Next pre-trial hearing for Duane Meyer will be Jan. 8

By Brad Jennings Editor

OREGON – The lawyer representing the Byron man accused of killing his wife and son in 2016 told a judge on Nov. 18 that he is reviewing documents and other items the defense has received from prosecutors in the case.

During a pre-trial hearing, Christopher Derango said the defense is still waiting for some items from prosecutors in the case against Duane Meyer. Meyer is accused of setting the 2016 fire in Byron that killed his ex-wife Maggie

Meyer and 3-year-old son Amos Meyer.

State's Attorney Eric Morrow said his office has so far turned over roughly 35,000 pages of discovery to the defense in the case.

The items include police reports from multiple agencies, expert reports, laboratory notes, cell phone forensics and autopsy reports.

Morrow said most of the items are in a digital format.

Also included were videos of interviews and crime scene photos, he said.

Search continues for bodies of missing men

By Brad Jennings Editor

OREGON-The body of one of the two men who went missing in the Rock River when their boat capsized near the dam in Oregon on Nov. 20 was located Thursday, but officials were unable to recover it.

Ogle County Sheriff Brian VanVickle said the body was located about a mile south of the dam in Oregon Thursday night. They tried to use a remotely operated vehicle and divers to recover the body, but the

high flow of the current made recovery impossible, he said.

"The water was too fast, they couldn't get to the bottom," VanVickle said.

They also dragged the river in that spot but were not successful. On Friday morning, they started using sonar again on the river in search of the bodies.

The fishing boat was initially found at about 11:30 a.m. on Nov. 20 upside down on the west side of the river near the dam.

Classic play to show at **Byron Civic Theater**

'Yes, Virginia, There is a Santa Claus' opens Nov. 29

BYRON – Byron Civic Theatre continues its 25th season this month with Yes, Virginia, There is a Santa Claus, a play written by Andrew J. Fenady based on real events.

The title of the play comes from an actual letter written by 8-year-old Virginia O'Hanlon to the editor of the New York Sun in 1897.

The real-life response to Virginia, written by Frank Church, is magical - particularly in the wake of Church losing his wife and baby the previous year.

Byron Civic Theatre's production features a cast of children and adults from the community, bringing to life a story that is now part of popular Christmas folklore in the United States.

"This production will not only entertain, it will inspire you to reflect on what Christmas means to you," said Penny Wiegert, director. "It's a heartwarming story your entire family can enjoy, bringing you together to begin the holiday season this year."

Byron Civic Theatre's production of Yes, Virginia, There is a Santa Claus opens Nov. 29-Dec. 1 and continues Dec. 6-8, with shows at 7:30 p.m. on Fridays and Saturdays and at 2 p.m. on Sundays. Tickets are available at the door, online at www.bctmagic.com or by calling the box office at 815-312-3000.

The story

The play is inspired by a poignant letter written over 100 years ago by an 8-year-old to the editor of the New York Sun, and the timeless response. Virginia wondered and wrote: "Dear Editor, I am 8 years old. Some of my little friends say there is no Santa Claus. Papa says if you see it in the Sun, it's so. Please tell me the truth. Is there a Santa Claus?" Ed

Mitchell, the Sun's editor, gives the assignment of answering Virginia's letter to Frank Church who, until his wife and baby died last Christmas Eve, was the Sun's best and most dependable reporter. Yes, Virginia, There is a Santa Claus is a play for young and old, magically reaffirming life's highest beauty and joy - "The eternal light with which childhood fills the world.'

A boat from the Dixon Fire Department out searches the river on Nov. 20. (Brad Jennings photo)

MISSING: Early in investigation

From page 1

VanVickle said a truck and trailer were found at Castle Rock which were used to haul the boat. He said officials have been in contact with the families, but no names were released

by Friday morning. The initial search included boats from the Oregon Fire Department and Dixon Fire Department.

VanVickle said it is early in the investigation, so there is no clear answer as to how the boat capsized. But he said it might have gotten too close the dam and flipped over.

He also praised the response to the incident, noting that five counties were involved in the search the first day, and four the second. "It's just been a great team

effort," VanVickle said.

