

## How to host a successful 'How-To'

Courtesy of Warner Library

It was a busy day for Vespasian Warner Public Library on Satruday as residents hoping to learn something new converged on the facility. Here, members of the DeWitt County Genealogical Society greeted people interested in their families' history. Library executive director Bobbi Perryman reported more than 250 people took advantage of the multiple station set-up throughout the library covering a variety of interests. Also check out Warner Library's Facebook page.

Weldon Springs Foundation meeting April 3

CLINTON - The Weldon Springs Foundation will hold its spring meeting on Friday, April 3, in the Clinton United Methodist Church parlor. The social will be held at 6 p.m. (bring a plate of goodies to share) with the meeting starting at 6:30 p.m.

## **Caulkins clarifies statements about power plant**

He says he is working to keep the plant open but cannot predict if it will happen or for how long

#### **Gordon Woods** gwoods@theclintonjournal.com

CLINTON - Contrary to a local rumor, Rep. Dan Caulkins said he did not declare Clinton Power Station would remain open for another 40-50

At least two current candidates for DeWitt Board have County repeatedly claimed Clinton Power Station would not close, as scheduled.

Gov. Bruce Rauner signed legislation in 2016 to keep Illinois' nuclear plants open. Exelon had earlier announced its planned closure of the Clinton facility citing increased competition from other energy producers. Caulkins said he felt that the schedule for closure of the Clinton plant was an "artificial end date."

actively working to try to keep that power station open," he said. "I think it has a productive life well past the six or seven years. I might have said 30 or 40 or 50 years, but who knows. I'm not an engineer." Caulkins said he felt it unfair for the state to mandate that the Clinton Power Station should close. He said he was working with the state, ComEd/Exelon and Ameren to work out a plan for keeping the plant open past its scheduled closure.

about keeping the plant open.

"They would like to keep it open, but it has to be financially viable," Caulkins said.

Unfortunately, Exelon is now caught up in the lobbying scandal involving Illinois House Speaker Michael Madigan. "That has given the opponents to that deal fodder to try to oppose it." Caulkins said that was causing proponents of the effort to "lay low" until the scandal is resolved. In the meantime, the effort remains ongoing,

he said.

## Land use members **cut short** wind farm discussion

Agree to take up debate at Mar. 18 board meeting

## **Gordon Woods**

gwoods@theclintonjournal.com

**CLINTON** The county board's land use committee Monday began a discussion about conditions placed on Tradewind Energy's special use permit (SUP) application.

The committee, however, ultimately concluded the full board meeting was a more appropriate venue for the conversation.

"I think everybody had a chance to read the six standards," committee chairman Terry Ferguson said.

Ferguson drew the members' attention to the conditions requested by the Zoning Board of Appeals (ZBA), including a request for a letter of intent from Tradewind to engage curtailment of turbines during periods of severe storms and an agreement governing the aircraft warning lighting system.

The ZBA forwarded Tradewind the SUP application to the county board with a recommendation to not approve the application. The board will vote on

Preparations for spring and summer activities will begin. years.

Caulkins told the Clinton Journal Wednesday that statements he made about Clinton Power Station were misconstrued. He said, while he is working to try to keep the plant open past its scheduled closure in 2026, there was no way to predict if the plan would be successful or for how long.

"I promised and am

He said Exelon officials talked optimistically

the matter on Mar. 18. Ferguson said he was informed that the National Weather Service

no longer accepts letters of intent but requires binding agreements between entities.

## Community spread suspected as Illinois coronavirus cases hit 19

First cases reported outside Cook County; Governor 'frustrated' with federal response

#### Ben Orner

Capitol News Illinois

**SPRINGFIELD** Illinois health officials on Tuesday announced the first cases of coronavirus illness in people outside Cook County: a McHenry County resident in his

late teens and a Kane County woman in her 60s who are likely the state's first cases of "community spread." Neither of these cases have a travel history affected area to an or a connection with other known cases. Though officials are still investigating, believe these they are the first known instances of the virus spreading throughout the population without a

clear origin.

The two community spread cases are among eight new cases of the illness known as COVID-19 that officials announced Tuesday during a news conference Chicago, bringing in Illinois' total to 19. The other six new cases are Cook County residents: four men and a woman in their 40s, a woman in her 60s and a man in his 70s.

# NEWS

## Land / from page A1

"The Zoning Board of Appeals had requested that a letter of intent for this curtailment plan should be included with the special use permit (application), and I guess that's kind of my evaluation also," Ferguson said. "But, I, personally; I don't know that there is any way to bind anybody to this."

Ferguson said that, possibly, there should be some financial remedy were Tradewind to fail to curtail turbines during severe weather.

"Isn't this something we should be doing at the full board," asked committee member Melonie Tilley. "We are going into a discussion that the full board is not going to hear." Committee member Camille Redman agreed with Tilley, although Redman and Tilley have been on opposite sides of the wind farm debate.

Ferguson disagreed. "I think that anything that comes to the full board that deals with a special use permit, we have the right to talk about it," he said. "And, when it comes time for the full board, we'll do it again."

Ferguson was a key vote against Tradewind's first special use application last spring. Tilley also voted to not approve the application in 2019.

"That I know of, we've never discussed any other special use permit," Tilley said.

"I realize that," Ferguson responded. "I just personally feel this it is a big enough deal that we need to review it."

Ferguson said committee members had been able to review condition other counties placed on proposed wind energy projects. He said board members needed to be ready to "have a serious discussion" about the proposed conditions to Tradewind's application.

"There probably hasn't been any of those neighboring wind farms that have been approved that haven't had a least a couple dozen meaningful conditions," Ferguson said.

Ferguson said he had hoped the county's wind ordinance would be reviewed for possible clarifications on some points.

"I find it interesting that; it's contentious about whether the decommissioning plan should be part of the special use permit," he said.

Ferguson said, however, he would go with the consensus of committee members and wait to raise points until the full board meets.

"But, please take it home, study it," he said.

"It's just a few more pages to read," Redman said.

Ferguson asked committee members to keep in mind conditions imposed on wind energy projects by other counties.

## The eight new patents

Land / from page A1

are in isolation and doing well, officials said. Public health officials are reaching out to people who had close contact with them.

"We want everyone to start thinking and preparing now for the virus to circulate more widely in the community," said Dr. Ngozi Ezike, director of the Illinois Department of Public Health. "Social distancing will be important to slow and reduce and dampen the effect in our community. This may include canceling large events."

