Aug. 27, "... was a shock to a lot of us."

Demmer said Gov. JB Pritzker has set up a power policy group, and Demmer said some people from Byron will be testifying in front of that group on the importance of the plant to the local economy and the region.

'There's a discussion happening in the governor's office," Demmer said, adding that this discussion will be happening for "several

Local officials have also come together to try to save the plant. The group put together an economic impact report on the plant, which is available at savebyron.com.

The loss of the Byron plant would mean the loss of more than 700 jobs. The plant also spreads plenty of tax money around the county. Paul Dempsey, communications manager of the Byron station, said that the station's 2017 tax bill was more than \$38 million. The taxes went to a variety of taxing bodies, including the Byron School District, Ogle County and the Byron Museum and Library District.

Terry McGoldrick, president of Local IBEW 15, told the board that they are looking for a long-term agreement so they don't have to do this again in a couple of years.

"This is very serious, and it will close if we don't get something done," said McGoldrick, who lives in Stillman Valley.

For its part, the county board did approve a resolution in support of the Byron plant.

It read, in part: "...be it resolved, by the County of Ogle, that we urge the State of Illinois to support polices to preserved Illinois nuclear energy plants, because of their support for our local economy by creating thousands of jobs, strengthening the commitment to a pollution and carbon-free environment, and ensuring a more reliable electric grid for consumers and businesses; while creating a sustainable energy future for generations...

Barb Becker, on behalf of Sunshine Bakery, accepted the \$1,000 check that the bakery won from the daily Cash Calendar drawing on Labor Day from Rochelle Rotarian Dave Eckhardt. The Rochelle Rotary Club is currently selling the Cash Calendars for 2021. Each person who purchases a calendar is entered to win a cash prize daily - 365 chances ranging from \$25 to \$1,000 - and help support eight local non-profit groups through the club's From the Heart committee.

Rotary Daily Cash Calendars are now available for purchase. For those unfamiliar with the club's annual fundraiser, the Daily Cash Calendar is a way to give back to eight local non-profit organizations that benefit from the club's From the Heart fundraiser as well as a chance to win a cash prize every day for a year. Mail-in ballots showing high returns

ROCHELLE — With the 2020 election less than two weeks away, residents across Ogle County and Illinois are taking advantage of early voting and mail-in voting opportunities as a way to remain involved in the political process safely due to the ongoing CO-VID-19 pandemic.

The U.S. Elections Project reported Friday that at least 52.4 million people in the United States have cast their ballots early for the 2020 election. That's over 38 percent of the total votes counted in the 2016 election. Over 36 million people have cast their ballots through the mail this year, and over 85 million mail-in ballots have been requested by voters across America.

Illinois has seen roughly 2.3 million mail-in ballot requests and nearly 1.1 million mail-in ballots returned, according to the U.S. Elections Project. In Ogle County, over 21 percent of registered voters have requested mail-in ballots, and of the roughly 7,000 voters who have

Non-emergent COVID-19 questions will be addressed by calling 815-561-8829 and an RCH nurse will be available for assistance. Callers will have the ability to leave a message and the call will be returned during the triage line hours of operation.

Patients who meet the criteria for COVID-19 testing through the COVID-19 Triage Line are scheduled with an appointment time. Testing volumes are increasing and RCH wants to emphasize that patients need to go through the triage line to schedule a COVID-19 testing appointment by calling 815-561-8829 instead of coming straight to the hospital.

To alleviate any confusion RCH wants to emphasize that patients should drive up to Entrance E (shown on the map). This is the Emergency Room entrance on Third Street. Follow the instructions provided and Lab personnel will meet scheduled patients.

BALLOT: Deadline to request ballots is Oct. 29

From page 1

"We're starting to see more ballots come through," Rochelle Postmaster Paul Charboneau said. "I've never seen an issue with mail-in voting. We treat every ballot as First Class mail and there isn't anything left in our office at the end of the day... I've been working with the postal service for 32 years and we've processed mail-in votes for every election throughout those 32 years."

Voting by mail first became prominent during the Civil War period. With many union soldiers on the frontlines, 19 states changed their laws to allow soldiers to vote absentee in the 1864 election between Abraham Lincoln and George Mc-Clellan. Voting by mail was highlighted once again during World War II, when the Soldier Voting Act of 1942 allowed troops to send ballots over to the United States from abroad. 3.2 million absentee votes were cast in the war.

The State of Illinois has presented clear guidelines voters must fol-

low in order to ensure their main-in ballots are completed and counted successfully. For Ogle County voters, the process begins with filling out a form designating where the voter's mailin ballot application will be sent. Within a single business day, voters will receive their mail-in ballot application form, which must be completed correctly and mailed back to the Ogle County Clerk by Thursday, Oct. 29. Within two business

days, voters will receive their mail-in ballots, which must be completed and placed inside the certification envelope, which must be sealed, signed and mailed back to the Ogle County Clerk. Envelopes containing mail-in ballots must be postmarked by Election Day, Nov. 3, and they must be received within 14 days after the election (Nov. 17) to be counted.

Lastly, the voter's signature is confirmed with the signature on the voter's registration record.

"We take the ballot envelopes and place them in collection boxes with all the collection mail,"

Security OF Cameras In Use INSERT BALLOT HERE OCCLE

A dropbox for mail-in ballots is available at the Ogle County Courthouse for those who would rather hand deliver their ballot.