FIRE: The next hearing will be on Jan. 8

From page 1

Meyer was charged on Oct. 9 with four counts of first degree homicide, two

and one count of concealment of a homicidal death. He is currently being held in the Ogle County Jail on a \$10 million bond. On Oct. 16, the defense

requested the bond amount be lowered, but Judge John Roe declined to do so.

Roe set the next pretrial hearing for Jan. 8 at 1:30 p.m.

Stillman Valley students attend business retreat

STILLMAN VALLEY Stillman Valley's Future Business Leaders of America attended the Illinois FBLA Fall Retreat on Saturday, Nov. 2 in Bloomington.

Members who participated in the Retreat were: Jesus Arias, Amanda King, Richie Sutfliff, Martin Martinez, Genesis Myers, Natalia Contizano, Logan Apsey, Aidan Taylor, Tyler Kubiszewski and Doga Ozkaya.

The agenda for the retreat was comprehensive and kept the members very busy. On Friday., Nov. 1, FBLA departed Stillman for Bloomington. Their first stop was at Illinois Wesleyan University.

Upon arrival at the University, students were given a tour of the facilities. The tour was arranged by Mr. Ed Liegl, who heads up the Career and Counseling Center at the High School. Special thanks to Mr. Liegl for making the arrangements. The members had a great time and the tour ended with the students having their picture taken with the school bear.

Following the tour, students headed to their hotel. After checking in, members had dinner, took a swim in the pool and then spent the night playing games and getting to know each other better. On Saturday morning, the members checked into the retreat and participated in many events. The keynote speaker, Mr. Jim Sharpe, presented the theme for the Retreat. He talked about "overcoming fear" by taking a three-step action approach. Through storytelling, he provided the group with excellent examples of how others have learned to overcome their fears. When asked about her experiences of the day, Contizano said, "I had fun learning and working with other FBLA groups!

Members had the opportunity to participate in the "Iron Coyote" challenge, which took up a large portion of their time. They also participated in business workshops that focused on job interviews and what to do after you get the job.

"It was fun meeting new people and seeing what the workshops are like," Arias said.

Members were encouraged and challenged to actively participate in the workshops. Stillman's Amanda King and Richie Sutliff took on the challenge.

After a healthy and filling meal, the evening ended with members learning about all of the competitive events for FBLA's Regional, State and National competitions. "It was a great introduction to the group and I loved feeling like I was a part of something bigger than myself," King said when asked about her weekend experience.

After the retreat ended, Stillman's FBLA headed back to the Iron Coyote to take another shot at all of the activities. Members were fired up and ready to take on the obstacles that they missed during the morning session.

When asked about the overall FBLA retreat experience, Richie Sutliff, FBLA President, commented, "I truly believe that it was a retreat I had a blast! 5-stars!"

For more information on how you can become a part of FBLA, please contact Ryan Read, Cathie Murphy or Tammy Pierson, or any FBLA officer or member at Stillman Valley High School.

District OKs pay increase for its substitute teachers

STILLMAN VAL-LEY - The Meridian CUSD 223 Board of Education voted unanimously at the November Board meeting to increase the daily rate of substitute teachers to \$105.

This increase is on the heels of a previous increase two years ago which compensated substitute teachers who frequently substituted in the district to earn up to \$100 per day for their service.

Despite the previous effort to honor and compensate frequent substitute teachers at a higher rate of pay, Meridian still

faced frequent substitute shortages. When a district cannot find a substitute, teachers give up their plan time, principals cover classes, and occasionally classes are forced to be combined so that all students are supervised.

"Substitute shortages are common across our county and in our region," said Meridian CUSD's Superintendent of Schools Dr. PJ Caposey. "The Board took a strategic step forward to attempt to attract substitute teachers to select Meridian schools when they may have multiple options on

a given day."

Caposey said that he believes the best 'promotion' of the district for substitute teachers are the great kids in Meridian and committed teachers that provide detailed plans for substitutes.

The district noted that this change, like all initiatives, will be tracked and evaluated for its effectiveness over time The change will begin effective immediately.

To become a substitute teacher please contact the Regional Office of Education at 815-625-1495 for additional information.

MOMENTS IN TIME

* On Dec. 13, 1577, English seaman Francis Drake sets out from Plymouth, England, with five ships and 164 men on a mission to raid Spanish holdings on the Pacific coast of the New World. Three years later, Drake's return to Plymouth marked the first circumnavigation of the earth by a British explorer.

