people out here. We've done quite a bit of work these past couple of years."

When the city and park

district took over Fair-

ways, one of the goals was to upgrade deteriorating features of the golf course, Hamilton said. Equipment to maintain the grounds has been upgraded. Another project has been tree work and a major tree renovation was done this past year. 30 trees were cut down over the winter and the stumps were removed, ground, filled in and seed-

Last year was the best that Fairways Golf Course Superintendent Mitch Hamilton has seen in his 22 years at the facility. Just over 13,000 rounds of golf were played at Fairways in 2021.

trees that were starting to impede on the golf course were trimmed.

"Whenever we do things like this, we work off our master plan we had done by a golf architect," Hamilton said. "Those trees weren't making the course fair. That's part of our master plan, to open up the course to see how it played when it was originally built."

Another recent project was a major renovation on every irrigation head on the course this year. A lot of them were old and leaking and were too much for the grounds crew to keep up with, Hamilton said. New irrigation heads were put in and the ground

around them was leveled out. That was a "huge project" that Hamilton never thought would get completed.

As far as future projects, the city has plans to put a shared-use path along Illinois Route 251 on the edge of the golf course that Hamilton said will most likely happen in the spring of next year.

"When they do that, we're going to end up repaving all of our existing cart paths that we have on the course right now," Hamilton said. "And then I will be looking into adding some that we want off our master plan. We're not going to hit every one on there, but we're going to see where the costs are and go from there."

Hamilton said it's felt good to make progress on larger projects and that the city and park district have not only helped financially, but have understood the effort that goes into the golf course.

"And it's a process," Hamilton said. "It's not just throwing money at something and fixing everything right away. We're trying to make sure we're able to fix things without costing anybody any extra money. We're working within our budget and getting a lot done. I didn't think we'd be able to get this much of it done. And I think it's been because

of the uptick of golfers, where we've had the extra money coming in to actually really help and get some of these bigger projects done."

The Fairways superintendent has enjoyed hearing positive feedback from golfers since course improvements were made.

"People see it," Hamilton said. "That's the main thing. It's not even about me seeing it get done. It's when I hear longtime golfers that have been here since it was the country club see changes. We've had so many compliments about the tree work we did this year. It's good to hear them agree that everything we're doing looks nice."

Real estate financing options

HE decision to buy a home is significant. Real estate is the biggest investment the average person will make in his or her lifetime, which underscores just how significant the home buying decision can be.

The real estate experts at Zillow recently reported that the national median price of a home in the United States is \$272,446. However, since the National Association of Realtors reported a record low housing inventory late in 2020, the average house price has been rising rapidly nationwide. The Federal Reserve Bank of St. Louis estimates the median home sales price at \$374,900, and certain states have much higher prices. WOWA, a real estate and finance technology company, says the average sale price of a home in Canada was \$679,051 in July 2021.

Mostpeopledonothave \$300,000 to \$600,000 in savings on hand to purchase a home in cash. That means they'll need to rely on financing to pay for their dream homes.

Conventional lending refers to when a bank or another financial institution loans a home buyer money to buy a home. This is one of the most common ways to fund a home purchase. Personal credit score as well as credit history help determine eligibility and interest rates for conventional loans. Availability of assets as well as income

level are some additional determining factors. Conventional loans are traditionally 10-, 15- or 30-year notes and will require a certain percentage as the down payment to secure the loan. The bank will determine the down payment requirement, which is typically somewhere between 3 and 20 percent.

AFederal Housing Administration loan is issued by an FHA-approved lender. These loans are designed for low-to-moderate-income borrowers, according to the financial

guide Investopedia. FHA loans require lower minimum down payments and lower credit scores than many conventional loans. FHA loans also require mortage insurance up front, plus annually for 11 years or the life of the loan depending on the length of the loan.

A Home Equity Line of Credit, commonly called a HELOC loan, borrows against the available equity in your home to create a line of credit, much like a credit card. These funds can be used for large expenses or to consolidate

higher-interest rate debt on other loans, according to Bank of America. It may be possible to use a HELOC to secure funding to make improvements to a home for those who want to flip it as an investment property.

Individuals investing in real estate who do not intend to use a property as a primary residence may turn to private money lenders. These investors can tap into capital from personal connections and lend at specified interest rates and payback periods, according to

Fortune Builders, a real estate investing resource. Keep in mind the interest rate will likely be higher with a private lender than through a conventional lender. The repayment term also will be shorter.

The U.S. Department of Veterans Affairs has a program for acquiring loans through conventional lenders that will be partially guaranteed against loss through the VA. This enables a lender to give better loan terms, such as the option to pay no down payment. Interested parties need to

qualify for a Certificate of Eligibility and then work with qualified lenders.