Charboneau said. "The envelopes are then processed at our distribution centers in Palatine and Carol Stream. There are intelligent mail barcodes on the envelopes that provide timestamps and show when the ballots are processed. The election committee gets informa-

tion from the intelligent mail barcode that's on the envelope. Once the ballot envelopes are processed, they're sent back out to Oregon, which is where all of the mail-in ballots from Ogle County end

While mail-in voting has enabled millions of Americans to cast their ballots ahead of Election Day, some skeptics claim that excessive mail-in voting can lead to voter fraud or other forms of cheating. However, a recent op-ed published by The Hill revealed that over the last 20 years, over 250 million mail-in ballots have been cast and only 143 criminal convictions have been made for election fraud related to mail-in ballots. That's

a fraud rate of 0.00006 percent.

Charboneau said he hasn't witnessed any voter fraud or cheating throughout his time with the postal service. Additionally, while Charboneau said he plans to vote in person, he said the current pandemic could encourage more early and mail-in voting for future elections.

"We've had absentee and mail-in voting for quite a while and I've yet to see an issue with it," Charboneau said. "I'm personally going to vote in person, but I don't see an issue with mail-in voting and I don't see anything at the post office that could cause any issues with mail-in voting."

CHOOSING A FUNERAL DIRECTOR

Taking time to plan ahead for the rites and rituals that are important to you and your family is the best way to avoid the emotional pressures that are almost inevitable in a time of grief.

is an important Cost consideration in planning a funeral, but there are other things to take into account as well. One of them is finding a funeral director you trust, one with whom you will feel during comfortable emotional and trying time.

If you do not know a funeral director in your area, here's some advice. Get together with a family member or friend that makes the project less scary - then call some local funeral homes and ask for an

appointment. You might ask friends or acquaintances who have lived in the area for suggestions. Funeral directors should be happy to show you their facilities and give you preliminary information about funeral alternatives expenses. It's always best to call first so that they will be expecting you.

to see Tier 2 restrictions **ROCHELLE** — Illinois Gov. JB Pritzker and state health officials

announced Thursday that Region 1 of the IDPH healthcare map, which includes Winnebago, DeKalb, Carroll, Jo Daviess, Whiteside, Boone, Ogle, Stephenson and Lee counties, will see Tier 2 COVID-19 restrictions beginning Sunday, Oct. 25. Region 1 has been under Tier 1

of the state's resurgence mitigation plan since Oct. 3 after seeing a seven-day rolling average test positivity rate of 8 percent or above for three consecutive days. Beginning Oct. 25, Region 1 will face additional mitigations, such as a tighter gathering cap of 10 individuals rather than 25 and new table caps of six rather than 10 when eating out. "We've said all along that if

things don't start to turn around after two weeks in Tier 1, we can add more stringent measures to help usher in the progress we need to see to get things more open again," Pritzker said. "That is now the case in Region 1, which has seen its positivity rise by nearly two points since Oct. 14 alone. Region 1, bordering Wisconsin and Iowa, carries the additional responsibility of navigating a situation where the massive surge of cases in our neighboring states will continue to have a spillover effect. There is no easy fix. So as colder weather comes upon us - and brings flu season along with it - it's imper-

ative that we take extra caution and extra care. Because at the end of the day, this is bigger than you. This is about all of us, and the communities we call home. We have to take care of each other." Region 1's positivity rate will be

Effective Sunday, Region 1

tracked by the IDPH to determine if and when restrictions can be relaxed or if additional restrictions are required. Region 1 can return to Phase 4 guidelines under the Restore Illinois Plan if the positivity rate averages less than or equal to 6.5 percent for three consecutive days. If the positivity rate averages between 6.5 and 8 percent, the new restrictions will remain unchanged. More restrictions can be applied if the positivity rate averages more than or equal to 8 percent after 14

Restrictions

The COVID-19 restrictions taking effect on Sunday, Oct. 25 state that all bars and restaurants must close by 11 p.m. and remain closed until 6 a.m. the following day. No indoor bar or dining service will be allowed and all bar patrons should be seated at tables outside. No ordering, seating or congregating at the bars is allowed and bar stools should be removed. Tables must be 6 feet apart and no standing or congregating indoors or outdoors while waiting for a table or exiting. No dancing or standing indoors and no seating of multiple parties at one table. No tables can exceed six people. Reservations are required for each party.

The COVID-19 restrictions taking effect on Sunday, Oct. 25 for meetings, social events and gatherings include limiting to 10 guests in both indoor and outdoor settings. These are applicable to professional, religious and cultural and social group gatherings. These are not applicable to students participating in-person classroom learning, sports or polling places. This does not reduce the overall facility capacity dictated by general business guidance. No party buses are allowed. Gaming and casinos must close at 11 p.m., be limited to 25 percent capacity and follow restrictions for bars and restaurants, if applicable.

The COVID-19 restrictions taking effect on Sunday, Oct. 25 for organized group recreational activities including sports, but excluding fitness centers, include limiting to lesser of 25 guests or 25 percent of overall room capacity both indoors and outdoors. No groups of more than 10 people are allowed and the All Sports Policy remains in effect. Outdoor activities continue to follow the current Department of Commerce and Economic Opportu-

KEC partners with The Legacy **Academy in Sycamore**

MALTA — The Kishwaukee Education Consortium, which offers career and technical education courses for high school juniors and seniors, has partnered with the Legacy Academy in Sycamore to offer high school juniors and seniors a barbering class.