* On Dec. 10, 1901, the first Nobel Prizes are awarded in Stockholm, Sweden, on the fifth anniversary of the death of Alfred Nobel, the inventor of dynamite and other explosives. It is believed that Nobel created the prizes out of moral regret over the increasingly lethal uses of his inventions in war.

* On Dec. 14, 1911, Norwegian Roald Amundsen becomes the first explorer to reach the South Pole, beating his British rival, Robert Falcon Scott, by more than a month. Amundsen used sleigh dogs, while Scott employed motor sledges, ponies and dogs.

* On Dec. 15, 1945, Gen. Douglas MacArthur, as Supreme Commander of Allied Powers in the Pacific, brings an end to Shintoism as Japan's established religion. The Shinto system included the belief that the emperor, in this case Hirohito, was divine.

* On Dec. 11, 1961, the ferry carrier USNS Core arrives in Saigon with the first U.S. helicopter unit, including 33 helicopters and 400 air and ground crewmen. Their assignment was to airlift South Vietnamese Army troops into combat.

* On Dec. 9, 1979, a commission of scientists declares that smallpox has been eradicated. The disease, which carries a 30% chance of death for those who contract it, is the only infectious disease that has officially been eradicated.

* On Dec. 12, 1980, American oil tycoon Armand Hammer pays over \$5 million at auction for an almost 500-year-old notebook containing writings and detailed drawings by artist Leonardo da Vinci, all relating to water and how it moved.

Here are some holiday plane travel reminders

Hard to believe it, but the holiday season– and all the good and bad that comes with it – is staring us in the face.

Sure, there will be uncomfortable family gathering moments with tree hugging Aunt Martha arguing with MAGA-hat wearing Uncle Gary. There will be grandma staring at you while you shovel her "famous" lima bean pie down your throat even though you hate lima beans. Dads will fall asleep and snore loudly after presents have been opened and moms will hand out gifts and guilt in equal measure.

"Here's a new watch, honey. It will remind you that it's time to call me. Why do you hate your mother?"

Got to love the holidays.

But many of you will be getting away for the holidays, which is a great tradition. What better way to say I love you to your family and friends than to flee from them like a member of the White House staff from a Congressional subpoena?

the Life By Brad Jennings

Living

My wife and I love to travel too, and do as often as we can. Our most recent trip was to Las Vegas with a group of friends. I would tell you all about it but, well, you know.

Over the holidays we don't travel by plane, but many people do. And when you do, please try very, very hard to not be one of those people. If you travel a lot, you already know what I mean. If you don't, or you need a refresher, please read on. * Be on time. You have one job when you travel – show up. If I am sitting at O'Hare on a parked plane to Jamaica because you couldn't bother to get to the gate on time and we are waiting for you, I hope you get some bad jerk chicken and spend your vacation gulping gallons of Pepto Bismol.

* Do not, under any circumstances, bring a fullsize suitcase and try to pass it off as a carry on. People these days will do anything to avoid the fee for checking luggage. I have seen people try to jam giant bags in the overhead bin. Flight crews should shut these dopes down before they even get on board. They clog up the boarding process and get the flight off to a bad start. * Find your seat and sit

* Find your seat and sit in it. You don't need to stand around in a plane trying to get the attention of your buddy eight rows back. We don't care about you, so sit down.

