# Yee haw! The rodeo finally is back

Diamond G Ranch plans to host multiple events starting with Sunday's barrel races

BY ELLEN O'MALLEY

**INTERIM EDITOR** 

**ROCHELLE** — We may live smackdab in the center of the Midwest, but there is a glimpse of the true American West right under our noses. And it smells like the rodeo.

Diamond G Ranch, just five minutes outside Rochelle, has been here for nearly 50 years. Its history is rich in rodeos, cowboys and cowgirls, relationships and memories that never fade.

Those memories are continuing, thanks to Lane and Jenna Kreiser, who are bringing the property back to life after Lane bought the historic arena in 2017. Prior to the purchase, Lane knew it needed attention, but he also knew it would

Lane grew up in Amboy, Jenna in Marseilles, but both grew up with the rodeo. Now their kids,

9-year-old Brailee and 8-month-old Rodee, will truly grow up on a ranch that hosts rodeos and

They're doing what they can to spruce things up. "I want it to look welcoming, we're trying to liven it up, Jenna said.

Lyn Carmichael of Maplehurst Farms stands behind a rendition of the new headquarters which will be completed by spring of 2022. See the group photo on page 3.

**ROCHELLE** — The groundbreaking of the new corporate office took place April 22. Team members, board members and the Carmichael family were invited to attend the celebration. Lyn Carmichael, president, spoke about the history of Maplehurst and the importance of our Maplehurst team members and our customers. Maplehurst Farms' General Manager, Scott Day, followed up thanking the board and team members for their continued

hard work and dedication to Maplehurst and the customers we serve. The speeches were followed up by multiple pictures including senior management, board members, team members, Carmichael family and a

large group picture. The new corporate office will be located on what is currently known as the front lawn of Maplehurst Farms Rochelle location, off Moore Road. The office will be a one-story building offering multiple conference

rooms, offices and workstations to allow our team members to better serve our customers. The plan is to be moved into the new office by

early next spring. This is an exciting time for Maplehurst Farms as we continue to expand programs and services to support our team members and serve our customers. Maplehurst Farms is and will continue to be, "Big enough to serve you, small enough to know you."

**INTERIM EDITOR** 

**ROCHELLE** — It's the age-old dilemma, is it better to buy than to lease? At Monday's city council meeting the council all voted to purchased heavy

equipment from Maplehurst Farms, that the city regularly rents for various projects.

Maplehurst decided to get out of the business of leasing equipment recently, which gives the city the opportunity to

venues throughout the country. It's Jackpot Barrel Races all day and it's open to the public. The show starts at 10 a.m., although come out any time after 7 a.m. to watch the exhibition runs.

Admission is free, there's plenty of parking and a food vendor, Hector's out of Oregon, will be on hand. It's something for all ages and dogs are welcome, too, so long as they're on a leash.

Not only are the spectators of all ages, so are the competitors. There are four divisions, Peewee is 10 and under; Youth is 18 and under; Adult is 19 and over; and Senior is 50 and older.

## **Improvements**

But let's talk about how Diamond G and the Kreisers got to this point. The improvements and

additions they've made are significant, but some undetectable, like the expense for new gutters on the entire indoor arena and building.

One thing most will notice, though, is the new announcer's box which went up this year. The two-story building at the north end of the arena was constructed by Lane and some friends. The Kreisers do much of the work themselves, with the help

Diamond G owner Lane Kreiser adjusted and improved the outdoor rink with the help of friends and neighbors.

of friends and neighbors.

One major endeavor included shifting the entire outdoor arena to accommodate two natural gas pipelines that go through the property.

That was tricky, but now there no longer are fears of interfering with the pipeline.

Sunday's event is barrel racing, but they plan to host more events such as rodeos, bull riding, team sorting, team penning, roping and more barrel racing.

Jenna also is doing horse training, in her spare time. She trained her horse, Dallas, to sit on command in less than three months. She also has a bull that she boards in Wisconsin that is a showstopper and winner.

History

Diamond G Ranch wouldn't have happened without the vision and hard work of Milo and Dena Gittleson, who purchased the property in 1972 and turned it into rodeo central.

Jenna said the same participants who made the rodeo a success nearly 50 years ago, come back now with their kids and grandkids and share stories of Diamond G Ranch.

Back in the day it was nicknamed the "cow palace."

Gittleson's daughters, Sandy and Donna still lease and operate the store.

One thing the Gittleson's started which the Kreisers have continued is the New Year's Eve bull riding competition.

It's a huge hit in the indoor arena and they intend to continue in the years to come.

If you can't make the barrel races this weekend, there's another one around the corner on Saturday, May 15.

It's a new day at Diamond G Ranch and, just like always, everyone is welcome ... whether you have memories from its past, are a competitor or you're a curious member of the cheering crowd.