People have several options to finance the purchase of a home. These loans can help make the dream of home ownership a reality. Potential buyers are urged to speak with mortgage professionals or financial planners to consider their options. Most people do not have \$300,000 to \$600,000 in savings on hand to purchase a home in cash. That means they'll need to rely on financing to pay for their dream homes.

Factors to consider before investing in real estate THE appreciation

of real estate over time has long made owning a home or an investment property a sound financial strategy.

Prospective home buyers spend considerable time looking for a property they're hoping to call home. Various factors, including property taxes and the reputation of local schools, may be considered as homeowners decide where to look for a new home. That vetting process is equally important, albeit slightly different, when buyers are consider investing in properties they don't intend to live in.

Real estate can be a great way to diversify an investment portfolio and earn extra income. Before shopping for an investment property, novice investors may want to consider certain factors to determine if real estate is the best investment vehicle for them.

Location is a significant factor to consider when investing in real estate, but recent shifts in how and where people work could change the real estate investment landscape. A 2020 Gartner, Inc., survey of more than 300 financial executives and leaders in the finance industry found that roughly 25 percent will move at least one out of every five of their on-site workers to permanently remote positions in the years ahead. Economists note that this shift to remote working could be among the more lasting trends to emerge from the pandemic. Before investing in real estate, prospective investors should examine local trends to see if more and more locals are working remotely, and whether or not that's affecting the market for rentals.

Flipping properties gained popularity in the second decade of this century, but figures from the property database curator ATTOM Data Solutions indicates that returns on investments in flipped properties declined for the third straight year in 2020. Though flipping can still yield a strong return, investors may not realize the returns on flipped properties that they might

have realized as recently as five years ago. Potential investors should conduct some research regarding real estate market trends, including flipping data where available, to make the most informed decision possible.

Product shortages were another trend to emerge during the pandemic, and disruptions to the supply chain will not necessarily go away anytime soon. In addition, the cost of various products associated with home improvements, including lumber, skyrocketed during the pandemic. The National Association of Home Builders noted that while lumber prices declined in

2021, the price of lumber packages quoted to builders remained high. That means real estate investors who invest in properties that will need work could be forced to pay a lot to fix these properties. And ongoing supply chain issues could extend the time it takes to renovate a property. Investors must

be able to bear these costs and lag times to make the most off their real estate investments.

Investment properties can be a great way to diversify a portfolio. Potential investors must consider a host of factors to determine if real estate is an investment they want

Renovations finished

Strength and conditioning room upgrades include new full racks and flooring

BY RUSSELL HODGES SPORTS FOITOR

ROCHELLE — Rochelle Township High School student-athletes attending Hub Power this summer are taking advantage of several upgrades and renovations to the strength and conditioning room that were completed earlier this month. Upgrades include new rubber flooring as well as new full racks, dumbbells, bumper plates, boxes and other weight room essentials.

"We had an opportunity to upgrade our facility with some money we had available," RTHS athletic director Richard Harvey said. "We had some older equipment and machines in our room and the flooring was depleted. We took the opportunity to invest into our weight room and the investment will be beneficial because our kids really enjoy the new look. The new equipment is safer and also more efficient and user-friendly. The kids are excited and they're working hard."

Nine new full racks were added to the strength and conditioning room, with the older racks relocated to the fitness room and additional older equipment donated to the Rochelle Middle School

Lady Hubs on the court for summer workouts

Offseason schedule includes open gyms, high school camp and league play

BY RUSSELL HODGES SPORTS EDITOR

ROCHELLE — Rochelle Lady Hub volleyball players returned to the court earlier this summer, with returning and incoming players getting a head start on the upcoming school

The Lady Hubs held their first open gym workout of the summer on May 30. Open gyms have been taking place every Monday from 12:30-1:30 p.m. inside the Rochelle Township High School gymnasium. Head coach Molly Sly has been encouraged with the attendance and effort that new and returning players, including the program's senior class, have shown this summer.

"The girls look great right now," Sly said. "The girls made great improvements during their club season and their improvements are showing on the court this summer. I'm really excited to see our seniors, especially our third-year varsity players Addie [Friestad] and Payton [Hale], step up in terms of their leadership and their work

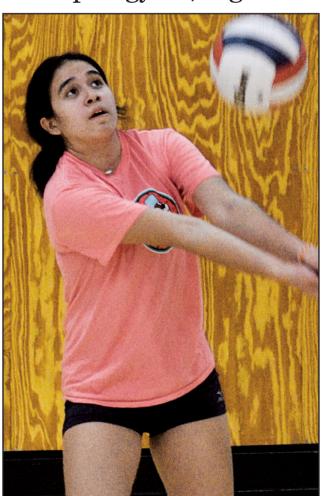

ethic on the court. They've

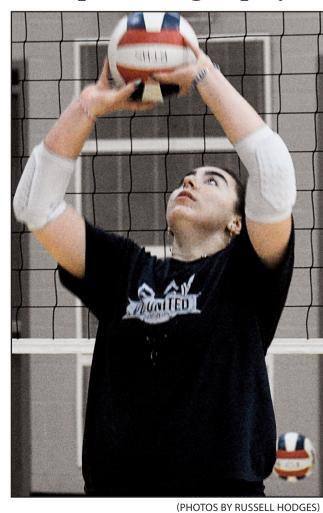

put in a lot of hard work."