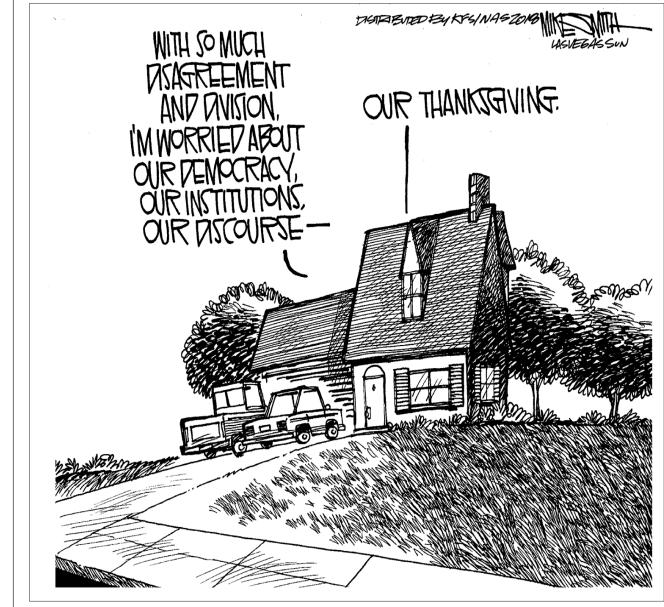

* If you are sitting next to each other and talk, that's great.Please, have a wonderful conversation. But why do so many people feel the need to yell at each other on planes? Even when they sit right next to each other, some people talk at the top of their lungs. Pipe down.

*Enjoy a great snack. But if your table manners would make my hillbilly ancestors blush, you need to save the eating for a space not as confined as an airplane.

* And here is a biggie: When the plane lands, stay in your seat. Why do people feel the need to stand up and clog the aisles? If you are at the front, grab your bag and get ready to disembark. If you are in row 27, just sit down and wait. Jumping up and trying to get your giant suitcase that should have been checked from the overhead five rows ahead of you slows the process down for everyone.

In general, people just need to relax. This is vacation, after all.

VFW should open up more

To the editor

Many posts are struggling with membership problems, especially in rural areas. Now that President Trump fully acknowledges the importance of The American Legion by signing into law, the LEGION Act in the White House, many more honorably discharged, as well as, active duty veterans are now able to join The American Legion.

It is time for the Veterans of Foreign Wars to loosen up a bit, and open their membership, at least to overseas veterans. This is good for everyone. What is there to dislike about it?

Athletic Action Plan aims to reshape OCUSD athletics

OREGON — The Oregon Community Unit School District has been working with several individuals and interest groups in a multifaceted effort to improve Oregon athletics and reshape the future of athletic programs in the Hawk City.

"Over the summer, stakeholder groups throughout the community of Oregon put in many hours discussing our athletic programs and our desired future state," Oregon High School Principal Heidi Deininger wrote in an email. "We shared a survey with the community. We held focus groups for people to come to the high school and discuss their ideas, concerns, and goals for the future. We hired a consultant to come in and help us analyze all of the data and create an action plan to begin really refining our athletic programs to include a system of articulation for lower levels, and improve collaboration amongst all stakeholder groups.

The result was the OCUSD Athletic Action Plan, which features six core actions including athletic mindset, public relations, professional development, athletic philosophy, athletic vision and lower level articulation. Deininger wrote the actions are meant to outline the specific areas the OCUSD seeks to improve and reshape athletics in the city.

"The ultimate motivation was to maximize the experiences and outcomes for student-athletes, at all levels, and to ensure that students grow as people and as athletes, due to their involvement in athletics," Deininger wrote. "The plan is necessary to insure alignment of resources and human capital. It is important that all stakeholders are 'speaking the same language' about athletics in Oregon. The plan lays out expectations and goals that apply to all levels of athletics and all stakeholder groups. It's necessary to get all groups

working together." The Athletic Action Plan delegates athletic philosophy as the beliefs and purposes for athletics at all levels, specifically development at the third and fourth-grade levels and increased wins at the high school level. The athletic vision is outlined as the characteristics of successful Hawks such as accountability, selflessness, integrity, coaching, mental and physical toughness.

The public relations facet of the Athletic Action Plan will target growing Hawk Pride in the area by emphasizing inclusion of students at all levels, increased communication and promoting collaboration between high school and lower level athletes in junior high or elementary school. Through lower level articulation, the OCUSD seeks to generate athletic interest at lower levels by teaching fundamentals and expectations needed to succeed at the high school level.

The OCUSD lays out professional development as ensuring coaches seek out and receive necessary training in all aspects of their athletic programs and at all levels. Lastly, the athletic mindset phase of the plan, which highlights toughness, leadership and perseverance, is something OCUSD student-athletes can carry into the rest of their lives.

"Our short-term goals are increased collaboration between the high school and lower level programs, stronger collaboration with all stakeholders, clear expectations

and common language about values and beliefs, commitment to growing programs, evidence of increased Hawk pride (i.e. participation and attendance at events) and community awareness and involvement," Deininger wrote.