Western attire is, of course, optional, but beware that the rodeo and Western culture are going to want you coming back

# **Grief course on Wednesdays**

**OREGON** — Serenity Hospice and Home is pleased to announce they will be starting an eightweek class entitled, "Understanding Your Grief." This class will run each Wednesday from May 19 through July 7. The group will meet

at The Serenity Hospice Home located at 1658 S. Route 2, just south of Oregon from 4-5:30 p.m. The structure of the

group will follow the book by Dr. Alan D. Wolfelt which covers ten touchstones in the areas of physical, emotional, cognitive, social and spiritual growth to help you through the grief process.

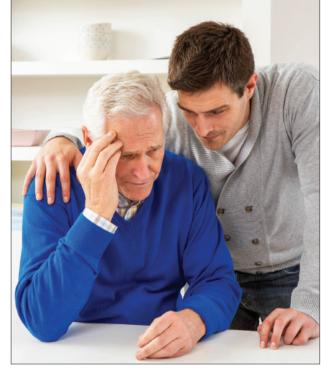

Wolfelt has written many books about healing after the loss of a loved one and is considered a leading grief educator. The class will be facilitated by Cathy Warren, who is Serenity Hospice's bereavement coordinator.

"I am very excited to offer a class like this one," said Warren. "Our grief groups are usually open-ended and people come and go as they travel through their own journey of grief.

This is a more structured approach and the participant will know exactly when it will end."

Each participant will receive a free copy of the book by Wolfelt. Please be aware that

in an effort to contain the spreading of the Covid-19 virus, you will be asked to take your temperature upon entering the building. We will also practice social distancing and protect each other by wearing

facemasks.

Jeff Beverage Director **CHILDREN WILL** 

## **BE CHILDREN** When families gather after a death, one characteristic

seems to hold true: however somber the adults may be, young children, after a while, cannot resist the urge to scamper around, play and, in general, act like children. That's because they are

children, and their reactions to grief don't match those of adults. That doesn't mean children don't feel grief or know that something sad or final or tragic has occurred. Children are highly attuned to the emotions of the people around them, but they grieve in their own way, and its important that adults recognize a child's need for honesty, love, and reassurance when death occurs. adult's

Ambulance rates will go up, but most won't see it in their bill. Rochelle Fire Chief Dave Sawlsville explained to the council that his department has kept the rates the same for four years, and they're the lowest in the region. The department participates in the program funded by Medicare and Medicaid, so because they're rates are lower, the reimbursements are lower from this program. Sawlsville recommended, and the council agreed, to raise the rates in accordance with the reimbursement plan from the program.

Sawlsville added that last year, nearly one-third of their ambulance calls were Medicaid. The final rate agreed upon is \$795, which will allow them to be properly reimbursed by

# Demolish Your Doubts

Tn Acts 27 (AMP), there's a great sto-Lry about the apostle Paul. He was travelling by ship with some people when "a violent wind...[a northeaster, a tempestuous windstorm like a typhoon], came rushing down from the island" (v. 14). For days they were caught in the storm, and at one point it was so fierce, they were "violently tossed about by the storm" (v. 18) and had to throw the ship's equipment overboard. They ended up without food, hungry, stranded - seemingly without hope.

In that moment, Paul stood in the midst of the survivors and said to them, "I urge you to keep up your courage and be in good spirits, because there will be no loss of life among

you..." (v. 22). He said that an angel of God told him this, and said in verse 25, "So keep up your courage, men, for I believe God and have complete confidence in Him that it will turn out exactly as I have been told."

How could Paul, in the middle of a horrible storm, ask the people to "be in good spirits" and have a good attitude? Because he believed in his heart—without a doubt—"that it will turn out exactly as I have been told."

I love that! It's a great picture of the power of faith in God when all hope seems lost. And we can have the very same faith that Paul had if we will overcome doubt.

We all face storms in life, and some are more

difficult than others. That's why we have the gift of faith. Ephesians 6:16 (ESV) calls it "the shield of faith, with which you can extinguish all

the flaming darts of the evil one." Doubt is a type of "flaming dart" that the enemy uses to attack our faith.

We usually ex-

perience doubt after we've made a decision.

n James 1:6, the Bible says having doubt is like being tossed about like the wind, which feels like you're trying to go in two different directions at the same time. And it's miserable to be torn between two places, not able to decide what you really believe.

It's in those moments we have to choose wheth-

er we are going to believe God or the enemy...God or our feelings...God or what people tell us...God or our circumstances. When doubt comes

against us, we have to lift up the shield of faith. We do this when we

open our mouth and say what God's Word says, rather than grumbling and complaining about the problem.

Our faith is re-

leased as we say, pray and do the Word. So in those times, open your mouth and say, "I believe that everything God has told me will come to pass!"

Maybe you're doubting whether you can hear God's voice or not. This happens because we usually doubt ourselves more than we doubt God. Now I'm not talking about actually hearing a voice; I'm talking about that knowing we have inside our hearts about what is right or wrong. That's the still, small voice of God. Believers in Jesus Christ all have it, but many don't have the confidence to trust it.

The Bible says in James

1:5 that when we need wisdom, we can go to God, "who gives generously to all without finding fault" (NIV). This means that even with our imperfections, God will be faithful to us and give us what we need if we will ask Him for help. He loves us, blesses us and uses us in spite of us, because He is faithful! And we never have to doubt that.