The class will allow for students interested in a barbering certificate to get over 1,000 hours in a two-year program towards the 1,500 hours needed in order to sit for the Illinois Department of Health Barbering License Exam.

KEC Executive Director Tom Crouch says that the new class offering meets all of the checkmarks for beginning a new program.

"The class meets many of the goals stated in our strategic plan including equity, internship opportunities, certifications and local labor market needs as there is a shortage of licensed barbers in our region and the closest training school had been in Schaumburg prior to Legacy opening in Sycamore just a few weeks ago," Crouch said. "Our board is very excited about the opportunity to offer the class under our cosmetology and esthetics pathway and I am very happy to be partnering with The Legacy Academy in Sycamore to create opportunities for high school students in our region."

KEC has been busy adding offerings for high school students. The barbering class is now the eighth program added to the KEC catalog since 2012 along with emergency medical technician, esthetics, business leadership, sports medicine, basic firefighter operator, new

Trusting God with every injustice

Joyce Meyer

RE you going through something difficult right now, experiencing pain or disappointment from a situation that just doesn't seem fair? In this world, so many things are not right, and you don't have to look far to find some kind of injustice.

But one of the things I love most about God is that He's a God of justice—He makes wrong things right.

I really love 1 Peter 2:23, which says that

when Jesus was "reviled and insulted, He did not revile or insult in return; while suffering, He made no threats [of vengeance], but kept entrusting Himself to Him who judges fairly" (AMP).

When we're being mistreated or endur-

When we're being mistreated or enduring something difficult, it's easy to want to take matters into our own hands. However, the best thing we can do is say, "God, I'm going to trust You to be my vindicator."

Many people are used to trusting God for things—for a raise, for better health, or for the next great thing they would like to happen in their lives. But God also wants us to trust Him through things—when we're experiencing difficulties or when life isn't working out the way we hoped it would. Trusting God allows us to enjoy our lives

even when everything is not the way we want it to be.

For instance, maybe you've worked harder than ever at your job but still haven't received a promotion or a pay raise. Maybe a coworker who doesn't seem to work as hard as you gets the promotion you wanted. I know what this is like. Years ago when this happened to me, I immediately thought, It's not fair.

And I had a choice to make: I could choose to be angry and bitter toward the people involved and try to vindicate myself, or I could choose to trust God to make wrong things right, knowing that He could pay me back for any injustice done to me.

I want you to know I understand what it's like to have to make this choice, and that it's never easy. For the first 23 years of my life, I endured a lot of painful experiences that left me bitter, resentful, and constantly blaming other people.

As a child, I was sexually abused by my father. My mother eventually found out, but fear prevented her from confronting the issue, so the abuse went on for years. When I turned eighteen, I married the first man who came along because I was convinced no other man would ever

want me. But this only led to more pain. We ended up divorced after I discovered he was cheating on me with other women and was involved in criminal activities. When we're hurt or mistreated,

Meyer it's easy to have an attitude that says, Someone owes me. I sure did. For years, I tried to "collect" from people who had no way of paying me back. Because a man (my father) hurt me, I found myself trying to make other

Ife in a destructive way.

Thankfully, as I began to read and study God's Word, I discovered that God wants to be our vindicator, and He can restore everything we've lost through injustices

men pay. And it affected every area of my

we've experienced.

Isaiah 61:7-8 (NIV) says, "Instead of your shame you will receive a double portion, and instead of disgrace you will rejoice in your inheritance. And so you will inherit a double portion in your land, and everlasting joy will be yours. For I, the Lord, love justice...." This is basically saying if we will trust God, He will give

us double for our trouble.

Through Scriptures like this, God helped me understand that no person can ever pay me back for what I went through—but He can. When I finally began trusting God to be my vindicator—when I got my eyes off of everyone else and focused on Him—it was truly amazing what He began to do in my life.

God wants to do the same thing for you. If someone mistreats you, refuse to stay mad at them and trust God to bring justice into your life. I can promise you this: If you'll stop trying so hard to get justice for yourself—to manipulate people and situations to get "what you deserve"—you'll be amazed at what God will do for you as you place all of your trust in Him.

So, whatever's going on in your life today—whatever you've endured and whatever doesn't seem fair—I want you to know that you're not invisible to God. He sees you, He knows exactly how much you can take, and He will deliver you at just the right time. He won't be a moment too late.

Remember, God is the only One Who can truly vindicate you. He is the God of justice, and He can take your wrong thing and make it right.

Weather makes the rounds this week

hope you had a chance to enjoy the beautiful fall weather we had between 3 and 6 p.m. Thursday. Weather forecasts had us in the 70s, but I did

not expect the temperature to reach that based on the cooler tempera-

tures all morning. Suddenly the clouds parted and for a few hours we had beautiful weather.

I used the time to clean up my veggie garden, a friend used it to move in patio furniture, and I saw several people at the car

By the time you read this, that time slot will be a distant memory and we will be dealing with cooler temps.

So, to recap the week: Cold, rain, snow flurries, 40s, torrential rain and thunderstorms, 75 and sunny, 40s. As the old saying goes, "Don't like Illinois weather? Stick around an hour, it will change.'

