Staying strong during tough times

Rochelle Christian Food Pantry continues providing weekly for those who need it most

BY JENNIFER SIMMONS

MANAGING EDITOR

Friday afternoon donation made by the White Rock Township is just one of many that the Rochelle Christian Food Pantry receives regularly these days. "The township tries

to support different places in the community [especially since CO-VID] and so many not working...we decided to do this this year," White Rock Township trustee Lorraine Hubbard said.

Like most monetary donations, the funds are used to purchase pantry necessities when the demand arises. But monetary donations

aren't the only donations that the pantry receives.

"Once in a while semis will come in and drop off some food... [Recently] Rainwaters

brought in some sweetcorn, MightyVine brings in some tomatoes, Tyson helps by bringing some of their stuff – it's kind of a community effort

so we really appreciate that," Rochelle Christian Food Pantry board member Carol Hayenga said.

And, according to

food pantry manager TyAnne Unger, every donation has been a blessing.

Drive-thru for FFA

Pork chop dinner fundraiser planned for Oct. 16

BY RUSSELL HODGES

STAFF WRITER/SPORTS EDITOR

ROCHELLE — CO-VID-19 has forced Rochelle Township High School to go without many of its usual Homecoming festivities. One tradition that won't change, however, is the Rochelle FFA Chapter serving pork chops, and the chapter recently announced it will be hosting a drive-thru pork chop dinner for the com-

munity on Friday, Oct. 16. While the Rochelle FFA Chapter normally serves pork chops during Friday night football games, students are changing course this year due to the ongoing pandemic. The dinner includes a pork chop, applesauce, chips and a cookie for \$10. Orders can be placed onlineathttps://rochelle-ffadrive-thru-porkchop-sale. cheddarup.com.

"We thought it would be a great way to generate some community involvement and celebrate what would have been our Homecoming weekend," Rochelle FFA Advisor Donna Page said. "We wanted to raise morale and do something nice for our community... It's been great to see the FFA members get excited about hosting an event that will feel close to normal."

The money raised from the drive-thru dinner will go toward the Rochelle FFA Chapter, which uses the money to fund supplies and chapter activities such as conferences. The money also goes toward providing goods and services including first-aid kits for local farmers. Those who place their orders online can add extrapork-chop sandwiches

to their meals for \$5 each. "We're looking forward to seeing a great turnout," Page said. "We highly encourage using the link to order online so we can know how many chops we need to provide for Friday night."

*RTHSofficials changed the date of the event after an article was printed in a special edition printed Friday, Sept. 18. Please note new date of Oct. 16 for the event.

Celebrating five years

The Shed continues to help community

BY BRAD JENNINGS

OGLE COUNTY LIFE EDITOR

OREGON – It was five years ago in August that Serenity Hospice and Home opened The Shed in Oregon.

here at the 5 year celebration.

The idea was to give grieving people a chance to get together and work on projects. It is now an important part of the community.

Cathy Warren, bereavement coordinator and manager of The Shed, recently sat down to answer some questions about its the past, present and future. Warren stared at Serenity in April, 2008.

Question: What was the original idea of The Shed?

Answer: When people think of bereavement or grief groups, it seems that most of them picture very sad people sitting in a circle crying and sharing. And sometimes that is what a group is and that can be very effective, but some people are not comforted by this type of group. Actually many people find that they find comfort when busy or productive using their hands or being creative. With this in mind, a widower in Australia started inviting the men from his hospice grief group to his garage to work on projects. Sometimes it was silent as then worked together on a project, but they worked together and that was what brought comfort. Sometimes while they worked they began to talk and share. That was how the first concept of a "shed" type therapeutic place was born. This story was on YouTube and an employee at Serenity Hospice saw it and shared it with our CEO. It became a vision and a goal to try and create this type of center here

in Oregon free and open to the public. Q: How has the reality been com-

pared to the original idea? A: I think the biggest surprise to us all was that we immediately saw that The Shed could help people experiencing any type of loss ... not just death. Loss of a job, a relationship, loss of a way of life, loss of their youth ... it became obvious from our first few encounters that this type of creative therapeutic work was healthy for anyone.

County electronic recycling day set for Sept. 25

OREGON - Ogle County Solid Waste Management Department (OCSWMD) announces that the next Residential Electronics Recycling event will be held on Friday, Sept. 25, from 9 a.m. to 4 p.m. at the County Annex Building, 909 Pines Road in

The parking lot will open at 9 a.m. for residential electronic recycling. OCSWMD asks that residents do not arrive prior to 9 a.m. and free permits are required in advance to participate.

The Aug. 28 event was the first residential electronics recycling event for which free permits were required. Over 110 residents acquired permits and were able to quickly and easily drop off their electronic items for recycling.