I've learned through my own relationship with God that He's not expecting me to be perfect; He wants me to do my best to be in His will and take steps of faith as He leads me, through His Word and the promptRemember, He wants us to put our confidence in Him.

God really does want to speak to you personally and lead you in His great plan for your life. So don't be afraid to step out and do what's in your heart. If you make a mistake, you'll learn from it and go on. That's how we "step out and find out." And we all have to do it.

I want to encourage you to make confessions every day that will help you grow in your faith and confidence in God. We need to make declarations like "God loves me. He wants to speak to my heart. I can hear from God. He is faithful to me and will lead me in His will for my life. And I believe it will be exactly as God has told me!"

By God's grace, we can be bold in faith and overcome every attack of doubt during the storms of life.

# LOCAL VIEWS

**Guest column** 

# It's all right here in these pages

This is a commercial for your local newspaper. Yes, the one you are reading right now. I know I am preaching to the choir, but maybe you

can pass my message on to others who don't read the paper.

I am always surprised when people say things to me like: Rochelle has a theater group? Rochelle has a museum? There

is a new restaurant downtown? The high school did an on line play for The answer to all of

those questions has been in the newspaper. A new business opening? Chances are you

will read it in the Rochelle News-Leader. It frustrates me when

people don't know what is happening around town. If they subscribe to the paper, they will learn a lot more about their community.

End of commercial

Be prepared for heavy traffic on I-39 starting Monday. Bridgework over Kilbuck Creek will put the road in one lane each direction. If you go to Rockford a lot, you might want to add a little extra time or find a different route.

Construction zones scare me. I have read about accidents where traffic has stopped and a car or truck comes barreling into the halted vehicles.

**Dickow** 

We all need to slow down in construction zones and be extra aware of what is happening on the road ahead of us. Know about zippers

and lane closures?

Highway experts say you should not merge to the left or right until the lane ends. Then each car should take a turn, like teeth on a zipper. I think the state has put

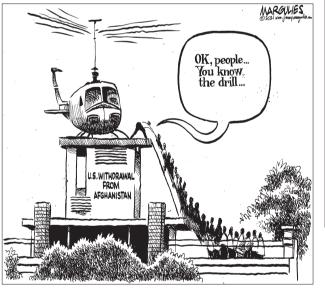

up signs on 39 in the past encouraging motorists not to move over until near lane closures.

Speaking of construction, it should not be long before Hickory Grove falls to the wrecking ball. The sooner it is cleared, the better it will be for finding a developer for the land.

I will feel sorry for the residents of the tower, because they could be in for a noisy summer.

Not sure what is wrong with me, but I have not been on my bicycle yet. Hopefully by this time next week I will have done some riding on the bike path. I wonder if the lilacs along 20th Street will be blooming. I just love their smell. If you see an old guy on a bike with his nose in the bushes, that could be me.

# Montgomery thanked by board

Dear Editor,

For more than 12 years, Kim Montgomery has served as the executive director for the Rochelle Area Community Foundation with passion and generosity in her heart. The RACF mission is

to improve the community through charitable giving, encourage a spirit of philanthropy, develop collaborative partnerships and improve the quality of life in the community.

Kim has dedicated herself to this and done so with grace and enthusiasm, touching countless organizations and in turn made our community a better place. The Foundation has

grown to manage nearly \$4 million in permanentlyendowed funds and this year alone can distribute more than \$100,000 in grants to numerous Rochelle area nonprofit organizations.

Kim's retirement is rightfully deserved and reflecting on the positive impact she has made in the lives touched throughout her years of service is rewarding beyond measure.

We offer our sincerest appreciation to her for making the Rochelle Area Community Foundation the beacon of hope that it is today for so many

nonprofit organizations.

Donations can be made in Kim's Honor to the H.P. "Jim" Walker Memorial Endowment Fund.

Congratulations and Best Wishes on your next chapter.

With gratitude,

The Rochelle Area **Community Foundation Board of Directors**

# Illinois loses population ... and a seat

**¬**or the first time in Illinois' history, the Land of Lincoln has officially lost population as reported by the 10year Census.

The state also loses one member from the U.S. House of Representatives.

Leading statehouse Republicans and Democrats differ on why.

Census Chief Karen Battle said Illinois was one of three states that lost population over the past decade.

"We know that from our population estimates program that the state of Illinois actually had negative net domestic migration," Battle said. In 2010, Illinois had 12,830,632

people. In 2020, the Census shows

the state had 12,812,508 people, a drop of around 0.1 percent. Historical data shows 2020 is the first ten-year Census since 1910 where Illinois has lost popu-

lation from the ten years prior, for a total of around 18,000 people. The other two states lost a larger percentage: Mississippi lost 0.2 percent, West Virginia lost 3.2

All neighboring states to Illinois are keeping their existing number of Congressional seats while Illinois is one of seven states nationwide that is losing a congressman.

percent.