I took a time out at Lake Sule this week. I brought a cup of coffee along and sat in my car watching the water. Nobody else was there, just

I was amazed at the traffic on Interstate 39. In a three minute period, (yes, I timed it) I counted 25 cars and 17 trucks headed south on Interstate 39. Forty-two vehicles in three minutes, or roughly one about every 4 sec-

Northbound was just as busy. I guess that explains why there are two new travel plazas in

It seems strange to pass Hickory Grove and not see lights on at night. I am involved in Vince Carney Community Theater and we staged many shows, ate many meals, and had a few beers there over the

In my humble opinion, it was a poorly designed complex from the beginning, but it is still sad to see it go.

Many remember 'Dave Major and the Minors' at the Vagabond during the 70s. They were a popular group and always seemed to pack the place.

But what you may not know is the leader, Terry Dave Perry, was in-**Dickow** volved in a double murder in DeKalb County in 2000. He killed his ex-wife's new husband and her mother and was killed in a shoot-out with DeKalb County deputies.

Letter to the Editor

It is time to put country before party

Dear Editor,

My father voted Republican for over 70 years. By the time the 2018 midterms rolled around, he was so disgusted he vowed to vote for

Democrats. Donald Trump was destroying everything my dad respected; the Republican Party allowed it. Trump trashes media

sources we have respected for years. He meddled in the USPS. He claims our election results cannot be valid if he loses. He undermines our FBI and CIA. He closed the borders to China, but allowed 40,000 U.S. citizens and authorized travelers to return to the U.S. With no national plan, many returned without tests or quarantine, seeding infection in our communities.

His inadequate response to the pandemic has cost thousands of lives. After the COVID outbreak at a South Dakota Smithfield plant, the CDC's world-renowned epidemic team was forced to water down recommendations for the first time, ever. We heard Trump's own words of betrayal: he downplayed the virus to avoid panic, keeping facts from us that could have saved lives.

He wasn't worried about the American people. He was only worried about the stock market. Trump believed he had to choose the economy over

public health. Our economy suffers anyway. Now he is choosing herd immunity as our path. Medical experts warn this would

result in additional deaths in the millions. Officials from the De-

fense Department, Homeland Security, Intelligence, Justice Department, State Department and White House, many of whom worked closely with Trump, are raising an alarm. Most worked for Presidents of

both parties. Trump claims to know more than economists, military, medical, public health, science and national security experts. There is a 90 percent turnover in key positions. Nearly 500 retired generals, admirals and senior civilian national security officials, who never comment on politics, endorsed Joe Biden and blasted Trump.

Former Defense Secretary Mattis: "Trump is the first president in my lifetime who does not try to unite the American people. We are witnessing the consequences of three years of this deliberate effort. We are witnessing the consequences of three years without mature leadership."

Former Navy Secretary Richard Spencer: "The President has very little understanding of what it means to be in the military, to fight ethically or to be governed by a uniform set

of rules and practices." John Kelly, a retired U.S. Marine Corps general and former White House Chief of Staff for President Donald Trump, said "There is a concern, I think an awful big concern, that the partisanship has gotten out of hand, the tribal thing

has gotten out of hand." It is time to put country before party. It is time to reject a man who is not up to the job.

Life is full of great moments for us to collect

▼ TRANGE how things seem to come around

Thirty years ago, I was finishing up college and getting ready to start my journalism career. I had a baby at home and was ready to kick off my life.

Now my son, that baby, is 30 and starting to look for his first journalism job as he completes college in about six weeks.

So, I am actually helping him look. There is a great journalism site for job seekers and I check it often, looking for entry level jobs for him in small towns. There are newspapers all over - yes, still - although the numbers are shrinking. And you can find them in some cool places.

Want to live in the middle of nowhere Wyoming? No problem. Got the urge to live in the west? New Mexico has the job for you.

Ah yes, New Mexico. If you haven't been to New Mexico, I highly recommend it. From the cool, forested north to the hot deserts in the south it has a lot to offer. New Mexico is a place I almost called home, as my parents nearly moved there before I was

born. Instead they traveled one more state west and ended up in Arizona. But I have always want-

ed to live in New Mexico. I used to look at newspaper jobs there, but the right one at the right time never popped up. Too bad, because it is a state that has long had a pull for me.

And now, looking at jobs my son is applying for, I realize that the moving to New Mexico ship has probably sailed.

Yes, it is a bummer.

Honestly, I am probably a little too old to pack up and move to a new state, at least before retiring. And that is a weird feeling for someone who has moved around all of his adult life.

But I love adventure. I love

meeting new people. I love going to places I have never been - even state's I never considered living in, like Nebraska. Life is all about the adventure, and I don't want to

give that up.

So instead, I will just have to make some adjustments. If my son does end up getting a job in a place like New Mexico, I can and will - go visit often. Yes, to see him. But have you ever had New Mexico **Jennings** Mexican food? It is loaded with chilis and packed with flavor. I am literally salivat-

ing right now.

And when I do eventually retire, something that is not even on the horizon, I can certainly travel to scratch that moving itch. One of my favorite things about riding a motorcycle is taking roads I have never been on before. I can and do take notice of these unique moments. And our lives are just a collection of the moments, right?

I just like to collect as many of these moments as I can. If I didn't travel, and If I had not moved around as much as I have, I just wouldn't have enough of these precious moments collected.