Though the state's case total is 19, Gov. JB Pritzker said "several" have since recovered and returned to normal life. Ezike said all current patients are "stable."

Officials also updated the most vulnerable Allison Arwady advised people over the age of 60 or with underlying conditions to not attend large gatherings and encouraged people with underlying conditions to stock up on medications.

"As we potentially see additional spread of this disease, we don't want people coming into the medical system who don't need to be there," she said.

Pritzker said he is working with county boards election on possibly moving polling places out of nursing homes. On Monday he announced the Quincy Veterans Home would move its polling location for the March 17 primary election. He also said it is possible the deadline to obtain an absentee ballot could be extended.

Pritzker slams

would be coming online," he said. "I was just told today commercial labs would be coming online within days. Once again, I've been told the same thing again. We haven't seen it."

The only places able to test for COVID-19 right now are the three state-run labs in Chicago, Springfield and Carbondale.

Pritzker also criticized the Trump administration's decision forgo the to World Health Organization's COVID-19 test, which has been used on hundreds of thousands of people in Europe and Asia, in favor of its own test.

"We could have been using that weeks ago here in the United States," he said. "It's been too long already."

AG warns of scams

elderberry and garlic are being falsely advertised as treatments and cures for the virus.

Raoul also encouraged Illinoisans to be cautious when donating to coronavirus-related charitable causes, since fundraisers and charities are required to register with the AG's office.

Among his tips to prevent getting scammed include not donating if the solicitor uses highpressure tactics or asks for cash; confirming the charity exists when you receive an email or text asking for a donation; and being wary of "lookalike" websites.

#### Virus prevention tips

Officials have said the best ways to avoid contracting COVID-19 include covering your coughs and sneezes, washing your hands for 20 seconds with soap and water, avoiding touching your face, staying home when you are sick and cleaning frequentlytouched surfaces.

ILLINOIS GOVERNMENT

# PRIMARY ELECTION LETTERS

## Elect Megan Meyers Elect Megan Meyers to DeWitt County Board

There is an excellent candidate running for a position on the Dewitt County Board from District C. Megan Myers is an intelligent and thoughtful person who has leadership qualities and an abundance of experience serving on boards that enrich the lives of Dewitt County

residents, including the 4H Foundation Board, and the Clinton Community Educational Foundation. I urge you to vote on March 17 and help elect Megan Myers to the Dewitt County Board.

#### Patrick Ryan Farmer City

## The county can't take any more 'reformers'

In talking to people throughout DeWitt County, I have found that most understand the issues of the upcoming county board election. However, there are some who evidently do not remember the years 2010 thruough November 2014, when poor leadership led our county to public embarrassment and near bankruptcy. David Newberg, Jay Wickenhauser and Cole Ritter are among the current county board members who have brought back respect and financial security. The opposing candidates are

supported by, and some were members of, the Reform Coalition that tried to ruin the county. They are running on one position and have not shown concern about the present and future financial state. I, personally, would not depend on the State of Illinois to bail us out.

Please cast your votes for David Newberg, Frederick "Jay" Wickenhauser and

## Ask yourselves some questions before you vote

The election cycle for 2020 has begun!

It is a civic duty to cast your ballot for the candidates of your choice and I would encourage you to do so.

While you're in the voting booth deciding which candidate to select, I would ask you to consider a few factors important to your selection.

1. Which candidate has the courage to represent DeWitt County, regardless of the inevitable criticism they might receive, in a fair and equitable manner that ensures the

County remains a viable

2. Which candidate will listen to ALL of the citizens in our county and vote on matters with sound judgement based on the facts presented and not upon personal bias.

This is an attribute desperately needed in order to make a wise decision. Listening only to the loudest voices, to those with incorrect information or to those driven more by emotion instead of a complete knowledge of the issue could result in bad decisions for the county and its citizens. Although elected in districts, board members represent all citizens within the county with each decision they make.

required to address county business? It takes more than a meeting once-amonth (and at times the job can consume hours in a week) to perform the job properly so the residents are represented as they expect to be.

You need to determine whether you want proven leaders who made the hard choices and balanced a budget that was \$1 million in debt or whether you want to take the chance of another special interest group taking over our county government and possibly creating another huge deficit.

This is a consequential election. There are certainly many more questions which you should ask yourself before voting, and each voter should do so to ensure you have made the right choice.

Regardless of whom you select, please take the time to vote. This privilege/

and growing area?

1963 - China invited Soviet President Khrushchev to visit Peking.

1969 - The Apollo 9 astronauts returned to Earth after the conclusion of a mission that included the successful testing of the Lunar Module.

1970 - Cambodia ordered Hanoi and Viet Cong troops to leave.

1970 - Digital Equipment Corp. introduced the PDP-11 minicomputer.

1974 - An embargo imposed by Arab oil-producing countries was lifted.

1991 - Exxon paid \$1 billion in fines and for the clean-up of the Alaskan oil spill.

1995 - The first United Nations World Summit on Social Development concluded in Copenhagen, Denmark.

1997 - Sister Nirmala was chosen by India's Missionaries of Charity to succeed Mother Teresa as leader of the Catholic order.

2003 - A report in the journal "Nature" reported that scientists had found 350,000-year-old human footprints in Italy. The 56 prints were made by three early, upright-walking humans that were descending the side of a volcano.

Cole Ritter. They have proven their commonsense leadership for DeWitt County.

> **Barbara McMath** Clinton

## Vote for experience and stability on Mar. 17

I am writing to endorse three members for the DeWitt County Board David \_ Newberg, Cole Ritter and Jay Wickenhauser.

They have served all residents of DeWitt County and have done a good job.

I think we should

with continue their experience and knowledge and maintain stability on the board. Please join me in voting for the above 3 members.

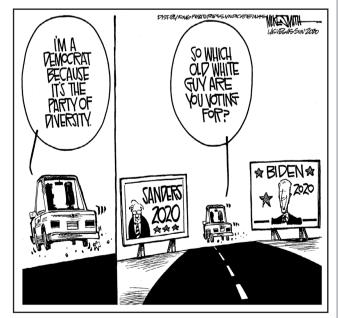

Thank you.