State Rep. Ryan Spain said that should be a wake-up call to majority Democrats that they need to enact pro-growth policies.

"There's only one reason why we're not and that's the poor decisions that are coming from Springfield and we have to make that change desperately and urgently," Spain said. "If our state is not growing, it is dying."

Before the numbers were released, Gov. J.B. Pritzker acknowledged the state has seen a drop in population.

He said it's from what he's characterized as years of disinvest-

ment in the state's public universities with things like limited taxpayer-funded tuition grants. That's something he said led to younger people leaving the state.

He said his administration has increased such funding to keep

**Greg Bishop** 

Illinois students in Illinois. "Collectively that has helped,

but unfortunately as you know, just as that was starting to take effect, Covid hit," Pritzker said Monday.

But, state Rep. Dave Severin,

reasons are clear: Democratic policies of increased taxes and increases spending are repelling job creators.

"And this kind of verifies it, high taxes and the regulatory environment that discourages private growth and investment," Severin

"We're losing businesses and people to border states with lower taxes.'

The lost congressman in the next U.S. Congressman means less sway for the state, and less federal funding for the state. It also means Illinois loses a vote in the Electoral College.

The seat held by U.S. Rep. Rodney Davis, R-Taylorville, could be impacted by the reduction from 18 members of the U.S. House from Illinois to 17.

"It's unfortunate, yet unsurprising, that Illinois lost population over the past decade," Davis said in a statement.

"As state lawmakers determine

the course for redistricting, I urge the Democrats to keep their word on supporting independent redistricting, particularly Governor Pritzker, who pledged to veto any partisan-drawn map. The politicians in charge should not be using the census to pick their own voters and protect their own power." Sen. Omar Aquino, D-Chicago,

and Sen. Elgie Sims, D-Chicago, co-chairs of the Illinois Senate Redistricting Committee, issued a statement late Monday.

"We are reviewing the information released today by the U.S. Census Bureau and remain committed to working with our partners in Washington to ensure Illinois continues to receive the federal resources and support our communities need," the joint statement said.

"While the Census Bureau

R-Benton, said the "If our state is not growing, it is dvina."

Rep. Ryan Spain

confirmed full redistricting information may not be released until September, we will not abandon our duty to craft a map by June 30 as required by the Illinois Consti-

As others seek to delay and distract, we are focused on gathering input from communities of interest across Illinois to create a fair map that reflects the diversity of our great state."

Data for states to redraw state legislative districts are expected no later than Sept. 30, total Census

## LETTERS TO THE EDITOR POLICY

The Rochelle News-Leader encourages responsible letters to the editor on subjects of interest to our readers. Editing may be necessary for space, clarity or to avoid obscenity or libel, but ideas will not be altered. All letters must bear the handwritten signature of the writer and include address and phone number or e-mail address for verification purposes. Neither the street address nor phone number will be printed. Letters should be typed or legibly

handwritten, and no anonymous letters will be published. Any letters from boards or organizations must include at least one name of an individual. Any criticism of public officials should be limited to issues related strictly to their position or actions made in office, as personal attacks will not be published. Letters involving private disputes between the writer and a business will not be published. Political endorsements will be published,

however letters rom candidates endorsing themselves will not be printed. Letters may be dropped at the News-Leader office (211 IL Route 38 East), mailed to the News-Leader (P.O. Box 46, Rochelle, IL 61068) or e-mailed (news@rochellenews-leader.com.) The News-Leader reserves the right to edit or reject any letter to the editor for any reason, and letters chosen for publication do not necessarily reflect the views of this newspaper.

# Hort webinars via **Zoom on Wednesdays**

University of Illinois Extension is pleased to announce a free webinar series, "Growing Horticulture in Northwest Illinois" on Wednesdays in May from 5:30-6:30 p.m., delivered using Zoom.

Illinois Extension Horticulture Educator Bruce J. Black will teach these webinars.

"Growing Horticulture in Northwest Illinois" is for anyone interested in learning more about gardening, growing food in a home or community garden or looking for ideas for the upcoming growing season.

"Horticulture is a great way to get fresh air, daily exercise and fun hobby for families," explained Black.

"Participating in these webinars can help improve your horticulture knowledge and growing season whether you are growing food for your family, growing flowers or even just tending your landscape."

## **Program topics**

May 5 — Growing and Preserving Herbs

May 12 — Strawberries

May 19—Creating a Bottle Terrarium Pre-registration is required two days prior to each webinar and can be completed at go.illinois.edu/growinghortwebinar. These webinars are offered free, but preregistration is required.

If you need a reasonable accommodation to participate in this program, please contact Black via email at brucejb@ illinois.edu. Early requests are strongly encouraged to allow sufficient time for meeting your access needs.

## Roberts donates latest book

Has two more World War II books in the pipeline

## ROCHELLE

Chuck Roberts donated a copy of his latest book on World War II history entitled "U.S. Airborne Tanks 1939-1945" to the Flagg-Rochelle Public Library. The book discusses how airborne tanks were developed in World War II, the soldiers who crewed on them and their usage in World War II. This is Roberts's third

book on World War II history, published by Pen and Sword Books, Ltd., South Yorkshire, England. There are two more books in the pipeline: "The History of the World War II 37-mm Cannon" and the "History of the Submarine Bluefish," the boat that Jim Moorehead served on in World War II.