I understand I am not everyone. I know a lot of people who are content to stay put, not move and rarely travel. I say live the life you want to live.

Me? I am always thinking about what is over the next hill.

I think my son has that same thing. He is looking forward to living in a place that he has never lived, to meeting people he would have never met if he had not been

prepared to take a chance. I am glad to see that. I am glad he is open to taking chances. Taking chances has led me to living a life I would say is far from boring.

Collect those moments. Savor them. They make us what we are.

The importance of routine vehicle maintenance

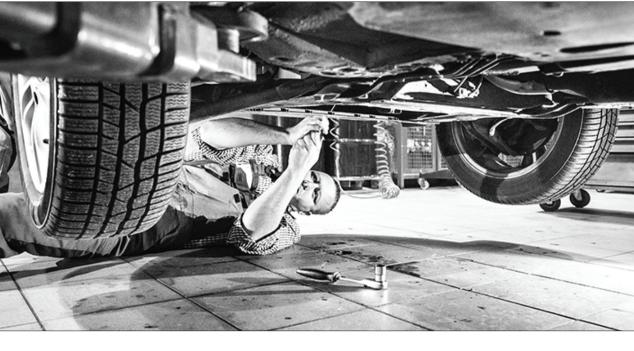

WNING a car is a big responsibility. Drivers who plan to keep their vehicles for the long haul must emphasize maintenance if they want to keep adding miles to their odometers. In fact, the automotive information site CarAdvice says that routine maintenance may be the most important thing drivers can do for their vehicles.

A vehicle needs consistent care if it is to run efficiently. Maintenance also reduces the risk of roadside breakdowns and costly repairs. Here's a look at some of the benefits of staying on top of maintenance.

Saves money: Even though maintenance costs money, sticking to a consistent maintenance schedule can save big bucks in the long run. For example, the cost of rotating and aligning tires is considerably less than repairing a car after a major blowout and paying for a tow and tire replacement.

Improves performance and efficiency: Routine maintenance includes oil changes, filter changes and fluid top-offs. Such tasks keep engines running smoothly. Ignoring this routine maintenance can put engines in jeopardy of breaking down and adversely affect vehicle performance, diminishing fuel economy and leading to a sluggish ride.

Identifies safety issues: Routine inspections and work performed by reputable service stations help drivers stay abreast of recalls or issues that can affect the safety of the vehicle.

Maintains a maintenance record: When the time comes to sell the vehicle, having a log of routine maintenance indicates to potential buyers that the vehicle was well cared for.

Keeps compliance: Vehicles covered under manufacturer's warranties typically need to be maintained in adherence to factory-recommended maintenance

schedules. This ensures that the vehicle is in compliance and will be covered in the event of a warranty claim.

Routine vehicle maintenance is important for a variety of reasons. Drivers can work with a trusted and reliable mechanic to develop a schedule that keeps their cars and trucks on the road.

How to effectively and safely sanitize a car

THE COVID-19 pandemic changed the way people live. One readily felt effect was spending more time at home. Vehicles sat idle in driveways and even some automotive insurance providers reduced rates because people were driving much less.

Even with stay-at-home measures in place, people still need to leave their homes to stock up on essentials, such as food or medicine. In other cases, people may have been essential workers who drive for a living, including delivery drivers or health care personnel who were incapable of working from home.

Any time a person goes out in public, he or she runs the risk of contracting viruses. Bacteria and germs may reside on various surfaces, including those inside vehicles.

People want to protect themselves and now are more aware of the importance of frequently cleaning and sanitizing their cars. Keeping a vehicle safe to drive without affecting its upholstery or electronic components is paramount.

The CDC makes a distinction between cleaning and disinfecting. Cleaning refers to the removal of germs, dirt and impurities from surfaces. It does not kill germs, but can lower their numbers. Disinfecting refers to using chemicals to kill germs on surfaces. The following are some ways to deeply clean and sanitize a car.

Wash hands. First and foremost, it is crucial to wash your hands before and after using the car. This can reduce the likelihood of growing ill because of transferred viruses or bacteria.

Use rubbing alcohol. Solutions that

contain 70 percent alcohol are effective against many viruses and bacteria, including coronaviruses, says the CDC. Furthermore, Jeff Stout, Executive Director of Global Innovation at Yanfeng Automotive Interiors, says that, for the most part, nearly every interior surface of a vehicle can be cleaned with isopropyl alcohol. Plastic to painted chrome to imitation leather have been tested to ensure they don't degrade when exposed to pure isopropyl alcohol.

Avoid bleach or hydrogen peroxide. While bleach and peroxide are very effective cleaners and sanitizers, they are likely to damage a car's upholstery, according to Consumer Reports.

Use soap and water: Experts say that vigorous washing with a soap-and-water solution can be effective against many contaminants because it breaks down the protective envelope that surrounds coronaviruses and other germs to disarm them. Friction also can help to break down germ cells during cleaning.

"You want to do the best with what you have, so even soap and water can chip away at the risk," says Stephen Thomas, M.D., Chief of Infectious Diseases and Director of Global Health at Upstate Medical University in Syracuse, NY.

Address frequently touched surfaces. Pay attention to the steering wheel, door handles, buttons, touchscreen displays, shift lever, and more when sanitizing. Each of these items can harbor germs.