Respectfully, Paul Nothnagel Clinton

## THE CLINTON JOURNAL'S DEWITT COUNTY BOARD CANDIDATES' QUESTIONNAIRE FORUM

## 2020 Primary Election / Tuesday, March 17

Candidates in the March 17 Primary Election for DeWitt County Board were invited to answer five questions, three general questions and two more specific questions. Candidates needed to return their responses by noon on Wednesday, March 11 for publication in today's print edition of the Clinton Journal. The questionnaire also is on the Clinton Journal Web site at www.theclintonjournal.com. Eleven of the 12 candidates for county board responded to the questionnaire. The Journal did not receive a response from candidate Thomas Koshinski.

#### Claro "Buck" Carter, Republican County Board District A (challenger)

#### 1. Please tell a little about yourself.

I'm Buck Carter running as a Republican for DeWitt County Board District A. My wife Eileen and I live in rural Tunbridge Township east of Kenney. I first moved to DeWitt County in 1966 where my children, grandchildren and great grandchildren live and grew up loving the country living and small town atmosphere of DeWitt County.

Illinois Power Company was my employer for 32 years working in and serving the DeWitt County area. In addition I served 10 years as the Union Representative for IBEW#51 representing the employees of the Clinton Nuclear Station and Ameren. Also, during my working career I owned and operated Carter Real Estate in Clinton from 1980 - 2000. I have been active in Community Service having served on the County Board 1980-1982, Clinton Sanitary District Trustee 1983-1992, Clinton Unit 15 School Board 2005-2017

## 2. Why do you want to be elected / re-elected to the DeWitt County Board?

I'm seeking to be a representative in District A, because after watching and observing the present representative for my District I feel as if they are not in touch with those constituents that live in our District.

## **3.** What is your philosophy about the function of government and its role serving the county's residents?

I believe the function of local government should be to represent the majority of constituents that elected you. The welfare and safety of the people must govern the elected representative's choice. There is a moral obligation to support the majority, not to enforce personal preference on the public at large.

## 4. What do you see as the pressing issues facing the county in the next four years, and how would you propose addressing them?

The function of the County Board is to best prepare for the future. A strategic plan should be in place to assist with the future growth and development of DeWitt County working with the DeWitt County Development Council, assisting Exelon in maintaining the Nuclear Power Station, and providing the necessary services to the entire County to meet basic needs.

5. What is your position on the proposed Alta Farms II wind energy project, and could you ever support a wind project in DeWitt County now or in the future?

I'm opposed to the Alta Farms II project, simply because the developer has not sufficiently addressed the issues that have been brought forth at all the discussions over the past 2 years. I believe the major fault is the responsibility of the County Board by failing to include in our zoning ordinance the basic requirements that exist all over our nation, such as Height, Set Backs, Noise, Shadow Flicker, Decommission, Complaint Resolution, Lighting, Inference with Doppler Radar, Ground Water issues, and Draining Issues. I believe these should all be addressed, then, the constituents would all have ample feedback as to the acceptance.

## county over the next four years, and how would you propose addressing them?

There are a number of issues in our county, but I would also say most of them are not unique to just DeWitt County. I'ts the same challenges and issues that many rural communities face.

We need to figure out how to manage a responsible budget that favors the needs vs wants.

We need to start collaborating with our communities and our civic groups and operate on a mindset of inclusivity rather exclusivity. The sum of all the groups and individuals always make a better team than one individual.

What are we going to do with the marina.. Tremendous opportunity to capitalize on an asset we already own and conjunction with the abundant recreation opportunities we have in our county. The recreation industry is untapped resource that Illinois misses the mark on greatly in comparison to other neighboring states.

Modernization of our ordinances and policies to ensure they are relevant in todays world and implementing continuous improvement plans to ensure that we do not allow the to grow stale.

#### 5. What is your position on the Alta Farms II wind energy project, and could you ever support a wind project in DeWitt County now or in the future?

In short I do not feel that the proposed wind farm is the right fit for Dewitt County. I do not feel that the whole of the residents of DeWitt County concerns have been taken into consideration, and even as proposed compromises have been submitted based on industry standards, they have not been implemented. This issue alone, is a prime example of an elected officials obligation to act accordingly based on the will of the people.

#### Megan Myers, Republican County Board District C (challenger)

#### 1. Please tell a little about yourself.

My husband Kevin and I moved to Clinton with our children (Tallon, Tamsin & Kayla) in 2003. We were drawn here by the rural character, relaxed atmosphere and better school district. I have grown to love DeWitt County.

In my professional career I work in operations support for a large agribusiness. I provide data analysis of various plant metrics to assist in the implementation of best practices and performance improvements.

At home I've had the privilege of serving on the 4-H Foundation Board and am currently a board member on the Clinton Community Educational Foundation, serving on the Dual Credit and Finance committees. I'm actively could support a future project would be determined by the will of the constituents as it is their voice that matters.

#### David Newberg, Republican County Board Distict C (incumbent)

#### 1. Please tell a little about yourself.

Forty-four years ago, I married life-long DeWitt County resident, Joni Blue, and moved to DeWitt County. Joni and I raised our family here on the family farm. Our son, Andrew, and his wife, Jill are raising their family here in Clinton and our daughter, Suzy, and her husband, Chris, live in Morris. I have served 14 years on the county board, the last six as Chairman.

## 2. Why do you want to be elected/re-elected to the DeWitt County Board?

It has truly been my honor to serve the people of DeWitt County. There were some unique challenges from 2012 to 2014, but in December of 2014 the leadership of the board changed. This led to stabilized tax rates, increased morale, and balanced budgets. The entire board worked very hard to earn back the support and trust of our community, and it was a rewarding process of which to be apart.

## **3.** What is your philosophy about the function of government and its role in serving the county's residents?

County government exists to serve the residents of this community and ensure their health, safety and overall welfare are at the forefront of our priorities. Over the last six years we have proven we can rise above partisan politics to solve real issues for our county and do it together. I am proud of our bipartisan commitment, and I believe we serve as a positive example to other counties throughout Illinois.

## 4. What do you see as the pressing issues facing the county in the next four years, and how would you propose addressing them?

Our priorities continue to be balanced budgets, stable tax rates and excellent services for our residents. An effective and efficient government is what the people of DeWitt County deserve. We will negotiate a new property tax agreement with Clinton Power Station, be open to new development in the county, stay on top of a rising minimum wage, and will continually navigate increasing met unfunded mandates from our State government.

#### 5. What is your position on the proposed Alta Farms II wind energy project, and could you ever support a wind project in DeWitt County now or in the future?