The OCUSD has already put its Athletic Action Plan into motion through several actions this school year including LOWER LEVEL ARTICULATION Building skills and tradition at all levels

> ing championships, but also demonstrating high integrity and sportsmanship in all arenas, more athletes in all programs, greater articulation at all levels, strong culture in all programs, athletes, coaches and fans who are positive representatives of the Oregon school district and positive experiences for the athletes who are involved in the programs," Deininger wrote.

Byron football team wins quarterfinal over Wilmington

BYRON — The Byron football team defeated Wilmington 32-0 in the quarterfinal round of the IHSA Class 3A State Playoffs this past weekend. The Tigers are now 11-1 overall and they will play Princeton in the semifinals.

Drake Snodgrass rushed for 198 yards and two touchdowns of 70 and 59 yards while adding a 73-yard touchdown reception from Ben Carlson. Isaac Stickler ran for 142 yards and two touchdowns of 6 and 43 yards in the victory. Byron led 12-0 after the first quarter and outscored Wilmington 20-0 over the second and third quarters.

Baker wins bronze medal at tourney

BYRON — Byron's Nolan Baker continues to impress on the wrestling mat.

A two-time undefeated state champion for Byron High School and 2017 BHS graduate, Baker earned both an academic and athletic scholarship to Northern Illinois University.

His life course changed, however, when he received a call from Matt Lindland, USA's Greco-Roman Olympic wrestling coach this past summer. Baker was offered, and took one of five openings for a Greco-Roman residency at the Olympic Training Center in Colorado Springs, Colorado.

Baker has been training since mid-summer in preparation for several upcoming competitions which could possibly qualify him for this year's Olympic Trials.

The first was the Bill Farrell International Tournament in New York City at the New York Athletic Club. In a field of over twenty elite national and international competitors, Baker took third at 67 kilograms (147.7 pounds) and was the second highest placing American wrestler at his weight.

He went 4-1 on the day recording four pins, one

over Mustafa Mohamed, a past Olympian from Egypt. Baker's only loss on the day came to eventual champion, Alejandro Sancho, who wrestles for the US Army's World Class Athlete Program.

Baker is currently in Europe training at a 10day camp in Tbilisi in the country of Georgia with their national team. He will follow this up with another short camp and tournament in Sweden and then will move onto another tournament in Finland before heading back to the states.

On Dec. 20-21, Baker will compete in the USA Wrestling Olympic Trial qualifying tournament in Fort Worth, Texas. The top five place winners earn a spot in the Olympic trials to be held in the spring.

Time to show your local pride

In 2016, 112 million shoppers supported locally owned businesses on Small Business Saturday — from pubs to retailers to service providers, according to American Express. All told, they spent \$15.4 billion, an increase of 13 percent from 2015.

These awesome numbers show American shoppers are increasingly committed to shopping local. This year on Small Business Saturday, Nov. 25, American Express invites consumers to once again "Shop Small.³

Since 2010, American Express has provided marketing materials and other resources to help locally owned businesses showcase themselves to shoppers on the Saturday following Thanksgiving.

"Small businesses play a key role in helping communities thrive,' according to American Express.

"By shopping or dining at your favorite lo-cal places throughout the year, you're showing your support for small businesses and making a positive impact in your

This year, American Express offers an interactive online map to help shoppers locate participating business in their area.

Visit www.shopsmall. com to find businesses near you. Shoppers can filter businesses by type, from travel to entertainment to retail to dining, and companies can even business-to-busifind ness sellers, such as office suppliers and marketing service providers.

The company also is offering tools for business owners, such as online banner ads, sig-nage, email templates and sample social media posts, all of which can be personalized for each business through the online Shop Small Studio.

Why Shop Local This Year?

The Institute for Local Self-Reliance offers the following 10 benefits for shoppers and their communities when they shop locally owned businesses:

1. Local character and prosperity: In an increasingly homogenized world, communities that preserve their one-of-akind businesses and distinctive character have an economic advantage.

2. Community well-being: Locally owned businesses build strong communities by sustaining vibrant town centers, linking neighbors in a web of economic and social relationships, and contributing to local causes.