Shown is Sara Flanagan, library director, accepting a copy of the book from Roberts on behalf of the library.

# Theatre offering live shows

**DEKALB** — Everyone loves a good reunion with friends or family, and Stage Coach Players (SCP) would like to invite you to a reunion of sorts. It's been quite a while since SCP has been able to invite patrons to come into their theatre to see a live production onstage, but on May 20, 2021, the theatre group opens its doors for the first time in over a year for the comedy-drama, Come Back To the 5 & Dime, Jimmy Dean, Jimmy Dean, by Ed Graczyk.

The story revolves around a 20-year reunion celebrating the life and death of famous actor James Dean, which becomes a life-altering gathering of one of his fan clubs at a diner in the small town of McCarthy, Texas.

Directed by David W. Booth, the play runs from May 20 through May 29, 2021. Calling themselves "The Disciples of Jimmy Dean," this group of women come together in 1975 to mark the anniversary of the actor's death. The ladies' reminis-

cences mingle with flashbacks to their youth. One even claims to have gotten pregnant from Jimmy Dean while she was a film extra on the set of the movie "Giant." Then a stunning-but-familiar stranger arrives, setting off a series of confrontations that smash their delusions and expose bitter disappointments.

The Broadway production of "Come Back To the 5 & Dime, Jimmy Dean, Jimmy Dean" opened on Feb. 8, 1982 and ran for 52 performances. Graczyk said the inspiration for the play came from his visit to Marfa, Texas, where some of the filming for Giant took place, and where the youth of the period traveled to experience a more vivid recollection of their idol, James Dean. The play was made into a film, which starred much of the original Broadway cast including Cher, Sandy Dennis, Kathy Bates and Karen Black.

Performances for "Come Back To the 5 & Dime, Jimmy Dean, Jimmy Dean" are May 20-22, 2021 and May 27-29, 2021 with a curtain time of 7:30 p.m. along with a Sunday matinee on May 23, 2021 with a curtain time of 2 p.m. Tickets are \$15 each or \$13 for seniors and children aged 13 and under. Tickets will not be available at the door to purchase.

For this production, audience members must wear a mask at all times while in the theatre. Each individual's mask must cover both their nose and mouth. Seating will be done in a manner that ensures proper social distancing in groups of no more than four. There will be no exceptions to the mask requirement at this time, even with proof of vaccination.

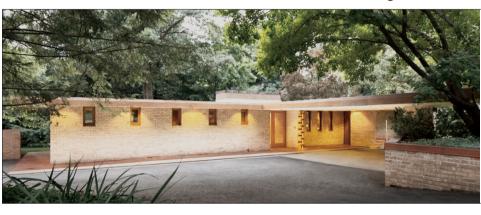

To purchase tickets or if you have any questions about the Covid-19 mitigations, please contact the box office at (815) 758-1940.

# The Egyptian in DeKalb receives local grant

**DEKALB** — The Egyptian Theatre in downtown DeKalb is excited to announce that they have received an \$11,000 DeKalb County Covid-19 Response Grant that will go toward the Theatre's operations budget.

**Funding partners** 

Funding for this grant program is made possible by the DeKalb County Covid-19 Response Fund, a Pass Through Fund at the DeKalb County Community Foundation, created in collaboration with various local funding partners.

"The impact of Covid-19 on the live

entertainment industry has been dire," Egyptian Theatre Executive Director Alex Nerad stated.

"This support from the DeKalb County Covid-19 Response Grant is critical to ensuring that the Egyptian Theatre not only endures this pandemic, but can return to the vibrancy of programming we were offering before

Opened in 1929

Outside of a pandemic, the Egyptian Theatre, which has been in operation since 1929, welcomes more than 42,000 patrons a year, is the host sight for events from over 25 local non-profits and recently completed a \$6.5 million expansion that expanded their restrooms, concessions and for the first time in its 91-year history, added air-conditioning.

The Egyptian Theatre located at 135 N. second St. in downtown DeKalb, is owned and operated by Preservation of Egyptian Theatre, Inc. a 501(c)(3) non-profit organization.

# Exercise after childbirth? Go for it

Giving birth is an experience unlike any other. While a woman's life changes forever after she gives birth, that does not mean new mothers cannot return to some of their old habits after their children are born.

Many women exercise during pregnancy, and doing so can provide various benefits to expecting mothers

and their fetuses.

According to the American Pregnancy Association, exercising during pregnancy can reduce backaches, constipation, bloating and swelling. Exercising while pregnant also can help prevent or treat gestational diabetes, an often temporary condition affecting between 2-5 percent of pregnant women in which the body does not produce sufficient amounts of insulin during pregnancy.