Wind farm development in the county is a real possibility. As with all new developments, if they meet the requirements as written in our ordnance they deserve a fair process. I voted to approve the special use permit for the development one year ago. This issue is now back in front of this board. I will be prepared to make a fair and knowledgeable decision when it comes before the full board

#### Aaron Kammeyer, Republican County Board District A (challenger)

#### 1. Please tell a little about yourself .

My name is Aaron Kammeyer I am resident of Clinton IL I will be running as a Republican candidate for a county board seat in District A in the upcoming 2020 Primary election. I have lived in DeWitt county for 25+ years and have had the privilege to volunteer and serve in various leadership capacities in a number of government and community organizations. My most recent opportunity has been my appointment to the city owned hospital, Warner Hospital and Health Services, serving as Board President the past five years. While serving on the board, we have accomplished a lot of great things through our partnership with City Council and leadership collaboration between the board and Hospitals Executive team. Some of the outcomes are things such as our significant transformations in our financial stability, boasting positive cash flow, the physical facilities and investment in a modernized IT infrastructure.

#### 2. Why do you want to be elected/re-elected to DeWitt County Board?

I have been actively involved in community and civic organizations just about my entire life. In my day to day job, I am Architect/Solution Designer in a large organization. I am good at this work and in a lot of the other roles I have been involved civically, because its in my nature to continuously dig in and analyze issues, identify risk or concerns and then design and implement solutions to solve this problems. There is tremendous opportunities in the DeWitt County government for selfimprovement and I feel that I am up for the challenge.

## 3. What is your about the function of government and its role in serving the county's residents?

As an elected official you become a servant leader and as such you are the voice for all residents. As such, you are obligated to conduct business and make decisions based on the will of your residents.

4. What do you see as the pressing issues facing the

involved in securing outside funding for STEM projects in our schools.

## 2. Why do you want to be elected/re-elected to the DeWitt County Board?

I am running for county board because I believe we each have a responsibility to serve our communities as we are able. Each of us has something to offer and by being the voice of the residents in District C I hope to bring their diversity of thought and collective knowledge to a position on the board.

## 3. What is your philosophy about the function of government and its role in serving the county's residents?

My philosophy is that county government should do more than just provide the necessary services required by the state and federal mandates. The county board must be a good steward of the public's tax dollars, balancing the needs and desires of the residents with the resources available. I believe there is also a responsibility to actively work with our residents, other governing bodies and community organizations, such as the DeWitt County Development Council, to grow our community, making sure any growth is consistent with protecting our rural character and quality of life.

## 4. What do you see as the pressing issues facing the county in the next four years, and how would you propose addressing them?

We have a new comprehensive plan to guide development but there needs to be a long-term vision for our county. We need a strategic plan and a unifying vision that our community can buy into and work together to attain. Do we want to be a bedroom community, do we want to have the next large distribution warehouse? We do not have the resources to chase everything, so we need to decide on our vision. We need to actively support the nuclear power plant and find ways to better leverage the recreation opportunities in the county.

#### 5. What is your position on the proposed Alta Farms II wind energy project, and could you ever support a wind project in DeWitt County now or in the future?

I do not support this project. After two attempts the developer has failed to meet the criteria required for our RPC or ZBA to recommend this project. Both special use permit applications failed to adequately address key issues that would negatively impact those in the footprint. The most recent application is in clear violation of our ordinance and the developer has openly chosen not to correct those defects. Most importantly, the majority of residents that I have spoken with in District C over the past month do not support this project. Whether or not I

Thank you for allowing me to serve our county.

#### Scott Nimmo, Democrat County Board District C (incumbent)

#### 1. Please tell a little about yourself.

My Name is Scott Nimmo, I have been a resident of Dewitt County and lived in Clinton for 45 years. I moved to Clinton in 1975 shortly after the construction of the Nuclear Power Plant started. I have been married for 33 years to a great woman and have 2 beautiful daughters and 2 grandchildren. I have been a proud Union member of the Cement Masons for 42 years. I have been able to work on many projects in Dewitt County and surrounding cities. I also was given the chance to represent my Union members as their President and Business Representative for the last 15 years

## 2. Why do you want to be elected/re-elected to the DeWitt County Board?

I have been on the county Board for the last 4 years and served for a brief time to fill in for a member that retired. With the current Board and the previous Board members that I have worked with, I have learned a lot of valuable knowledge of the inner workings of the County and its needs. I feel that we as the Board have proven to be able to make the hard decisions that have to be made to insure that Dewitt County will stay financially sound and provide the necessary services that the people of Dewitt County expect and deserve.

## 3. What is your philosophy about the function of government and its role in serving the county's residents?

I feel the current methods the county Board has in place with the different committees that members are assigned to and meet monthly to address the issues helps the County Board to run more efficiently. It allows the committees to look at the issues in more detail, so the Full Board can make the best decisions for the people of Dewitt County. I also think that anyone that is chosen to serve in government should hold themselves to the highest standards, be honest, be dedicated, be a good listener and devote the time necessary to address all of the issues that we face.

4. What do you see as the pressing issues facing the

## THE CLINTON JOURNAL'S DEWITT COUNTY BOARD CANDIDATES' QUESTIONNAIRE FORUM

## 2020 Primary Election / Tuesday, March 17

 Candidates in the March 17 Primary Election for DeWitt County Board were invited to answer five questions, three general questions and two more specific questions. Candidates needed to return their responses by noon on Wednesday, March 11 for publication in today's print edition of the Clinton Journal. The questionnaire also is on the Clinton Journal Web site at www.theclintonjournal.com

## county in the next four years, and how would you propose addressing them?

The biggest issues are keeping taxes low, making sure the County has the funds to provide essential Services. Making sure we have good law enforcement, Ambulance services, Emergency service, ECT. Taking care of our infrastructure and attracting new businesses and expanding current businesses.

### 5. What is your position on the proposed Alta Farms II wind energy project, and could you ever support a wind project in DeWitt County now or in the future?

I have been on record supporting Green energy and wind projects are one of many options. I know there have been many public meetings on wind farms and I am currently reading through.The many-many hours of transcripts of the meetings. I will look at ALL of the new and old. Information that was provided to me as a County Board member. I will make me decision after carefully looking through all of the facts and Concerns. I know this is a very.

Important issue for the County and not to be taken lightly. I feel that possibly some of the candidates are one issue candidates and there are many, many more important issues that Dewitt County faces in our future.