To register for the Sept. 25 event please call or email the OCSWMD before noon on Sept. 23 to request a free Electronics Recycling Permit. Information needed: your name, address, town, email, and phone number. Requests received after this time or when the permit limit has been filled, will have the option to be registered for the next monthly

A permit will be emailed or sent by mail to each approved household. Permits are limited to one residential address per month, and are valid for one specific event. Registration will be limited to Ogle County residents only, and addresses and identification will be verified.

Participants must show their permit and identification with proof of Ogle County residency when they arrive at the event. This event is for electronic items from Ogle County residents only; residents of other Illinois counties should check with their local government or electronic retailers for electronic recycling options where they reside. People without a valid permit will be denied service. Permits will not be available the day of the recycling event.

The Illinois Consumer Electronics Recycling Act limits the number of electronic items accepted up to seven, however, the OCSWMD will only allow up to five

PANTRY: All donations have been a blessing

From page 1

"We have been very, very blessed right now but on the other hand, four weeks ago I ordered \$2,200 worth of food because we were out of everything. Usually I order \$500. I try to stay around \$500. But if you don't order it when they have it you lose it. So I was able to get a lot of things we were really low on. Now all those things are gone and the last order I ordered \$113 [worth]. It's a week-by-week,' Unger explained.

Food for the pantry is ordered through the Northern Illinois Food Bank. For every \$1 that is donated to the Rochelle Christian Food Pantry, approximately \$7 or \$8 worth of food is purchased from the NIFB.

Unger said that while there is always a need for donations it is better to call ahead to inquire if the pantry has any specific

because right now we've got a lot of stuff but then there's things like vegetables and peanut butter and tuna fish that we're low on. So those are the major things that we could use right now," she said.

Currently, the food pantry is serving the community on Tuesday and Friday each week using a drive-thru concept.

"We do drive-thru now. People used to go in and shop but we can't do that anymore with COVID," Hayenga explained "They can shop a few things – the bread and some of the produce – but we do that on a limited [basis], like one or two at a time."

The pantry has also begun seeing a larger number of people served over the past several months.

"In the last month we're a little bit higher," Hayenga said.

Unger agreed.

"Our numbers used to be between 38 to 40 now they're like 50-something to 60-something," Unger

said. "Everyday [donation days] we're having about five or six new people come in."

Even with the higher number of people coming to receive donations of food at the pantry there are times when there is a surplus of some foods; especially when unexpected donations are given. "Everyone's been

extremely generous. The thing that is probably the hardest for us to get out is when we have surplus – such as all of this [bread] and it's free and if people don't take it, we have to dump it," Unger

The surplus is more prevalent on days when the pantry receives an unexpected donation from a truck driver who would

been a blessing."

"But that is from dayto-day...we never know when or what we may get," Hayenga said.

Unger explained that in those instances representatives try to put the information on the pantry's Facebook page to inform people of the extra food that is available.

However, staff is able to save more of the surplus now than they were previously.

"Thru grants the pantry was able to purchase a new walk-in freezer. The space is approximately double what was available before. There is also a portion that is solely refrigerated space," Unger said. "That's really been a blessing. Because of this refrigerator, we are able to take that [donations from truckers] now... before we couldn't. So that's a real blessing plus we have those three refrigerators."

LOCAL NEWS

Choose your words carefully

we realize, because our attitudes and actions are greatly influenced by them. And sometimes when we open our mouth without thinking, we can bring ourselves down spiritually and hurt other people in the process.

For example, how many times have you heard yourself say things like, "I'm sick of cleaning this house,""You're driving me nuts today," or "This job is killing me"? Words like that don't bring anything positive into our lives. And it's important that we not take them lightly.

Proverbs 21:23 (NIV) says, "Those who guard Joyce Meyer their mouths and their tongues keep themselves from calamity." We need to practice saying things we really want to say and remember to be thankful for what we have. Because even when blessings are chasing us down, if we're not careful, we can still find reasons to be negative

It really is amazing how fast we can forget about the good 'things God has done for us. After He miraculously parted the Red Sea and delivered the people of Israel out of slavery in Egypt, "the whole community grumbled against Moses and Aaron" (Exodus 16:2).

In other words, they forgot about the miraculous deliverance God provided for them and put their focus on the things they didn't have.

It's so easy to complain when our circumstances aren't

THE words we choose to speak matter more than exactly what we want them to be. But many times it's our attitude that keeps us right where we are. Philippians 2:14 clearly tells us, "Do everything without grumbling or arguing."

Whenever you're tempted to complain, just think about how much better it would be to remain thankful and say, "God, I remember the good things You've done for me and I'm thankful for the breakthrough that I know is on the way." Whether we're happy with our circumstances or

not, giving God praise is so important. Psalm 91:2 says, "I will say of the Lord, 'He is my refuge and my fortress, my God, in whom I trust.'