As they get closer to their due dates, many women may feel as though exercise has become too difficult if not impossible. In such instances, women may be eager to begin exercising shortly after giving birth. The American College of Obstetricians and Gynecologists notes that postpartum women can benefit from exercise in various ways.

## The benefits are huge

Postpartum depression is a form of depression suffered by mothers following childbirth. Hormonal changes fatigue and psychological adjustment to motherhood can contribute to postpartum depression. Various sources suggest between 10-20 percent of new mothers will experience postpartum depression.

Researchers have found that the antidepressant effects of exercise can help reduce a woman's risk of developing postpartum depression. That makes sense, as scientists have long known that exercise triggers the release of hormones known as endorphins that can alleviate symptoms of depression.

Another benefit of postpartum exercise is that it can help women improve their energy levels. Exercise boosts energy, something that new parents typically have in short supply in the weeks after their children are born.

Postpartum exercise also can help new mothers get better sleep.

That's a significant benefit for new mothers who will

That's a significant benefit for new mothers who will have to adjust to getting less sleep until their children begin sleeping through the night.

The Mayo Clinic notes that exercise also can be a great way for women, including new mothers, to reduce stress

# Nights out with friends help mothers recharge

Caring for children requires dedication and patience. Even though infants and toddlers may exact the most attention from mom, each stage of childhood presents new challenges. Motherhood is a task that demands much from women, and those demands can certainly pack on the pressure. Couple the pressure of

raising children with the growing trend of women

serving as primary caregivers to aging parents, and it's no surprise many women feel as though they need a

respite. That's what makes nights out with friends so essential. Here are just some of the many reasons why caregivers need to make time for socialization. • Caregiving can be alienating. No

matter how well-meaning moms and caregivers may be, they may grow to resent the work involved because the only interactions they may have on a daily basis are care-related. Women should get out regularly so they can focus on themselves and enjoy their relationships with friends. • Have a reason to get dolled up. When

other responsibilities take priority, putting

on makeup or wearing nice clothing can take a back seat. Girls' night out provides a reason to wear fancy clothes, do your hair and don a little mascara. Girlfriends tend to notice these beautifying changes and offer compliments which can be a nice ego boost.

• Girls' night out is a free therapy session. It won't take the place of counseling provided by a licensed therapist, but a girls' night out offers a chance to get things off your chest and seek advice from friends who may be in similar situations.

• You can indulge a little and laugh along the way. Loosening up with a glass of wine can help the conversation flow. Nights out with friends also will probably lead to a few laughs, which can certainly be helpful when life seems a tad overwhelming.

Regular nights out with friends can make it a bit easier for moms to juggle the responsibilities of being a mom, a caregiver or both.

You've likely heard women are responsible for a lot of growth in the shooting sports. A recent study found that the growth in some shooting disciplines is nearly 200 percent.

Thank you, ladies!

One organization, Shoot Like a Girl, heralds the study as an indicator that women and guns go together pretty fabulously. Shoot Like a Girl

or bow in a fun environment.

"There is a chance that our data is a course correction for the industry, too, based on the responses received after our query of a sizable number of women."

Most women are becoming inter-

ested in firearms and shooting for both self-protection and recreation.

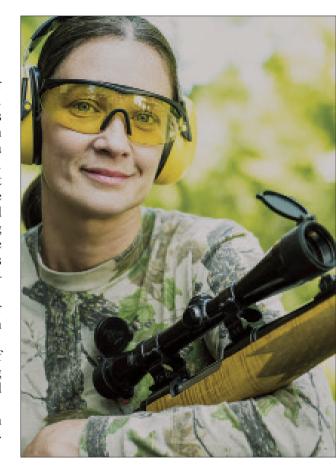

"People are looking for activities that they can have quality time with their families," Jeanine Sayre, a Shoot Like a Girl spokesperson said.

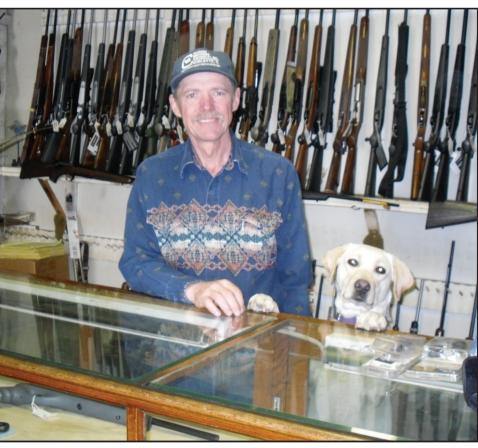

"While personal protection might be the driver for women to purchase a gun, when they go to the range and feel the confidence felt when hitting the target and realize that guns are safe when you practice the tenants of the NRA firearm safety rules shooting becomes a fun activity."

The NRA, GOA and other pro-liberty groups have also seen an uptick in membership interest.

The growing participation of women and kids in the shooting sports is certainly a sign of good things to come.

# Timely hits evade Lady Hubs against Cavaliers

Rochelle tees off season with losses to LaSalle-Peru, Morris

Wednesday.