#### Steve Oswald, Republican County Board District C (challenger)

#### 1. Please tell a little about yourself?

My wife Mystee and I moved to Clinton in 2001. We have two children, Allison and Michael who both grew up here. We were drawn to DeWitt County by its small town feel, good schools, low taxes and central location between Bloomington and Decatur. Over the years I've had the opportunity to meet some great people through volunteer opportunities. I was a coach and also served on the Clinton Youth Baseball board as Vice President. I have also volunteered as a coach with Clinton Travel baseball and have assisted with various fundraisers. I am currently serving on the CUSD 15 school board.

I have 25 years' experience in the insurance and financial services industry. I spent seven years in management where I not only managed people, but managed budgets that ranged from \$5M to \$17M. In my current role, I am responsible for a roughly \$3M budget and work with employees at all levels, including Executives. I understand the importance of collaboration, fiscal responsibility and process improvement and will bring a focus on those areas to the county board.

## 2. Why do you want to be elected/re-elected to the DeWitt County Board?

I want to be elected to the county board because I want to help engage county residents and the county board in working together to drive growth in DeWitt County, protect our rural character and maintain our low property and sales tax rates. We are situated in an ideal location for growth and have a lot to offer. DeWitt County, like the rest of Illinois, has been losing population over the past decade. With our low property taxes, low sales taxes and all the great local businesses we have to offer along with great schools, I feel we should be attracting more individuals to this county. few years and there are too many unknowns in terms of health impacts. Many studies suggest that the infrasound caused by turbines can travel 4-5 miles and have health impacts ranging from migraines to heart issues. This is not something I take lightly as we need to make sure we are looking out for our residents well-being.

Additionally, there are too many potential negative environmental impacts (Mahomet aquifer, radar interference, bat and other bird deaths) that offset any potential benefit that could come from these "farms." I believe we need to protect our rural character as called for in the County's Comprehensive Plan and in my opinion wind developments do not meet the criteria of protecting our rural character.

## Jamie Prestegaard, Republican DeWitt County Board District A (challenger)

#### 1. Please tell a little about yourself.

I have called rural Waynesville my home since 2005. My wife Amy and I have three children. I grew up on a northern Illinois grain and livestock farm; agriculture is my passion. I graduated from the University of Illinois in 1998 with a degree in Ag Economics. For the past 15 years, I have been employed as a commodity analyst for The Maschhoffs LLC, a family-owned swine production business.

## 2. Why do you want to be elected / re-elected to the DeWitt County Board?

I believe serving your community is important. After moving to Waynesville, I chose to become more involved with the local community. In 2009, I became a trustee for Waynesville Township and currently serve as its township clerk. With having ten years of township government experience under my belt, I would like to expand my role of community service by representing District A on the county board.

## 3. What is your philosophy about the function of government and its role serving the county's residents?

I believe the primary function of government is to balance the needs and wants of its constituents. This includes appropriating necessary funds to develop a balanced budget, while being fiscally responsible. Also providing public safety to all county residents is critical. In addition, we need to ensure all county departments have the necessary resources in order to perform their duties.

## 4. What do you see as the pressing issues facing the county in the next four years, and how would you propose addressing them?

Wind and solar projects will be issues the county will face in the near term. The county needs to have in place up-to-date ordinances and a plan to keep those ordinances current as that technology changes over time. There is uncertainty with the future of nuclear energy production in our county. The county needs to make and act on an agenda to keep the Clinton Power Station running past 2026. Finally, we need to utilize our county's comprehensive plan to identify opportunities of economic growth that highlights what DeWitt County has to offer. We need to continue to keep the lines of communication open between the Clinton Power Station's management and the legislators in Springfield. In order to keep our taxes as low as possible, we have to work with Springfield as we did in 2016 to keep the power station in operation. We also need to encourage more businesses to look to DeWitt County as a viable option for locating. We must have more good paying jobs and property taxes as the power station depreciates.

#### 5. What is your position on the proposed Alta Farms II wind energy project, and could you ever support a wind project in DeWitt County now or in the future?

As the Chairperson of the Finance Committee, I have a unique insight into the funding of our County services. I am very concerned with the future of our County and our schools should the Clinton Power Station close without any new sources of tax revenue. It's amazing that people express their opinions on how we should operate our budget when they have absolutely no knowledge of our finances. Our budget is open to the public and an outside auditor audits the County yearly. Once you have an understanding of the budget and look at all the counties around us with wind farms, you soon realize why they are developing wind energy as fast as possible. Surrounding counties, with universities, colleges, professors and hundreds of doctors, have embraced wind energy for the millions of dollars in tax revenue and the hundreds of good paying construction jobs. Unfortunately, there are those that spread false and misleading information to stop progress. If you think back over the years, how many times can DeWitt County pass on an opportunity before opportunity doesn't come knocking anymore.

## Cole Ritter, Republican DeWitt County Board District A (incumbent)

#### 1. Please tell a little about yourself.

My name is Cole Ritter, and my wonderful wife Liz and I are blessed to be the parents of an amazing son. DeWitt County has been my home my entire life, and it will continue to be for decades to come. My father owns a plumbing business in Clinton, and by following in his footsteps I hope to continue the legacy graciously. My interests are golfing, fishing with my son, going to local parks with my family, attending benefits that support various DeWitt County organizations, and enjoying all Clinton Lake has to offer.

## 2. Why do you want to be elected/re-elected to the DeWitt County Board?

Throughout my time on the board, I have met so many wonderful people that also call DeWitt County "home". I care about the citizens and future of DeWitt County, and it is for this reason that I would like to be re-elected. Through common sense leadership and decision making today, we can make DeWitt County stronger tomorrow. I am proud of what has been accomplished in DeWitt County in the past, and would be proud to continue to represent DeWitt County in the future.

## 3. What is your philosophy about the function of government and its role serving the county's residents?

The government's role at every level is to serve and protect the residents while doing so in a financially responsible manner. We must keep in mind that nothing is free and every dollar we spend comes from the taxpayer's pockets which means we need to make sure we are doing things in the most efficient, effective manner possible.

#### 4. What do you see as the pressing issues facing the county in the next four years, and how would you propose addressing them?

I think two of the biggest issues we are facing is population loss and finances. The state puts a great burden on local governments by passing the increased minimum wage. If we continue to lose residents, that places a higher burden on residents that remain. If we can turn the corner and attract more people to come to DeWitt County that would help us generate additional revenues, via property and sales tax, to help cover some of the increase in costs that come along with the wage increase. We cannot just automatically turn to tax increases as a solution or that will just continue to drive people out of the county and state in general.