Being mindful to focus on God's goodness and the many ways He helps us is a great way to stir our hearts up with praise every day. And it strengthens our faith when we declare that God is bigger than our problems and concerns. If there's an area in your life that you're having a hard

time staying positive about, try doing a thirty-day fast from complaining. Replace any negative words with positive words and give God something to work with. You may still make mistakes from time to time, but God is faithful and you can trust that He'll help you get your mouth into complete agreement with His Word if you won't give up.

You'll find that when you are sincerely positive, it helps others be positive too, and people will come to you when they want to be encouraged. On top of that, you'll be the kind of person they won't even bother coming to when they want to complain, because they'll know you won't put up with it.

When we trust God more than our feelings, it confuses the devil. When he throws his best shot at you and he can't budge you from believing God, he won't know what to do with you anymore. King David learned that when he was just a boy.

In 1 Samuel 17:45-46, David said to the giant Goliath. "You come against me with sword and spear and javelin, but I come against you in the name of the Lord Almighty... This day the Lord will deliver you into my hands...." And he followed up his words with bold action. David ran quickly toward the battle line, killed Goliath

and won the victory. When we're facing giants in our life, that's exactly the way we need to behave. Don't ever run at your enemy with a mixture of faith and doubt in your mouth. Let the devil know who he's dealing with. God will give you the victory if you will keep on agreeing

with Him and speaking His Word. Say what God would say even if it's the hardest thing for you to do. Praise Him regardless of what's happening around you.

You don't have to give way to careless speech or complaining. You don't have to let your feelings get in the way of what God wants to do in your life. Starting today, you can choose to remember the many things He's done for you and start speaking boldly about the breakthroughs that are yet to come.

Use the lines

Terry

ET'S travel back in time. Once a railroad line ran from Sycamore to Holcomb and beyond. It was one track, and was not being used. So the railroad abandoned it.

The land was sold to people adjacent to the railroad.

If only we had thought ahead 50 years.

That abandoned railroad line would have made a great bike trail. Wisconsin has hundreds of miles of trails on abandoned railroad lines and those trails draw visitors, who often eat in the tiny towns the trails pass through or spend the night in motels or bed and breakfasts.

I think that was at the beginning of the rails to trails movement in this country. There must have been a reason the state did not take the abandoned line and develop it, but I don't know what that reason

I was thinking about that as I crossed the railroad tracks that run north out of Flagg Center. This spur line runs through Kings, Davis Junction and up to Rockford.

The grass is really tall on the line, leading me to believe it is not used, or used very little.

If that line ever is abandoned, I hope it can be turned into a bike trail. It would draw people to our area, and give local people another option in the recreation field.

I also thought hand cars or pedal cars would be a neat attraction on that line.

Do our leaders really want to put Rochelle on the map?

Christie's auction house will be selling one of the world's most complete T-Rex skeletons this October. Stan is about 13 feet tall, 40 feet long, and weighs about 7 ton. Estimated winning bid is \$8 million.

Yes, that's a steep price... but wouldn't it look neat in one of our parks?

We the people will be voting on a Fair Tax Amendment this year. This would change the state's flat income tax rate into a progressive rate.

I have heard people **Dickow** say they won't vote for it because of Madigan, or Pritzker, or because the state doesn't spend money wisely.

To me, the logic should be you either accept the fair tax concept, or not. Don't confuse all the other issues with the question. It's not a referendum on Madigan, Pritzker, or anything else except how we tax residents.

Please do some reading about both sides and make an informed decision.

Terry Dickow can be contacted at terrydickow@gmail.com

My work clothes are pretty casual now

will be honest here. OK, I always try to be honest, but this one is bare bones honest – I wear shorts and a T-shirt at work pretty much every day.

It's true. As I sit here writing this column, I am in my trusty camo shorts, which probably have stains from that burrito I ate back in June on them somewhere. I also have on a random Harley-Davidson T-shirt today. If it is not a Harley shirt, it is a random rock band shirt.

I swear, I am not a bum. It's just this working from home thing has really killed my sense of fashion. Yes, to be fair, I have never been much of a trend setter in the fashion world. No one has ever waited patiently for the Brad Jennings Fall Collection. If there was one, it would be featured at the dollar store, trust me.

Well, maybe a shoe store.

Shoes are my one clothing obsession, as I have noted in the past. I now have so many Converse tennis shoes in nearly every color un-

der the sun that I am embarrassed to give the total number. (It is north of 20 ... well north).

I have even been covering Ogle County Board meetings from home. I just call in and cover the meeting while wearing my shorts.