**ROCHELLE** — The Lady Hub varsity softball team has shown a competitive fire over its first two games of the Interstate 8 Conference schedule. After a tough loss at Morris on Monday, Rochelle returned home for a matchup with the

LaSalle-Peru Cavaliers on

Sophomore Morgan Smardo took the mound for her first varsity start, throwing a complete game and recording four strikeouts. The Lady Hub defense prevented LaSalle-Peru from any big innings, but the Cavalier pitching proved too strong, with Rochelle ultimately falling 6-1 and dropping to 0-2 on the season.

"I thought we came in and battled in every inning," head coach Lindsay Suess said. "We had runners on base and in scoring position during almost every inning, but we need to make sure we're getting those crucial hits. I thought Morgan threw the ball well for us today."

LaSalle-Peru plated two runners in the first inning before expanding its lead in the third inning, where the Cavaliers scored two more to earn a 4-0 advantage. After tacking on an insurance run in the fourth inning, Rochelle avoided the shutout in the bottom half of the frame, where senior Kendal Ansteth walked and junior MeLisa Young doubled to make it a 5-1 ball game.

"Getting those crucial hits and timing the opposing pitcher up will be our biggest adjustments,"Suess said. "We also need to continue playing solid defense as we move forward."

Taking advantage of an error from Rochelle, LaSalle-Peru scored one run in the fifth inning. The Lady Hubs strung together multiple near-rallied toward the end of the game, with Smardo and junior Regan Underwood each drawing fifth-inning walks before being stranded on base. Underwood and Smardo reached again in the seventh inning, with Underwood walking and Smardo hitting a line-drive single to right field before a strikeout sealed the Cavalier victory.

Senior Bella Lodico took the mound for the Lady Hubs, striking out five batters and holding Morris scoreless over the first five

innings. Rochelle took a 1-0

adding two more runs in the sixth inning. Junior Jordin Dickey went 1-for-3 with a single and one RBI, while senior Kendal Ansteth finished 1-for-4 with an RBI single.

# Albers commits to Wartburg College

**SPORTS EDITOR** 

**OCHELLE** senior Ethan Albers has been an anchor on defense for the Hub varsity football team, earning All-Conference First Team honors from the Interstate 8 during both his junior and senior seasons. Atwo-way lineman who enjoyed success on both sides of the ball, Albers will be ready to take his talents to the NCAA Division III level at Wartburg College next year.

"I chose Wartburg College because it fits the major I want to study and I love the aggressiveness and winning mentality of its football team," Albers said. "I'm looking forward to meeting new teammates, facing new competition and receiving new challenges to overcome."

A two-year starter at both tight end and defensive end, Albers totaled 23 tackles while adding one fumble recovery and one interception in six games this season. Albers shined during his junior season, leading the Hubs with 6.5 sacks and seven tackles-for-loss. The 6-foot-2, 230-pound

lineman was the only junior on the Rochelle team to receive First-Team honors in 2019.

"Ethan consistently improved throughout his high school career," head coach Kyle Kissack said. "He continued to develop, he had success and he made the most of his opportunities. Ethan's a great teammate who was willing to rise up and do anything he could to help the team get better. I'm really proud of his efforts and they've allowed him to compete collegiately.

Albers played a significant role in Rochelle's double-overtime win against Ottawa in 2019, collecting six total tackles and 2.5 sacks in the Hub victory. The senior said he plans to study engineering while attending Wartburg College in hopes of pursuing a successful career.

'RTHS has prepared me for college by helping me improve my pass rushing skills and taking responsibility as a leader," said Albers, one of four captains on the varsity team this spring. "I'm going to bring a lot of energy to the team and I'll try my best over the next four years. I feel I could become a starter if I keep working hard in the offseason and keep up my cardio."

"Stargate 1" play on TV? -- P.G.

A: When I first read your question, I assumed that "Stargate" was part of the "Star Trek" franchise, but I was wrong. "Stargate" was an original film written and directed by Roland Emmerich and starred Kurt Russell and James Spader. The sci-fi movie was about an interstellar transportation device discovered in Egypt.

"Stargate SG-1" was a TV series that ran for 10 years and starred Richard Dean Anderson of "MacGyver" fame and Amanda Tapping of "Supernatural." It was based on the film and debuted on Showtime in 1997 before moving to the original Sci Fi Channel in 2002, where it stayed until 2007. There were two subsequent "Stargate"

spinoffs (can you see now why I assumed

it was part of the "Star Trek" franchise?): "Stargate: Atlantis," which ran from 2004-09 and included future movie star Jason Mamoa among the cast, and "Stargate: Universe," which ran from 2009-11 and was headlined by Robert Carlyle. A writer and producer of all three series,

Brad Wright, said in a 2020 interview that a

continuation of the show was in the works,

but there have been no updates since.

# Rochelle Municipal Utilities ANNUAL WATER QUALITY REPORT

January 1, 2020 to December 31, 2020

## ROCHELLE

IL1410500

Annual Water Quality Report for the period of January 1 to December 31, 2020.

This report is intended to provide you with important information about your drinking water and the efforts made by the water system to provide safe drinking water.