#### 5. What is your position on the proposed Alta Farms II wind energy project, and could you every support a wind project in DeWitt County now or in the future?

I am against the current Alta Farms II wind farm for several reasons. First, their SUP application is not complete as they claim. One example is how Tradewind refused to provide a third party engineer that is agreed upon by the County Board to provide a decommissioning plan. That's a requirement for a special use permit and is crucial to ensure any shortfalls in estimates won't fall back on the taxpayer's of this county. Secondly, if we allow an incomplete application to pass we are setting a precedent that will allow other county residents or businesses to not follow our ordinances and processes. Large corporations should not receive special treatment. Finally, I've done my own research and have sat through many of the meetings and public hearings over the past

### 5. What is your position on the proposed Alta Farms II wind energy project, and could you ever support a wind project in DeWitt County now or in the future? I am not supportive of the current Alta Farms II project as I believe there are missing pieces to their SUP application. Supporting a wind project in the future

would require stricter wind energy ordinances that thoroughly protect non-participating landowners in our county.

#### Camille Redman, Democrat DeWitt County District A (incumbent)

#### 1. Please tell a little about yourself?

I am a lifelong resident of DeWitt County graduating from Clinton Community High School. My husband Terry and I have three children and two grandchildren who are the 9th generation in this county. I have devoted my entire adult years volunteering for different organizations and causes. I am a member and past president of the Clinton American Legion Auxiliary and a board member of the DeWitt County Museum.

## 2. Why do you want to be elected/re-elected to the DeWitt County Board?

When I decided to run for County Board 10 years ago, the purpose was to make a difference for my children and grandchildren. Just to name a few improvements, a new ambulance service was created, a much-needed Animal Shelter was built, and improvements to the Clinton Marina were projects that were accomplished. I will continue to help move the County forward.

## 3. What is your philosophy about the function of government and its role serving the county's residents?

To give the tax payers the best basic services they deserve for the tax dollars they pay. Government is not a business, but we always want to give the taxpayers the most bang for their buck while improving their quality of life and keeping taxes as low as possible.

4. What do you see as the pressing issues facing the county in the next four years, and how would you propose addressing them?

## 3. What is your philosophy about the function of government and its role serving county residents?

My philosophy about government is the same as in sports, there is no "I" in "TEAM". Working together, as a united board, is how DeWitt County can grow. Government to me means working for the citizens and utilizing assets, while realizing the need for checks and balances on all stages of leadership.

## 4. What do you see as the pressing issues facing the county in the next 4 years, and how do you propose addressing them?

Maintaining a low property tax rate, supporting K-12 education, promoting local economic growth, and keeping Dewitt County compliant with new legislation coming from Springfield while at the same time preserving our quality of life. This is why it's so important to have elected officials that can work together for the betterment of our county and its citizens.

#### 5. What is your position on the proposed Alta Farms II Wind energy project, and could you ever support a wind energy project in DeWitt County now or in the future?

The Alta Farms project is just ONE of the big issues facing DeWitt County right now. Another looming issue is the longevity of the Clinton Power Station, and the potential loss of jobs and revenue the county will face. With any topic that affects so many people, it is important that board members educate themselves while also listening to both sides of the issue.

#### Lance Reece, Democrat County Board District A (incumbent)

#### 1. Please tell a little about yourself.

I am a retired electrician. The last eight years of my career were spent as the Business Manager-Financial Secretary for I.B.E.W. #197. While serving in that capacity I was a Trustee on a billion dollar Health and Welfare-Pension plan. I was on the Appeals Committee, the Professional Review Committee, and the Steering Committee for the Health and Welfare Plan. I served on the Investment Committee for the Pension Plan and was asked to be on the Board of Directors overseeing both of the funds, but had to decline because of my impending retirement.

## THE CLINTON JOURNAL'S DEWITT COUNTY BOARD CANDIDATES' QUESTIONNAIRE FORUM

## 2020 Primary Election / Tuesday, March 17

 Candidates in the March 17 Primary Election for DeWitt County Board were invited to answer five questions, three general questions and two more specific questions. Candidates needed to return their responses by noon on Wednesday, March 11 for publication in today's print edition of the Clinton Journal. The questionnaire also is on the Clinton Journal Web site at www.theclintonjournal.com

I am a member of the Warner Hospital and Health Services Foundation Board and enjoy spending time selling bingo cards, cooking pork chop sandwiches, and raising funds to support the hospital. I have assisted organizations during the Apple and Pork festival, and look forward to meeting and talking to interesting people each year. Since moving to DeWitt County I discovered that it is a comfortable place to live. I have often told my wife, who was raised here, and known then as Pat Riegel, that the decision to move to DeWitt County was one of the best we have ever made.

## 2. Why do you want to be elected/re-elected to the DeWitt County Board?

Many have asked the question, why do you want to put up with the aggravation and the hassle? I don't believe that statement is true. If you can appreciate the fact that everyone has something which they consider important it is not an aggravation or a hassle. It means that they are looking for help or an answer to what is bothering them. It is gratifying to be able to assist them and one of the most fulfilling parts of the job. Being able to make a contribution for the betterment of the citizens is the main reason. I believe that I have the ability to look at all sides of an issue and make a fair and unbiased judgement. Something which is extremely important as a member of the Board.

## 3. What is your philosophy about the function of government and its role serving county residents?

County government should strive to ensure that all citizens have a secure and comfortable environment to live in. Medical services, law enforcement, education, and properly maintained infrastructure are a few of the basic services residents should expect. Government should also be reliable stewards of the Counties finances. Being prudent with expenditures, while getting the best value for the dollars spent, is an expectation which should be met at all times.

## 4. What do you see as the pressing issues facing the county in the next 4 years, and how do you propose addressing them?

The issue most important moving forward will certainly be the fate of the Excelon plant and the impact it will have on the Counties finances and residents. However there are other items which will have to be addressed such as ambulance service for the residents of Farmer City who reside in its fire protection district, and getting the Marina into a position that it is a destination once again. Making certain that the budget is balanced, while meeting all the new mandates and laws which may be passed, and other issues that require immediate attention. Of course, over a period of four years there are going to be other matters which will pop up demanding attention, and will have to be addressed by prioritizing them as they emerge. Thank you from The Clinton Journal to the candidates who participated in this Candidates' Questionnaire Forum.