Sure, I can put myself together when I have to. When I have to go cover a court hearing, I wear a button up shirt. When I go to do an interview, I wear that same button up shirt. When I get home, I toss it aside, grab a T-shirt and slip back into my shorts.

Comfort has become very important to me.

But last week (which is

actually next week as I write this – I know, it's confusing), I was on vacation and my entire wardrobe was out the window. The reason is a

friend and I are riding our motorcycles west through a number of states, so shorts are not an option. OK, I know you see

some people wearing shorts on a motorcycle, **Brad** but I am not one of **Jennings** them. The reason? I am smart. Burn your leg on

an exhaust pipe? No thanks. Hit some gravel going 10 m.p.h. wearing shorts and you will lose a layer of skin. Again, no thanks.

So the trip will be about wearing protective gear – boots, gloves, jackets, an assortment of leather meant to protect me and also make me think that I look cool. OK, mostly to protect.

When we are not riding and back at the hotel, I will surely slip into my trust shorts and Converse. But most of the time it will be dressing for safety and not for comfort.

I bring all this up because it is very disturbing to me. I love to ride and am looking forward to the trip, but I am bummed I have to put on

Let that sink in. See? Pretty pathetic.

As most of you read this, I am probably on the road somewhere in Minnesota, or South Dakota or possibly even Montana. I am not wearing shorts, but they are right behind me in my backpack, which is strapped to the bike. My Converse shoes

are in a saddle bag. After a day of riding, they will be most welcome. I must say, I sure do love the 2020 version of my work clothes.

COMMUNITY

Mobile food pantry is coming to Oregon

OGLE COUNTY — Lifeline Food & Self-Help Project in partnership with the Northern Illinois Food Bank is hosting two Mobile Food Pantries. The Mobile Food Pantry

will be in Oregon on Monday, Sept. 28 and again on Monday, Oct. 19. The truck will be parked in St. Mary's parking lot at 300 N. 3rd St. The Oregon Lifeline Food & Self-Help Project is just one of over 800 food

pantries in 13 counties that partners with the Northern Illinois Food Bank to provide food for those in need. These two mobile food pantries are open to anyone in Ogle County who is in need of nutritious food. The mobile food pantry provides an extra distribution of food that does not effect a Lifeline client's eligibility to receive their normal monthly allotment of food.

The food pantry at Lifeline is open on Tuesdays from 1:30 p.m. to 4 p.m. and on Fridays from 1:30 p.m. to 4:30 p.m. In addition, clothing may be purchased at very low prices during these same hours, plus on Thursdays from 1 p.m. to 4:30 p.m. and on Saturdays from 10:30 a.m. to 1:30 p.m. Both food and clothing are provided through the generous donations of many people in the area.

The proceeds from the clothing sales all benefit the food pantry.

Please be aware that clients need a picture ID each time they pick up food. Also, in accordance with Health Department restrictions, a properly worn face mask is required for anyone entering Lifeline.

You can follow us on Facebook at Lifeline Food & Self-Help Project, Oregon, IL.

Serenity Hospice offering free course

OREGON – Serenity Hospice and Home is pleased to announce they will be starting an eight-week class entitled, "Understanding Your This class will run each Tuesday

evening from Sept. 29 through Nov. 17. The group will meet at The Serenity Hospice Home located at 1658 S. Illinois Route 2 just south of Oregon from 6 p.m. to 7:30 p.m.

The structure of the group will follow the book by Dr. Alan D. Wolfelt which covers 10 touchstones in the areas of physical, emotional, cognitive,

social, and spiritual growth to help you through the grief process. Wolfelt has written many books about healing after the loss of a loved one and is considered a leading grief educator.

The class will be facilitated by Cathy Warren, Serenity Hospice's Bereavement Coordinator.

"I am very excited to offer a class like this one," Warren said. "Our grief groups are usually open-ended and people come and go as they travel through their own journey of grief. This is a more structured approach and the participant will know exactly

when it will end."

Each participant will receive a free copy of the book by Dr. Wolfelt.

Be aware that in an effort to contain the spreading of the COVID-19 virus, participants will be asked to take your temperature upon entering the building. Social distancing will also be practiced as well as wearing facemasks.

Call Serenity Hospice at 815-732-2499 to find out more information about this class.

Class sizes are limited so call today.

SHED: Celebrating five years

From page 1

We now have regular volunteers that come in and haven't experienced any type of huge loss, they just enjoy the comradery and want to help Serenity Hospice. We try to make it a comfortable place to be. We have food and coffee and sitting areas that have nothing to do with working on a project. We have a retail room where the items are sold and we have a meeting room where we can talk privately with anyone.