Deep-cleaning a vehicle has become a necessity since COVID-19 emerged. Frequently cleaning and sanitizing can help make vehicles safer to operate.

Tire maintenance keeps drivers safe Maintaining tires is

Maintaining tires is an important component of safe driving. Tires are some of the hardest working parts on a car or truck and are subjected to wear and tear every time rubber meets the road.

Tires affect many components of driving, including handling, braking and the comfort of the ride. Maintaining tires makes driving safe not only for drivers and their passengers, but also for fellow motorists.

The National Highway Traffic Safety Administration says that, in 2017, 738 fatalities occurred because of tire-related crashes. Many of those crashes were no doubt preventable, and that only highlights the importance of maintaining tires and monitoring their performance.

Poor tire maintenance can lead to premature wear and potentially result in a blowout. The automotive group AAA notes it is important to visually inspect tires as often as possible. Drivers should look for overall tread wear. Pay special attention to tread wear on one edge of the tires, which could indicate poor

alignment. Erratic tread wear may mean tires are out of balance.

Drivers also should pay attention to how their cars drive and sounds. Unusual vibration or thumping noises suggest issues with the tires. A car that pulls in one direction also may be experiencing tire problems.

Vehicle owners should be aware of the routine maintenance steps that can keep them safe and improve the life expectancy of tires.

Tire pressure: The NHTSA says only 19 percent of consumers properly check and inflate their tires. Keeping tires properly inflated is one of the most important steps to maintaining them. Tires lose around 1 psi per month, and underinflated or overinflated tires can contribute to unusual wear, blowouts and even excessive fuel consumption.

Rotation: Check the owner's manual or recommendations from the tire manufacturer, but know

that most mechanics advise having tires rotated every 5,000 to 8,000 miles. Rotation helps distribute wear more evenly on tires.

Balancing: AAA says balancing also helps minimize uneven wear and tear. Balanced tires are achieved by using small weights attached to the wheels to limit vibration of the tire and wheels as they turn. New tires should be balanced, and tires also should be balanced after one or more is removed to repair a puncture.

Alignment: Vehicles have wheel alignment measurements that pertain to manufacturers specifications. Alignment that falls outside of the range can impact handling, fuel economy and tread wear. A drift or pull suggests alignment problems and should be addressed.

Vehicle owners should keep tire inspection and maintenance in mind as part of their overall car care plan.

Staying prepared

Hub and Lady Hub programs taking advantage of fall contact days

BY RUSSELL HODGES

SPORTS EDITOR

ROCHELLE — Although the fate of the 2020-21 winter sports season remains in the balance, Rochelle Township High School's Hub and Lady Hub basketball programs are taking advantage of their fall contact days and preparing as if they'll be taking the courts this winter.

With the winter season scheduled to start Nov. 16, both teams have been working out at RTHS throughout September and October, utilizing their 20 fall contact days allotted by the Illinois High School Association. Although the two teams have been forced to make adjustments to their normal offseason programs, head coaches Tim Thompson and Tony Rowan said the studentathletes are staying positive and making the most of an unprecedented situation.

"We had contact days throughout the summer and we were able to do some shooting, but we weren't doing anything contact-related," Thompson said. "We've kept our schedule pretty consistent with what we normally do in the fall as far as open gyms go. We've used our contact days this fall to do some skill development, but we haven't had any full practices because we aren't exactly sure what's going to happen, so we've been going up and down with open gyms."

"We really understand that kids need sports, and seeing the kids interact with each other is helpful for their morale and their academics," Rowan said. "We're doing some basketball stuff, but we're also focusing on the second-tier stuff. We've given the kids at-home workouts as far as running and weightlifting and we've tried keeping the kids as active as possible, whether that's with or without a basketball. We're definitely trying to make lemonade out of lemons."

Lady Hubs looking to build on historic finish

Rochelle program trending upward after six-win season

BY RUSSELL HODGES
SPORTS EDITOR

ROCHELLE — The Lady Hub tennis team entered the 2020 season having won only four matches over the previous four years. After a historic finish at the IHSA 1A Rochelle Sectional this past weekend, the future of the Lady Hub tennis program is looking brighter than ever.

Rochelle finished third at the sectional tournament and medaled two doubles teams for the first time in school history. The postseason achievement highlighted a 6-12 campaign that saw the Lady Hubs secure nearly twice as many victories as they recorded between 2016-19. Rochelle also went 5-4 over its last nine matches, a sign that the best is yet to come for the Lady Hubs.

"I hope the girls continue to keep training, whether that means conditioning over the offseason or playing other sports," head coach Lizzie Cartwright said.

Jones reflects on first semester with Kish golf

BY RUSSELL HODGES

SPORTS EDITOR

OCHELLE graduate Hayden Jones received his first taste of collegiate golf this fall, competing with the Kishwaukee College team under new head coach Thomas Brennan. Both Brennan and Jones are RTHS alums and former Hub golfers. Additionally, Brennan and Jones are both left-handers, and the two have already formed a strong bond over the first half of the golf season.

"It's been a blessing having the chance to be taught by coach Brennan," Jones said. "It really helps that we're both lefthanded because he can show me things with his swing that I can apply to mine. It's also great that we can talk about our past experiences playing for RTHS."