#### future?

I truly don't have a "position" on the wind farm. I can see both sides of the discussion. However, in my first contact with a resident about this I was asked if it was only about the finances. My reply was, no it wasn't, it is also about quality of life. I still believe that today. Over the past two plus years of conversation about this it occurred to me that finances and quality of life are not mutually exclusive but mutually inclusive. You cannot have quality of life, without the finances to support it. Once again the basic services expected by residents in DeWitt County come with a price. Ambulance service, law enforcement, education, and infrastructure all cost. If/when the power plant closes, without something to replace the lost revenue, these services will certainly have to be downsized to fit the budget. It could also mean the County wouldn't be able to maintain the staff it has now. That may result in less access to those people you might need to contact. County government does not have a product it can increase in price to meet the loss. The only two ways I'm aware of to generate revenue for the County is increasing taxes and business development. No one I know is in favor of increasing taxes, and development will be difficult if a business has to fight to get approval when it wants to come into DeWitt County. Creating a hostile environment for development when it shows up is not helpful! Resisting change is not beneficial for the County. This development will not replace all the revenue we could lose. To replace all of the revenue lost will require more businesses to locate here. Making them welcome and helping them to become producing members of DeWitt County is important!

#### Frederick "Jay" Wickenhauser, Republican DeWitt County Board District C (incumbent)

#### 1. Please tell a little about yourself.

I am a lifelong resident of DeWitt County. I was raised in Wapella and attended public school there from kindergarten to graduation. I am married to my wife, Beth, who is a principal with the Clinton School District and we have one adult daughter, Jacey, who is a graduate assistant at Purdue University. I have worked for the Illinois Department of Natural Resources for 25 years, currently serving at Weldon Springs Park. We are members of First Christian Church, The Clinton Country Club and the Eagles. election, because although we have accomplished a lot in the past four years, there are still things to be done to improve the county. For example, I am currently serving as the chairman of the marina committee and we have been working diligently to repair and upgrade the marina property. Dock work, breakwater work and cleaning up the entire marina area have been recent ongoing projects. I want to continue to serve the community in this capacity to maintain the county services we have in place and keep the county fiscally sound.

3. What is your philosophy about the function of government and its role serving the county's residents?

I believe that the role of government is to provide for the general interest of the community (county) as a whole. Maintaining and developing community services, infrastructure and economic development are responsibilities of the local county board. The governing body also needs to be a good steward of the tax dollars collected and serve with integrity across all areas of need within the county.

## 4. What do you see as the pressing issues facing the county in the next four years, and how would you propose addressing them?

The biggest issue I see for the county as a whole is the length of time the power plant will be online, which directly impacts the revenue the county has for services and upkeep of current county facilities and departments. To counter any lost revenue that would occur should the powerplant close, we need to be working to keep current businesses open and be seeking new opportunities for revenue to come into the county. By expanding business revenue, we decrease the burden of taxes on individuals, and are able to maintain needed services.

#### 5. What is your position on the proposed Alta Farms II wind energy project, and could you ever support a wind project in DeWitt County now or in the future?

My stand on the wind farms is that it is an additional source of revenue for the county and taxing entities within the county. As I stated in question 4, when we have the opportunity to increase revenue and support local business, we need to do that for the good of the community and for its future residents. Tradewinds has publicly agreed to partner with Arcosa in manufacturing 20 percent of the components of the proposed wind farm. With the recent closing of Miller Container and the jobs lost there, we need to be proactive in supporting and keeping businesses in DeWitt County. If jobs are unavailable due to continued loss of manufacturing, then the overall population of the county will be impacted also. Every family that leaves DeWitt County for jobs elsewhere affects the level and quality of services provided county wide.

---- J ----- B--

**5.** What is your position on the proposed Alta Farms II Wind energy project, and could you ever support a wind energy project in DeWitt County now or in the

## 2. Why do you want to be elected/re-elected to the DeWitt County Board?

I am currently serving on the board and am seeking re-

# Flambéing is flamboyant

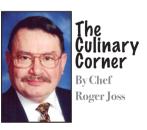

delights. At this point, it would be good to rehearse certain important facts.

Use only the good stuff in cooking. Grocery stores sell wine labeled "cooking wine". Do not use that stuff! Buy the quality stuff. Always think of wine in cooking as flavoring and use it accordingly. Always taste a very small amount to ensure quality prior to use. The wine should pair well with the primary ingredient. Store wines tightly sealed on their side in a cool dark place. Always handle wine under sanitized conditions.

A very close cousin to wine is vinegar. After all, wine can turn into vinegar if the vinegar bacterium invades it. We can easily find red wine vinegar in

grocery stories. Any fruit can be turned into wine as well as grains such as rice and tubers such as potatoes. Anything that can be changed into wine can also be changed into vinegar. Apple cider vinegar is a prime example. Distilled vinegar I would not recommend for use with foods; for cleaning purposes, yes; as an ingredient in cooking, no. Just as wine can be reduced, so can vinegar. Practice on vinegar first. Vinegar is much cheaper.

Brandy is an exception to the above. But of course, it is not a wine. In my opinion, the only thing brandy is good for in food is for flambéing. I call it being flamboyant with the dish. Brandy is chosen for flambéing because it is 80 proof. 80 proof equates to 40% alcohol by volume. This allows

for an impressive flame. Anything less would be disappointing. If I am in the mood to showoff, I might do a flambé dish. A flambé dish is generally desserts or hors d'oeuvres but not limited to that.

I will give you a recipe on which you may practice. It requires a reduction of both wine and vinegar. It is an hors d' oeuvre that I enjoy making. The first time I made it was in a culinary class. The prime ingredient is chicken liver pâté and my instructor hated anything dealing with liver. I still got an "A" notwithstanding.

From past articles, you should know how to

prepare baguette slices for hors d'oeuvres (toasted on one side) and how to sweat vegetables in a covered pan. I shall then give you the very basics.

Sweat three cups worth of sliced onions until translucent, add to this two cups worth of balsamic vinegar and reduce it. In a separate pan, sauté three anchovy fillets with two tablespoons of capers and two smashed cloves of garlic until the anchovies dissolve. Increase the heat and add one pound of chicken livers into the same pan sautéing for 4 minutes. Then add one cup white wine and cook till reduced by half but still soupy. Process into paste using a blender. Spread this onto the baguette slices. Top with balsamic onion mixture and serve.

Until next time, peace to all.

## Ethan Aughenbaugh signs to bowl for Lincoln College

## Marc Rogers

jmarre@frontier.com

CLINTON - On Monday, March 9, possibly a first-of-its-kind local event took place in the Clinton High School (CHS) commons.