Another big surprise is that the two of us who run The Shed, Denise Watts and myself, were never that crafty and we have learned to operate equipment, paint, have visions for donated furniture and our own creative sides have flourished! Another surprise has been the response to our classes, particularly Ladies Night Out and our kids programs and camps. We have been able to team up with the Oregon Park District and offer some camps for grieving kids. Our plan for 2020 was to expand the programming for kids and teens and unfortunately covid-19 put a halt to that, but we look forward to the future when more younger people can be served by The Shed.

Q: What has surprised you the most about The Shed, or the reaction to it?

A: People are continually surprised that something so innovative and yet quite simple is available right here in the Oregon community and open to all the surrounding areas. The quality of our products are always surprising and once people purchase a piece of furniture or a decorative item or sign they always return for more. It's also nice to have an alternative place to offer our grief groups instead of the hospice home.

We also have had so many people stop by and say they have no creative spirit or craftiness, but it doesn't take long until we find what that person is good at and it always surprises us and them! Maybe they find out that their attention to detail makes them an excellent person to apply the top coat sealant or to do the initial sandpapering. Many people have surprised themselves by learning to use a handsaw to create stars or hats. We couldn't operate without the generous donations of items such as spray paint, paintbrushes, etc... The Shed has something for everyone and way for everyone to help.

We are also finding that the stuff we make which is almost always one-ofa-kind items sells well at other venues. Currently you can find our items at Berryview Orchards in Mt. Morris.

Q: What programs does The Shed offer, and what is most popular?

We have had a very positive response to our creative classes, particularly Ladies Night Out and our kids programs

The children's camp held in February for grieving children who recently lost a parent or sibling. They swam, played games, learned pickleball, ate pizza, made crafts and spent some time exploring their grief. Many volunteers train and work together to make this camp successful.

and camps. We have been able to team up with the Oregon Park District and offer some camps for grieving kids and we had two camps planned for the summer with Pegasus Special Riders which have had to be put on hold. Our plan for 2020 was to expand the programming for kids and teens and unfortunately covid-19 put a halt to that, but we look forward to the future when more younger people can be served by The Shed.

We have hosted many programs at The Shed as well over the years from interior design classes to travel experiences. We hosted a very popular program featuring James and Karen Brown after their trip to Israel. We had food and wine tastings and they shared their experience. We have also been the meeting place for Girl Scout groups and other civic organizations. We have had Crest foods and other large corporations bring groups of employees and we have been a site for the Oregon High School service day.

We also host many grief groups at The Shed during the day and evenings along with an 8-week course based on Dr. Wolfelt's book which participants read at home and then discuss at our meetings. Many people like the idea of only committing to an 8-week group as opposed to an open-ended group.

The Shed also offers really impressive craftsmanship including beautiful wood urns for your pets or loved ones. These urns are made on-sight from beautiful wood grains and to your specifications. We also love to refinish your solid wood projects and we are always busy making holiday decorations. The Shed could not operate without the generosity of those people who stop by for a cup of coffee and help out by sweeping the floor or donating a can of spray paint or paintbrush.

Q: What does the future hold for The Shed?

Serenity Hospice is committed to keeping this resource available and we find comfort and

motivation by the many lives impacted by The Shed. Sometimes people come and continue to come daily or weekly. Sometimes people stop by only once or maybe just a few times and that's ok too. We want to meet people where they are. There is no judgement at The Shed and people are accepted for who they are and where they are on their journey. The future at The Shed is exciting we have many great classes we are ready to host in the future. The Shed is a place for Oregon to be proud of and everyone should stop by, take a tour and be amazed by what is being accomplished right here in Northern Illinois.

Tips for safer farming

RACTOR accidents, grain entrapment and injuries from ornery livestock are just some of the dangers agricultural workers face every day.

In fact, the National Institute for Occupational Safety and Health says agriculture is one of the most hazardous industries in the United States.

In 2016, the agricultural industry had a rate of 21.4 deaths per 100,000 workers, and

each day agricultural workers experienced 100 non-fatal, lost-work-time injuries.

Agricultural dangers are not limited to North America. In Ireland, farm accidents have increased by 13 percent in the last five years and by 31 percent in the last decade, according to a national survey of farm accidents conducted by the Teagasc National Farm Survey. Furthermore, 97 percent of all farm accident victims required medical treatment.

Farms are dangerous places, and while carelessness can and does contribute to many incidents, accidents also take place during routine, seemingly safe activities. These farm safety guidelines can help lower the risk of injuries.

Know farm equipment. Read and follow all instructions in the equipment operation manuals. In addition, attend local farm safety workshops to learn more about specific equipment and products.

Conduct routine safety checks. Look around buildings and grounds for obvious hazards, such as fire hazards and hazardous materials, including farm chemicals that are not stored correctly.