Jones was one of five men to hit the tees for the Kishwaukee College golf program this fall. The Kougars competed in five events throughout September and October, with the season scheduled to resume in the spring with six more matches as well as the NJCAA Nationals. Jones opened the season with 197 over 36 holes in the Skyhawk Classic at Byron's PrairieView Golf Club before carding 172 in the IVCC Fall Classic at Senica's Oak Ridge Golf

"I think the first semester went great," Jones said. "I learned a lot from coach Brennan that I think will definitely help me moving forward. I enjoyed playing with my new teammates and they were really easy to get along with. I thought my course management improved the most. Depending on where I was on the course, I was able to hit certain shots as opposed to just walking up and hitting the ball. I want to improve my ball striking so I can shape my shots."

Jones concluded the fall season with 277 across two days and 54 holes at the NJCAA Region IV Championships at PrairieView Golf Club. A former multi-

sport student-athlete at RTHS, Jones plans to play golf and baseball for the Kougars during the spring semester. The Kishwaukee baseball team will begin its season against Frontier Community College on Feb. 26, 2021.

"It's been a while since I played baseball because of COVID-19, so I'm excited to get back out there," said Jones, who recently spent one year with the TCS Post-Grad Academy in McKinney, Texas. "I plan to make baseball a priority but I will still play golf whenever I can."

"It's been a blessing having the chance to be taught by coach [Thomas] Brennan. It really helps that we're both left-handed because he can show me things with his swing that I can apply to mine. It's also great that we can talk about our past experiences playing for RTHS... I learned a lot from coach Brennan that I think will definitely help me moving forward. HOOPS: RTHS programs planning for Nov. 16 start

Basketball has been deemed a medium-risk sport by the Illinois Department of Public Health, meaning student-athletes can conduct intra-squad scrimmages but no competitive play. All mediumrisks sports are currently at Level 2 of the IDPH All Sports Policy, with Level 3 allowing for conference and COVID-regional contests only. Low-risks sports such as golf, tennis and cross country are currently competing at Level 3 because they are deemed low-risk by the state.

Players who scrimmage indoors are also required to wear masks under the IHSA Fall Contact Day Guidelines. Masks haven't been an issue for student-athletes at RTHS, though, and both coaches said players have adjusted to wearing masks while working out on the basketball court.

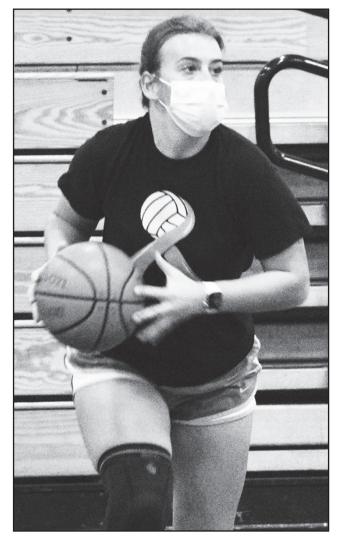

"I think masks will be here to stay for a while," Rowan said. "They're something we can whine about but it won't change anything. COVID-19 is a serious issue and we're enforcing the mask policy. I think wearing masks will

prepare the girls for whatever comes our way, but it will be important for us to continue having a positive attitude as we move forward."

"The kids have been great with the masks," Thompson said. "Wearing masks during the summer and getting the feel for wearing masks helped us. There were some complaints about the masks being uncomfortable during the summer, but the kids have adjusted well and I rarely hear anything from them. We want the kids to be safe, but we're not going to change the way we play, and so if kids need to come out of the game a bit earlier, then we'll sub them out."

The IHSA Board of Directors has scheduled a special meeting on Oct. 28, when administrators are expected to make an announcement regarding winter sports for the 2020-21 season. Regardless of what happens over the next few weeks, Thompson and Rowan have stressed being positive and staying prepared as they remain optimistic for the season to start on time.

Q: With the recent death of Eddie Van Halen, it made me wonder how Ozzy Osbourne is doing. Didn't he have some health issues a row Comes." Her biggest role was arguably few years ago? -- E.S.

(11:00) "Christmas Next Door" (2017)

A: Singer and reality TV star Ozzy Osbourne has been on the mend since having spinal surgery earlier this year. In an interview with SiriusXM satellite radio, the 71-year-old stated he still has some discomfort but is off pain medication and hopes to tour again, even if it isn't in front of a live audience due to the pandemic.

In addition to his extensive surgery, Ozzy announced that he has Parkinson's disease. His family certainly has had their share of health battles: Wife Sharon overcame colon cancer, and his son Jack has multiple sclerosis. The band Van Halen first opened for Ozzy's band Black Sabbath back in 1978. In a recent

essay he wrote for "Rolling Stone" magazine,

Osbourne stated, "I remember seeing Eddie do

that finger-tapping thing, and that was the first time I'd ever seen anyone do that. Just when

you think nobody can make guitar playing

My favorite role of hers was in a TV movie based on the Sidney Sheldon book "If Tomorrow Comes." I miss those TV movies. Those were the good old days. -- W.F.

A: You have a good memory! Madolyn Smith made her acting debut playing Debra Winger's rival in "Urban Cowboy" in 1980,

and about five years later she starred in the TV movie based on the bestseller "If Tomor-

show "Blue Bloods" coming back, and how will they film the family dinner scenes if the pandemic is still going on? -- Y.S A: The CBS drama series "Blue Bloods" recently resumed production for season 11, but an actual airdate for the premiere hasn't

been announced. The previous season was cut short due to the pandemic and fans were left with the cliffhanger story of a new family member named Joe, played by Will Hochman I would keep checking the CBS.com website for updates on when new episodes will air, but hopefully you'll see some by the end of November.