The source of drinking water used by ROCHELLE is Ground Water. For more information regarding this report contact: Jay Mulholland, 815-562-4155.

Este informe contiene información muy importante sobre el agua potable. Si necesita una copia del reporte en español comuniquese con el departamento de servicio al cliente al número 815-562-4155.

#### Water Quality

RMU has developed a contingency plan to ensure that, through emergency preparedness, any risks to the water supply will be minimized.

#### Vater Resources

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it can dissolve naturally occurring minerals and radioactive materials, and can pick up substances resulting from the presence of animals or from human activity.

## Possible Contaminants that may be present in source water include:

Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife;

Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming:

Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses;

Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and may also come from gas stations, urban storm water runoff, and septic systems; and

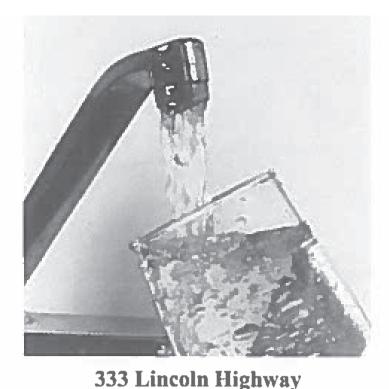

Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, USEPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Rochelle is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <a href="http://www.epa.gov/safewater/lead">http://www.epa.gov/safewater/lead</a>

Drinking water, including bottle water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline at 1-800-426-4791.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health

**SUNDAY, MAY 2, 2021**

care providers. USEPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the USEPA's Safe Drinking Water Hotline 1-800-426-4791.

#### Our Water Supply

We want our valued customers to be informed about their water quality. If you would like to learn more, please feel welcome to attend any of the Utility Advisory Board meetings held at 3:00 p.m. on the third Wednesday of January, March, May, July, September and November at the Technology Center, 910 Technology Parkway. The source water assessment for our supply has been completed by the Illinois EPA. If you would like a copy of this information, please stop by RMU or call our Water Operator at 815-562-4155. To view a summary version of the completed Source Water assessments, including: Importance of Source Water; Susceptibility to Contamination Determination; and documentation/recommendation of Source Water Protection Efforts, you may access the Illinois EPA website at http://www.epa.state.il.us/cgi-bin/wp/swap-fact-sheets.pt.

To determine Rochelle's susceptibility to groundwater contamination, information obtained during a Well Site Survey, which was performed by the Illinois Rural Water Association on July 15, 1999, was reviewed. Based on this information, several potential sources of contamination were identified within proximity of this water supply's wells. The Illinois EPA does not consider the City's source water susceptible to contamination. This determination is based on a number of criteria including; monitoring conducted at the wells; monitoring conducted at the entry point to the distribution system; and the available hydrogeologic data on the wells. In anticipation of the U.S. EPA's proposed Ground Water Rule, the Illinois EPA has determined that the water supply is not vulnerable to viral contamination. This determination is based upon the completed evaluation of the following criteria during the Vulnerability Waiver Process: the community's wells are properly constructed with sound integrity and proper site conditions; a hydrogeologic barrier exists that should prevent pathogen movement; all potential routes and sanitary defects have been mitigated such that the source water is adequately protected; monitoring data did not indicate a history of disease outbreak; and a sanitary survey of the water supply did not indicate a viral contamination threat. Because the community's wells are constructed in a confined aquifer, which should minimize the movement of pathogens into the wells, well hydraulics were not considered to be a significant factor in the vulnerability determination. Hence, well hydraulics were not evaluated for this groundwater supply.

## Water Quality Test Results

Definitions: The following tables contain scientific terms and measures, some of which may require explanation.

Avg: Regulatory compliance with some MCLs is based on running annual average of monthly samples.

Level 1 Assessment: A Level 1 assessment is a study of the water system to identify potential problems and determine (if possible) why total coliform bacteria have been found in our water system.

Level 2 Assessment: A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine (if possible) why an E. Coli MCL violation occurred and/or why total colliform bacteria have been found in our water system on multiple occasions.

Maximum Contaminant Level Goal or MCLG: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety

Maximum Contaminant Level or MCL: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum residual disinfectant level goal or MRDLG: The level of a drinking water disinfectant below which there is

no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

Maximum residual disinfectant level or MRDL: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

mrem: Millirems per year (a measure of radiation absorbed by the body)

ppb: Micrograms per liter or parts per billion – or one ounce in 7,350,000 galtons of water
N/A. Not applicable

Treatment Technique or TT: A required process intended to reduce the level of a contaminant in drinking water pCi/L: piccouries per liter (a measurement of radioactivity)

ppm: Milligrams per liter or parts per million – or one ounce in 7,350 gallons of water

Teachers play an enormously important role in the development of our nation's youth. They teach and inspire, guiding our kids toward bright, successful futures. They act as educators, role models and coaches, broadening minds and encouraging achievement. During **Teacher Appreciation** Week, we recognize teachers for their dedication to helping our children, our nation's future leaders, succeed.