Practice cleanliness. Maintain clean and neat work areas with tools stored properly and out of the way after use.

Be mindful of your clothing and hair.

Many accidents involve a power takeoff system, or PTO, which is a common component of large rotary mowers, tractors and forage choppers. Clothing

can easily get caught in an engaged but unguarded PTO stub. It's easy for laces or coveralls to become wrapped around a spinning stub shaft. The PTO driveline and other protrusion points also can be dangerous if people

do not pay attention.

Use rollover protection structures. ROPS can be used on tractors and other equipment to prevent injuries. In addition, wear seat belts and employ other safety equipment as advised. Avoid extra passengers. It can be

tempting to take the kids for a spin, but do not allow additional passengers to ride on agricultural equipment. Exercise caution when handling chemi-

cals. Take extra precautions when handling any chemicals, including pesticides.

Wear protective gear. Wear appropriate gear and equipment as outlined by NIOSH or the Mine Safety and Health Administration. Make sure the skin, feet, ears, eyes, and hands are protected at all times.

Employ lock out/tag out control. This is a process where one can work on equipment only after every energy source has been controlled, such as hydraulic, pneumatic, mechanical, and electrical, according to Rural Mutual Insurance Company. Turning off equipment and using certain controls or locks on devices can prevent equipment from restarting before it is safe to do so.

Farm safety should be a priority for owners, their families and employees so that agricultural injuries can be reduced.

Facts and figures on farm safety

CCORDING to the Centers for Disease Control and Prevention, agriculture is among the most hazardous industries. Fatal and nonfatal injuries pose a significant threat to farmers, including the many young people who work on farms. The National Institute for Occupational Safety and Health, in an effort to promote productive and safe workplaces, supports programs that conduct research on injuries associated with agriculture as well as pesticide exposure, pulmonary disease, musculoskeletal disorders, hearing loss, and stress. Studying the results of such research, compiled by NIOSH, may compel veteran and novice farmers to further emphasize safety measures and promote practices that can reduce risk for accidents

on the farm. Estimates indicate that there were roughly 2.1 million full-time workers employed in production agriculture in 2017 and between 1.4 and 2.1 million hired crop workers employed annually on crop farms in the United States.

An estimated 893,000

young people under 20 years of age resided on farms in 2014. More than half of those young people performed farm work, and an additional 266,000 youth were hired to work on farms in 2014.

Each day, roughly 100 agricultural workers suffer injuries that cause them to miss time at work.

In 2014, 12,000 youth were injured on farms, and 4,000 of those youths could trace their injuries to farm work.

In 2016, 417 farmers and farm workers died from work-related injuries. Tractor over-

turns and other transportation incidents were the leading cause of death for these farmers and farm workers.

A rollover protection system, or ROPS, is a structure, similar to rollcages and rollbars in cars and trucks, intended to protect farm equipment operators from injuries caused by overturns or rollovers. NIOSH notes that an ROPS is the most effective way to prevent overturn deaths. Despite that, in 2014, only 62 percent of tractors used on farms in the U.S. were equipped with an ROPS.

Surviving disaster includes using home generators safely

OGLE COUNTY — Hurricane Laura left many residents without power. Though the immediate danger has passed, deaths linked to improper use or installation of generators are still being reported.

Portable or permanent standby generators are used in millions of homes and small businesses. Without taking the proper precautions, incorrect installation or use of generators may create hidden dangers.

"We can't emphasize this enough; never use a generator indoors or in an enclosed space, such as a garage (even if garage door is open), crawl space, or basement," says Erin Hollinshead, University of Illinois Extension Energy Education Council executive director. Safe Electricity, EEC's public outreach program, provides consumers these safety practices.

Generator should have 3 to 4 feet of clearance and be placed at least 20 feet from all doors and windows. The generator should not be used in an area that is wet or damp and should not be plugged into a wall outlet or directly to a home's wiring. "Carbon monoxide emitted from generators is an odorless, colorless, toxic

gas, making it extremely dangerous," Hollinshead warns. "Just a few minutes exposure may be fatal."

Portable generators

Many homeowners choose smaller, portable generators to power essential electrical equipment during outages. Safe Electricity offers these tips for the safe operation and use of portable generators:

Read and follow all manufacturer operating instructions to properly ground the generator prior to hooking up the generator.

Maintain adequate ventilation to avoid carbon monoxide poisoning. Never operate a generator in a home, garage, or other buildings.

Place a generator in a dry, outside location.

Never plug a portable electric generator into a wall outlet or connect directly to a home's wiring. In addition to harming people, the back feed may damage the generator or other home electrical equipment.

Turn off a generator and allow to cool before refueling. Gasoline and its vapors may ignite if they contact hot components or an electrical spark. In addition, store fuel in an approved container in a secure location.