In addition to open gyms, volleyball players have been attending Hub Power sessions every Monday, Tuesday and Thursday from 8-9:30 a.m. July will be a much busier month for the Lady Hubs, with the program's high school camp and youth camp running from July 11-14 at RTHS. Varsity and fresh-soph players will also participate in summer leagues next month, with varsity players competing $in Rock for d\,while\, freshmen$ and sophomores take the court in Sycamore.

"It's going to be a battle for playing time in the back row, but our back-row players look great right now," Sly said. "Our front-row players look great as well... I'm looking to see tough, hard serves from our girls this summer and I want to see our girls go for every ball they see. It's hard to teach that desire, so that's what I want to see when we begin our camp and our

leagues." The youth camp for fifth through eighth-graders will be held July 11-14 from 11-12:30 p.m. and the high school camp will take

SPORTS EDITOR

LAKELAND, Fla. — Seven-yearold gymnast Isabel Jackson of Rochelle can now call herself a national champion tumbler as well as one of the best young trampolinists in the United States. Jackson's tumbling and trampoline skills were on full display during the 2022 USTA Nationals, which were held from Monday, June 13 through Saturday, June 18 in Lakeland, Florida.

Jackson took two passes during the tumbling competition, scoring 19.5 on her first pass and 19.1 on her second pass to finish with a total score of 38.6 points, which landed her in first place out of 24 tumblers in the Age 7 Girls Sub-Novice Division. Tumbling is a gymnastics discipline in which athletes perform a series of acrobatic skills down a long track. Each pass includes several elements including jumps, twists and flips. Athletes are judged based on difficulty and form.

"It feels really good to be a national

champion," Jackson said. "I wasn't nervous, but I was confident and my coaches did a good job of getting me ready. The size of the room was different from the school gyms we are normally in. Being at nationals was a lot of fun. I enjoyed hanging out with my tumbling team and I enjoyed going to the beach with my family."

Jackson also brought home a fifth-place finish in the trampoline competition, scoring 15.8 points on her lone pass to take fifth out of 36 athletes in the Age 7 Girls Beginner Division. Jackson, who trains out of All the Wright Moves, has only been performing gymnastics for a short time. Jackson began tumbling in October 2020 before taking up trampoline in April 2022.

"I enjoy tumbling with all of my friends and I love jumping," Jackson said. "I like doing flip-flops and even though I don't have to do backflips during my routine on the trampoline, I like doing them at practice. I want to work on three flip-flops with a tuck during my tumbling routine. I want to start working on the next level of trampoline as well."

"This partnership with Mid-West Family making DeKalb's 94-9 WDKB the new flagship radio station for NIU Athletics broadcasts represents a new level of cooperation that will expand our brand throughout the region," said Sean T. Frazier, NIU Vice President and Director of Athletics and Recre-

ation. "We're excited about the commitment WDKB brings to providing quality broadcasts for Huskie fans and look forward to working with the new radio home of the Huskies."

An affiliate of Mid-West Family, a 60-year-old network of more than 40 live broadcast stations in eight markets across the upper Midwest, including five stations in Rockford, Illinois. 94-9 WDKB brings extensive marketing elements to the partnership.

These elements include a daily round up of scores, activities and happenings around NIU Athletics, an "Athlete of the Week" promotion, hourly IDs of the station as the home of the NIU Huskies, and visibility on station website 949WDKB.com promoting upcoming NIU competitions and broadcasts. 94-9 WDKB will have a presence at additional events throughout the year.

"Our team is honored be the new radio home for NIU Athletics," said Shawn Lowe, Brand Manager for 94-9. "This new partnership will serve

as a solid foundation to help grow the NIU fanbase with our on- air and online products. We are looking forward to telling the rich, storied history of NIU Sports as it unfolds and sharing the stories of current athletes and their respective programs."