3. Local decisionmaking: Local ownership ensures that important decisions are made locally by people who live in the community and who will feel the impacts of those decisions. 4. Keeping dollars in the local economy: Compared to chain stores, locally owned businesses recycle a much larger share of their revenue back into the local economy, enriching the whole community.

5. Job and wages: Locally owned businesses create more jobs locally and, in some sectors, provide better wages and benefits than chains do.

6. Entrepreneurship: Entrepreneurship fuels America's economic innovation and prosperity, and serves as a key means for families to move out of low-wage jobs and into the middle class.

7. Public benefits and costs: Local stores in town centers require comparatively little infrastructure and make more efficient use of public services relative to big box stores and strip shopping malls.

8. Environmental sustainability: Local stores help to sustain vibrant, compact, walkable town centers-which in turn are essential to reducing sprawl, automobile use, habitat loss, and air and water pollution.

9. Competition: A marketplace of tens of thousands of small businesses is the best way to ensure innovation and low prices over the longterm.

10. Product diversity: A multitude of small businesses, each selecting products based. not on a national sales plan, but on their own interests and the needs of their local customers, guarantees a much broader range of product choices.

County recycling holiday lights

It's that time of year again when we start to decorate for the holiday season. When you come across holiday light strands that refuse to work, have those light strands recycled instead of landfilling them.

The Ogle County Solid Waste Management Department (OCSWMD) is partnering with local fire departments and villages to again offer several convenient drop-off boxes so those frustrating, nonfunctional holiday light strands can be recycled.

Starting Nov. 15, drop-off boxes will be available at the following fire departments: Rochelle, Byron, Stillman Valley and Mount Morris. They will be located at the village halls n Polo, Forreston, Davis Junction and Creston.

Light strands are also accepted at the Ogle County courthouse and at the OCSWMD office at 909 Pines Road in Oregon. Boxes will remain at these locations until Jan. 24, 2020. Accepted light strands include Italian mini-lights, traditional lights, LED lights, and other holiday light strands. Extension cords are also accepted. Material not accepted include rope lights, wreaths, garland, metal stakes or silhouettes, live greens, plastic decorations, timers, and light packaging or boxes. Please place light strands into the boxes and do not place shopping or garbage bags into the boxes, doing so hinders the recycling process for this material.

Lights and cords will be shipped to Dynamic Lifecycle Innovations in Onalaska, Wisconsin to be recycled. In 2018-19, more than 1,500 pounds of material was collected and recycled through this program.

So, as we prepare to untangle, test, and put out those holiday lights this season, remember you can help the environment and recycle all those strands of lights which have brightened our homes in the past but now refuse to light up anymore.

If you have any questions about this program, or wish to learn about other recycling opportunities in Ogle County, call the OCSWMD at 815-732-4020 or visit www.oglecounty.

Police offer Operation Santa

BYRON – Byron Police Department's Operation Santa Claus has been making Christmas a little brighter for the less fortunate children in the Byron community for the past 29 years.

Operation Santa continues to succeed with the dedicated volunteers and thrives on the generosity of our community members. Through this program, over 4,850 children have received gifts at Christmas

The majority of the donated new toys, are for the younger children (birth to 6 years old) in the program. Donations for children ages 7-14 is encouraged. If you don't have time to shop, 100 percent of the money donated is used to purchase gifts for the older children and wrapping supplies. Donation checks, payable to Operation Santa Claus, can be dropped off at or mailed to the Byron Police Department, PO Box 923, Byron, IL 61010. Operation Santa also appreciates donations of new Christmas wrapping paper and scotch tape. These are provided to families so the parents can participate in the gift-giving.

Byron Kiwanis is hosting "Breakfast with Santa & Mrs. Claus" on Dec. 7 from 8-11 a.m. in the Cafeteria of Mary Morgan Elementary School. There is no entry fee but a donation of one new, unwrapped toy per child, or monetary donation is appreciated.

Parents or guardians of children (up to age 14) in the Byron area who would benefit from the Operation Santa Claus program are asked to come to the Police Department, 232 W. 2nd Street, Monday through Friday, 8 a.m.-4 p.m. to register. Parents will be asked to provide proof of address, the children's names, ages, and gender. Names must be submitted no later than Wednesday, Nov. 20.