Protect your appliances. Turn off or disconnect all appliances and lights before you begin operating the portable generator. Once the generator is

> running, turn appliances and lights on one at a time to avoid overloading the unit.

> Use proper extension cords. Use only safety-tested electrical cords designed and rated for heavy, outdoor use to connect appliances. Many generators are equipped with twist-lock connects to reduce the chance of accidental disconnections due to vibrations.

Before shutting down a generator, turn off and unplug all appliances and equipment powered by the generator.

To maintain a well-operating generator, drain the gasoline before storing. Before restarting, inspect the fuel and oil filters, spark plug, oil level, and fuel quality. Start the generator on a regular basis to guarantee operation when needed.

Permanent standby generators Properly connecting the generator into a home system is a critical step for

safe, effective use. A licensed professional should install a permanent standby electric generator, Hollinshead says, which includes a transfer switch. High-end permanent generators powering some or all rooms of a home typically have the switch built into the system. Other generators require a user to manually throw the switch.

The transfer switch breaks the path of electricity between the power lines and the main electrical panel to prevent backfeed which pushes electricity "back" through the power lines, potentially harming homeowners, neighbors, or electric utility repair crews working to restore power.

"Consult a qualified electrician to ensure proper installation and electrical grounding, as well as to prevent circuit overloads and to meet local electrical code," Hollinshead says.

Thiravong breaks par

Rochelle senior shoots 1-under 35 in home meet against DeKalb

BY RUSSELL HODGES

SPORTS EDITOR

ROCHELLE — Megan Thiravong walked onto the ninth tee box during Rochelle Township High School's home golf match against DeKalb needing a birdie on her final hole to break par on the round, something the Lady Hub senior hadn't done in her four years with the team.

Calm and collected, Thiravong fired her tee shot on the 170-yard par-3 ninth hole to within 5 feet of the pin. After marking her ball and watching the other three players in her group make their putts, it was her turn to address the ball and attempt to sink one

With her family watching from a distance, Thiravong putted the ball directly into the cup, sealing a 1-under-par 35 and her best score of the 2020 season. While the Barbs walked away from Rochelle's Fairways Golf Course with a 167-176 win over the Hubs (6-3, 2-2 Interstate 8), it was Thiravong's second straight meet breaking the 30s, a

positive sign of things to

"She took some more risks earlier in the season, but I think she's really starting to settle in and be herself," head coach Glen Mehrings said. "I've been coaching here for the last 20-plus years, and I always see the great players hit their stride around mid-September because they've made their adjustments and they've started to relax more. She doesn't make too many physical mistakes, and she's been in a really good place mentally over the last few meets."

Thiravong outpaced all of the varsity players Thursday. Senior Reese Kirk carded 42 for the Hubs, while sophomores Damen Harrington and Griffin Ohlinger followed with 49 and 50, respectively. The Barbs rallied behind two top players who each carded scored in the 30s including Brett Paeglor, who led DeKalb's varsity team with an even-

Thiravong shines as Hubs swing past Sandwich

Lady Hub senior cards season-low 38 in 176-204 victory

Junior Brett Ferguson was Rochelle's fourth-best golfer at Sandwich on Tuesday, shooting 49.

SANDWICH — Rochelle senior Megan Thiravong has been spending extra time working on her short-game fundamentals, and that additional effort resulted in her lowest score of the season when the Hubs faced Sandwich at Edgebrook Golf Course on Tuesday.

With Edgebrook presenting a similar course layout to her home course in Rochelle, Thiravong relied on her short game to shave additional strokes off her score. The Lady Hub standout had been carding scores in the low 40s throughout the season, but that changed

"My chipping and putting were definitely on point during the meet. If I missed the fairway, I knew I could still get on the green and one-putt to save par."

Megan Thiravong

Tuesday, when she led all Rochelle players with 38 and propelled the Hubs to a 176-204 victory over the Indians.

"I've been practicing with my dad lately," Thiravong said. "We've been working on my short game and making sure I have those fundamentals down. My chipping and putting were definitely on point during the meet. If I missed the fairway, I knew I could still get on the green and

one-putt to save par. The course was very narrow and there were a lot of trees, much like Rochelle, so I knew that accuracy would be key. I knew I would be safe if I kept the ball in the fairway."

Tuesday marked Rochelle's sixth win of the season, tying the team's victory total over the past two seasons combined. Senior Reese Kirk aided the Hubs with 44 during the round, while sophomore Griffin Ohlinger recorded 45 and junior Brett Ferguson finished with 49. Rochelle (6-2, 2-2 Interstate 8) will host DeKalb on Thursday before facing LaSalle-Peru next Monday.