If you're a fan of Amy Carlson, who played Linda on "Blue Bloods" until her character was tragically killed off three years ago, you can catch her on CBS's "FBI: Most Wanted" this fall, where she'll play a bounty hunter in a recurring role. The death of her character on "Blue Bloods" in a helicopter crash was one of the most shocking and saddest in recent memory.

Joining Carlson this season on "FBI: Most Wanted" is Terry O'Quinn, who is best known for playing John Locke on the ABC hit series "Lost."

Fan cutouts available for home athletic events

Net proceeds will benefit Huskie Athletic Fund

DEKALB — When the Northern Illinois University Football team opens its 2020 football season in Huskie Stadium on Nov. 4, NIU fans can make their presence felt even though they can't be in the stands this year by purchasing a fan cutout as part of the "Huskie Howl" presented by First National Bank of Omaha (FNBO).

For just \$60, put your image – or that of your child, parent or even pet on a sturdy cutout that will be visible in the East Stands of Huskie Stadium for all three 2020 home games. Net proceeds from all fan cutouts will benefit the Huskie Athletic Fund, which is currently in the midst of Huskies Invest: The Campaign, supporting student-athletes and NIU Athletics' COVID-19 relief efforts.

Orders must be completed by Monday, Oct. 26 to ensure the cutout will be in place for the 2020 football season opener on Wednesday, Nov. 4. Any cutout orders submitted after Oct. 26 will be installed prior to the next home game on Wednesday, Nov. 11. See the deadlines, upload your photo, preferably in your best Cardinal and Black, and get "in" the game this year. Click here to order.

"It is great to see longstanding partners, such as FNBO, stay committed to their partnerships with NIU Athletics," said Ryan Sedevie, NIU senior associate athletic director for collegiate advancement and external affairs. "Initiatives like the Huskie fan cutouts are a great example of the

way we are creating unique opportunities to engage our fan base throughout 2020-21, whether they are in the stands or watching at home. Thanks to FNBO for their continued support of NIU Athletics.

"As an official partner of NIU Athletics, FNBO is thrilled to help Huskie fans support their team while virtually being part of every home game with lifelike replicas of themselves in the stands at Huskie Stadium," said Tim Struthers, FNBO senior vice president.

Fans will have the opportunity to pick up their Huskie Cutouts at the conclusion of the season. Details on how and where to pick up your Huskie Howl, presented by FNBO, will be communicated in

December. Cutouts will not be mailed or delivered.

Huskie Stadium is not the only venue where you can show your Huskie Spirit and be in the stands without being physically in the stands - this year. Huskie Howl Cutouts can also be ordered now for the 2020-21 men's and women's basketball and volleyball seasons. Basketball cutouts will be installed in the NIU Convocation Center main arena for all men's and women's games, while volleyball cutouts will put you in the bleachers at Victor E. Court for the season that will begin in January. Separate cutouts must be ordered for each venue due to size and installation changes. Deadlines for basketball and volleyball cutout purchases will

be communicated once schedules are finalized for those programs.

As final determinations regarding fans at basketball and volleyball have not been made, and may change throughout the year, guarantee your "attendance" and show your NIU spirit while supporting Huskie student-athletes by joining the Huskie Howl, presented by FNBO, in all three NIU Athletics venues this year.

GIRLS: Sectional medalists highlight eligible returners

From page 1

"When the weather turns around in the spring, I hope the girls come out and play as much tennis as they can... I expect and hope the girls come out during open courts over the summer and they can make more strides there."

Rochelle will graduate three seniors from the varsity team including Melanie Gonzalez, Anna Guevara and Sawyer Mc-Gee, who all contributed to wins this season. Guevara departs as a two-year varsity starter in singles, while Gonzalez and Mc-Gee finish as three-year varsity doubles players. McGee and teammate Sylvia Hasz shined at the sectional tournament, medaling in third place and helping Rochelle to its best team performance since 2010.

"Our seniors were all really good role models for the younger girls," Cartwright said. "Sawyer's a natural leader and Anna always sets an example by cheering for her teammates. Melanie was also a great role model for our team. I'm going to miss their personalities and what they brought to the team. They were welcoming and supportive of whoever they played with."

Sectional medalists Jordin Dickey and MeLisa Young highlight a handful of junior netters who are eligible to return for one more season in 2021. Dickey and Young have been a staple at the No. 1 doubles position, finishing second at the sectional and becoming Rochelle's highest-placing doubles team since 2009. Juniors Josie Lundquist, Emma Hicks and Megan Thompson also contributed to several Lady Hub victories throughout the season.

"I was really happy we were able to have a season," Cartwright said. "I felt that many of our girls needed one more season to get to the next level and that's what happened. The girls exceeded my expectations, and I knew something would be possible for them, but they gave their all and I'm so happy with how our season ended. I'm so proud of what they were able to accomplish."

(PHOTO BY RUSSELL HODGES

Anna Guevara will be one of three varsity seniors departing from the 2020 roster. Guevara has been a varsity singles player during each of the past two seasons.