As most know, this is where the student athletes sign their letters-of-intent to carry on their studies and athletics at the next level. The first in this case was that the student signed a letter-of-intent for bowling.

Ethan Aughenbaugh, son of Tom and Karen Aughenbaugh, signed his letter-of-intent to attend, and bowl for the Lynx of Lincoln College. Ethan also ran some track at CHS, but is forgoing that to concentrate on bowling and his studies.

He was invited by Lincoln College because their head bowling coach, Candace Van Bogaert, has followed Ethan's rise through youth leagues at Lincoln Lanes. When the Clinton Bowl closed, Ethan began bowling in Lincoln, as many others did, and has continued bowling, even when others stopped.

Ethan will attend Lincoln College for two years, while getting in his core studies and then could move on to a larger university setting to pursue a computer science degree.

Coach Van Bogaert said Ethan caught her eye while she was watching

the bowling participants bowling in Lincoln for possible recruits.

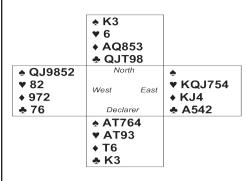

She was impressed with the way Ethan handled himself while bowling, his demeanor and his fundamentally sound skill on the lanes.

Ethan will head into a growing program, since Lincoln College expanded into a four-year school last year and all the programs are in their second year in the National Association of Intercollegiate Athletes (NAIA). The coach said that in last year's inaugural year in the NAIA, they did well and are expecting much better things this year.

7 Its capital is

player Peter

20 Henry II

21 Horse feed

22 106-Down

on Cal

23 Amaze a

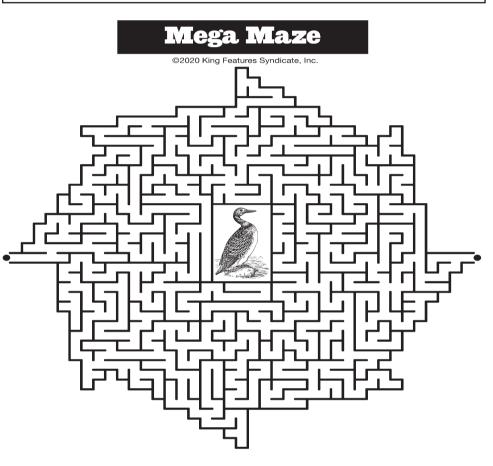

supporter

N-S are a little shy of the 25 or so HCP generally required to make 3NT. On the other hand, they do have a source of tricks in Clubs which gets Declarer up to eight winners. And where there are eight there's often a 9<sup>th</sup>, as East is about to find out to his detriment.

West dutifully leads his partner's Heart suit and the Jack is taken by Declarer's Ace (holding up won't achieve anything). The &K comes next and East wins his Ace. At this point East can count (at least) eight tricks for Declarer, namely two Spades (because surely Declarer has the Ace), one Heart, one Diamond and four Clubs. East can also deduce that Declarer started with ♥AT9x, because West's opening lead from ♥Tx would be the Ten and from ♥Txx would be a low one. That being the case, it's clear that persisting with Hearts will merely serve to set up Declarer's game-going trick. A Diamond is no better, of course, so East does the best he can by exiting safely with a Club. A nice try, but it just delays the inevitable.

On the run of the Clubs Declarer pitches two Spades and a Diamond, and then cashes the ♠K followed by the ♠A. With East known to have the missing Heart honors and nothing left but red cards, he is a sitting duck for an end-play. Declarer simply exits with the VT and sits back smugly while East chooses whether to surrender the 9<sup>th</sup> trick in Hearts or in Diamonds.

## PUBLIC NOTICE

#### Vegetation Management Activities in DeWitt County

Please be advised that Ameren Illinois will perform vegetation management in your area in the near future. Our professional vegetation management specialists will be managing vegetation on transmission rights-of-way that could affect our electric lines. This vegetation management work is necessary to protect the integrity of the electric system and to prevent potential safety hazards.

This work might include: aerial or manual trimming, removal of vegetation, mowing, application of environmentally-safe herbicides, and inspections. Interested persons may call the Ameren toll free number 1-800-232-2477 or visit our website at www.ameren.com/transmission to understand any potential dispute resolution opportunities, processes, rights and/or remedies. Customers and property owners may appeal the particular vegetation work planned on their property by 1) calling the Ameren toll free number mentioned above referencing CODE TMT or 2) accessing the website mentioned above referencing CODE TMT or 3) contacting the Illinois Commerce Commission Consumer Services Division at 1-800-524-0795. Common addresses of properties affected by the planned vegetation management have been provided to the office of the mayor of any affected municipality and the office of the county board chairman of any affected county.

Sincerely, Ameren Illinois

## Arcosa Voices Support for Alta Farms II Wind Project

Clinton, Ill., February, 2020 -

The proposed Alta Farms II wind project has earned a key endorsement from a local wind tower manufacturer. In a letter to the DeWitt County Zoning Board of Appeals dated January 27, an executive of Arcosa Wind Towers, Inc. cited local job benefits in urging the board to recommend the project.

"The Alta Farms II project will not only give DeWitt County an opportunity to participate in the ever-growing enterprise of clean energy production, it will provide immediate direct economic benefits to all of the citizens of DeWitt County," said Wesley Bourland, senior vice president and general manager of the manufacturer. "Because the developers of the Alta Farms II project have committed to sourcing local components from Arcosa Wind Towers, this project presents a unique opportunity for DeWitt County that should not be missed."

to source at least 20 percent of the wind tower components from the Clinton facility.

"We're thrilled to have the support of one of DeWitt County's largest employers," said Tom Swierczewski, senior development director with Tradewind Energy. "The endorsement of Arcosa Wind Towers further emphasizes the wide economic impact Alta Farms II will bring to this community, and we're excited to see momentum continue to build for the project."

Alta Farms II is projected to create an array of economic benefits to DeWitt County, including over 230 new construction jobs, \$13.8 million in new earnings during construction, \$22.1 million in total school district net revenue over the life of the project and over \$4.6 million in county property tax revenue over the life of the project. These benefits are conditional on timely approval of the project application as proposed, which would enable Alta Farms to begin operating in 2021.

The Arcosa Wind Towers manufacturing facility in Clinton has supplied wind turbine components for projects in Illinois and across the Midwest. Tradewind Energy, an Enel Green Power company, is developing Alta Farms II and has publicly committed Source:dewittdailynews.com/local-news/488792