"It definitely shows how much our team has worked to stay in the game," Thiravong said. "Our scores show we're serious about golf and how much we enjoy being out here together."

CELEBRITY EXTRA

Q: I can't wait for the new shows to premiere this fall. I realize they'll probably be later than normal, but will we have to wait until 2021 for shows like "Chicago

favorites. -- F.C.

Med" and "This Is Us"? Those are my two

SEPTEMBER 27, 2020

A: The fall TV season has indeed

been postponed, but the good news is you won't have to wait until 2021 for your favorites to return. NBC has announced that the family drama

"This Is Us" will be back with a twohour premiere on Nov. 10. It's hard to believe the hit show is starting its fifth season. Creator Dan Fogelman promises "a rebirth" next season and said that the writers are incorporating the COVID-19 pandemic into the storyline. Meanwhile, "Chicago Med" will broadcast new episodes starting Nov. 11, with "Chicago Fire" and "Chicago P.D." following in the hour timeslots the same evening.

on TV? -- P.G. A: Scott Bakula became a household name

Q: I was wondering when "Star Trek

Enterprise" with actor Scott Bakula aired

back in 1989 when he starred as a time-traveling scientist in the hit series "Quantum Leap." In 2001 he joined the "Star Trek" franchise "Enterprise" as Cmdr. John Archer, which aired until 2005. "Enterprise" was set 100 years before William Shatner's Captain Kirk and the original

"Star Trek" series. The newest installment in the franchise is "Star Trek Discovery," which is available on the streaming service CBS All Access. If you're a fan of Bakula, you can catch him in his latest hit series "NCIS: New Orleans" on CBS.

NIU to the NFL

Huskies make season debuts

DEKALB — With the National Football League kicking off its 2020 season, Northern Il-

linois University football fans won't have to wait long to see some of their favorite former Huskies in action.

Max Scharping, a member of NIU's 2014 and 2018 MAC championship teams, took the field when his Houston Texans faced the defending Super Bowl champion Kansas City Chiefs. Scharping leads a contingent of six Huskies on NFL rosters this season.

Jimmie Ward, who met Kansas City in last year's NFL title game, enters his seventh season in the league. He and the San Francisco 49ers took on Arizona Sunday. Wide receivers from the 2014 MAC Championship unit, Christian Blake and Chad Beebe begin their second

DEKALB — With and third seasons, respece National Football tively.

Blake, who spent the 2018 season on the Atlanta Falcons' practice squad, was elevated to the active roster in October of 2019, while Beebe spent the first eight weeks of 2018 on the Minnesota Vikings' practice squad before being elevated on Nov. 4 of that year to the active roster. The two will be reunited Week 6 when the

Vikings host the Falcons.

Two other former Huskie teammates will meet this season when Scharping and the Texans travel to Detroit to face Kenny Golladay and the Lions on Nov. 26 for a Week 12 tilt. Golladay, who enters his fourth season in the NFL, suited up when the Lions took on the Chicago Bears Sunday. Golladay and Scharping were teammates at NIU from 2014-16. Golladay will also see his former

teammates Blake and Beebe this season as well.

Rashaan Melvin, who signed with the Jacksonville Jaguars in the offseason, spent the previ-

ous seven seasons in the league with five different teams during that time span. Melvin starts the season on the Jaguars Reserve/Opt-Out list.

Kougars take 12th at Duane Chanay Invite

RTHS grad Jones sees action

SILVIS — The Kishwaukee College men's golf team travelled to Silvis on Tuesday to compete at the 22nd Annual Duane Chanay Invitational at TPC Deere Run.

The Kougars finished 12th as a team with a 341 team score. Aurora University took first place with a 294 followed by Heartland Community College with a score of 304.

Individually for Kishwaukee, Thomas O'Connor finished tied for 13th along with teammate Dyllon Davis who both posted a 76. Matthew Randall (87), Hayden Jones (102) and Noah Forsberg (108) had strong shots throughout the tourney on the same PGA course that hosts the PGA Tour - John Deere Classic annually since

Jone

2000.

Kishwaukee will return to action on Monday, Sept. 21 at the IVCC Fall Classic at Senica's Oak Ridge Golf Course in LaSalle with tee time to start approximately 10 a.m.

If you're hosting small gatherings, do it outside.

Instead of inviting people into your home, host a small gathering outside in the fresh air where everyone has six feet between them to spread out.

When shopping, wear a mask and avoid crowds.

Instead of going to the grocery store at rush hour, try going in the early morning or just before the store closes. Your local grocery store may even have a delivery or curbside pickup option.

When you eat out, eat outside.

Instead of getting a table inside a restaurant, have your meal outside. If the restaurant doesn't have a patio, take your dinner to go for an evening picnic at your favorite park.