HOLLYWOOD — Great news! "Book Club 2: The Next Chapter" is currently shooting in Italy. Diane Keaton (76), Jane Fonda (84), Candice Bergen (76) and Mary Steenburgen (69) have returned, as have Andy Garcia, Don Johnson and Craig T. Nelson. But the men now have competition from Giancarlo Giannini, Hugh Quarshie and Vincent Riotta when the ladies take a long-desired trip to Italy, where things go off the rails and secrets are revealed. The first film cost \$14 million to produce and grossed \$104 million. Keaton has "Mack & Rita," with

Simon Rex, premiering Aug. 5, and "Maybe I Do," with Emma Roberts, Richard Gere and William Macy. Fonda, whose last seven new episodes of "Grace & Frankie" are now streaming, voices the Dragon in Apple's animated "Luck," with Whoopi Goldberg and Simon Pegg, also Aug. 5, and the sports comedy "Eighty for Brady," with Sally Field, Rita Moreno and Lily Tomlin. Bergen stars in the Mavim Bialik-directed film "As They Made Us," with Dustin Hoffman and Simon Helberg, which is now streaming; and Steenburgen followed up the NBC series "Zoey's Extraordinary Playlist" with two episodes of "Grace & Frankie."

pictures have been talking, actresses have been complaining that when they reach a certain age there are no good roles for them anymore. But times have changed and there are many actresses who've blown up that theory. In addition to the aforementioned actresses, the British royalty of acting, four Dames Judi Dench (87), upcoming in "Allelujah," with Jennifer Saunders; Maggie Smith (87), currently in "Downton Abbey: A New Era"; Helen Mirren (76), "White Bird: A Wonder Story," out Oct. 14, and "Shazam: Fury of the Gods," Dec. 21; and Julie Andrews (86), who supplies her golden voice to "Minions: The Rise of

Jerry Bruckheimer's been very coy about plans for a sequel to "Top Gun: Maverick." In view of the ginormous Memorial Day weekend grosses, the Paramount Pictures lot is buzzing that Bruckheimer has already assigned scribes to cook up plots for a sequel. "Home Alone" star Macaulay

Culkin is returning to filmmaking, co-starring with Rosamund Pike and Daniel Bruhl in Spanish director Galder Gaztelu-Urrutia's pandemic-themed thriller "Rich Flu," about a deadly disease that starts killing off the richest people in the world. It first strikes billionaires, then multi-millionaires, etc. How does the flu know who is rich? (And thank heavens I'm not!)

Matthew Morrison as a judge on "So You Think You Can Dance." I've always

Q: I saw that Leah Remini is replacing

liked her, but does she even have professional dancing or choreography experience? -- N.E. A: I have to say I was puzzled

SUNDAY AFTERNOON

when I first heard that sitcom actress and anti-Scientology crusader Leah Remini will be judging a dance competition, but Fox is confident in her abilities. She's also been a contestant on "Dancing with the Stars" and even served as a guest host and judge on that same program. She's also best friends with someone

multitalented Jennifer Lopez.

Remini doesn't appear to have any reservations about accepting the job just in time for its 300th episode, saying that she's a fan of the show and "can't wait to see the artistry that the contestants bring to the stage!' In my opinion, Remini should make an ex-

who certainly knows a lot about dance, the

cellent judge. She's opinionated and hilarious, and she should fit right in with fellow panelists JoJo Siwa ("Dance Moms") and "SYTYCD" alum Stephen "tWitch" Boss. Gone from the show are judges Nigel Lythgoe and Mary Murphy. For those seeking familiarity, longtime host Cat Deeley has returned for the show's 17th season.

Q: I heard that "Live PD" is finally coming back. Why did it go off the air in the first place? -- H.S.

A: "Live PD" was canceled two years ago during a time of national protests against police brutality, and also was accused of destroying video footage of a suspect who died in police custody. The A&E channel on which "Live PD" aired has stated, however, that it never was asked to turn over its footage, but that instead, the Austin Police Department

investigated the incident using its own officers' body cam footage. Whatever the reason, "Live PD" was canceled. Host and producer Dan Abrams recently announced that a new program is on the horizon, but it'll have a

different title and format. "One Patrol: Live" will air Friday and Saturday nights this summer on the Reelz Network. According to "Entertain-

Leah Remini ment Weekly," changes to the show include giving "local residents, within the communities of the departments appearing on the show, a first-hand perspective as they ride along with officers followed by 'One Patrol: Live' cameras on live nights." Abrams also promises that the new series will "promote transparency.'

> Q: What is Jason Bateman going to do next now that "Ozark" has ended? -- A.M.

A: Now that his hit Netflix series "Ozark," in which he starred and directed, has concluded, Jason Bateman isn't staying idle for long. He's part of an all-star cast in an upcoming untitled movie about the history of Nike's pursuit of its partnership with NBA superstar Michael Jordan. Ben Affleck will do double duty this time as star and director, with Bateman co-starring as longtime Nike executive Rob Strasser. The film will be available on Amazon once it's released.