Turkey Trot 5K set for Thanksgiving Day

By Andrew Heiserman Staff Writer

ROCHELLE – Anyone looking to begin their Thanksgiving Day with some fresh air and exercise all while supporting a great local cause, are invited to come out to the annual Turkey Trot 5K.

The annual 5K has been taking place on Thanksgiving morning for the last eight years. Whether participants choose to run, walk, or push a stroller, this is what the organizers like to call a no frills event. Meaning that it is very laid back with no times being recorded and no winners or prizes.

The idea came to fruition when Lauren Hintzsche and a few fellow runners decided two weeks before Thanksgiving that they were going to hold a run that day.

"There were three or four of us who had been runners in the community for a long time, and we kind of just said two weeks ahead of time that Thanksgiving we were going to do a run," explained Hintzche. "Then the day of the run 75 people showed up."

After seeing such a big turnout for the first event on such little notice, they realized that there was a need for this in the community.

Since then the event has continued to grow with an average of 200 people each year.

All of the proceeds from the event are donated to the Rochelle Area Community Foundation, which is then used specifically within their health and wellness field.

While the main goal of this event is to earn money for a great local organization, it is also aimed at getting families out for some fresh air and exercise together as well.

"This is just a good healthy way for people to be with their family and friends," Hintzsche said.

For anyone looking to participate in the 5K, sign up in person at the Flagg-Rochelle Community Park District office, 735 N. Second St., before the event or online at Eventbrite.com

and search for Turkey Trot. Sign-ups can also be done the day of the event. Tickets for the event are \$10 per person or there is a family deal for groups of \$20 areas of \$2

e more than three for \$35. s The event will begin at f 8:30 a.m. but attendees can

show up as early as 7:30 a.m. to begin checking in at Lincoln School.

Brothers, Wright wrong story – Thursday, Dec. 5 at 6 p.m.

Guest Author, William

Hazelgrove

William Hazelgrove makes a convincing case that it was Wilbur Wright who designed the first successful airplane, not Orville. He shows that, while Orville's role was important, he generally followed his brother's lead and assisted with the mechanical details to make Wilbur's vision a reality. Combing through original archives and family letters, Hazelgrove reveals the differences in the brothers' personalities and abilities. He examines how the Wright brothers myth was born when Wilbur Wright died early and left his brother to write their history with personal friend John Kelly. The author notes the peculiar inwardness of their family life, business and family problems, bouts of depression, serious illnesses, and yet, rising above it all, was Wilbur's obsessive zeal to test out his flying ideas. When he found Kitty Hawk, this desolate location on North Carolina's Outer Banks became his laboratory. By carefully studying bird flight and the Rubik's Cube of control, Wilbur cracked the secret of aerodynamics and achieved liftoff on Dec. 17, 1903. Hazelgrove's richly researched

and well-told tale of the Wright brothers' landmark achievement, illustrated with rare historical photos, captures the excitement of the times at the start of the 'American century,

How facing the truth sets you free

For many years, I believed that I was damaged goods and could only have a second-rate life. I thought that the sexual and emotional abuse I endured as a child was somehow my fault, that it had happened because something was wrong with me. As a result. I felt a false sense of responsibility to fix my circumstances. But I couldn't make that happen, which only caused more self-condemnation, and I didn't like myself very much.

For so long I believed this terrible lie about myself. It's easy to do this, because you simply don't know when you're deceived. It's also dangerous because the lies we believe become our reality when they are truth to us.

After I became a Christian, I thought that the only way God could love me was if I did everything right. That was just another lie that caused me to continually strive to do good, "impressive" things to earn the approval of God and people. For example, I really thought I was something special when I was on the church board and in a leadership position.

Another result of this deception was that I found it easier to see what was "wrong" with other people. I was so critical and judgmental. But seeing the faults in others just kept me from seeing what was wrong with me for a long time. And that was exactly what the enemy wanted.

The Key to Killing Deception

In John 8:31-32 (NKJV), Jesus says, "If you abide in My word, you are My disciples indeed. And you shall know the truth, and the truth shall make you free."

It's so important for us to know the truth, because the lies we believe - especially about ourselves - cause many problems in our lives. That can mean trouble in relationships, in our work, in our health or other areas of everyday life.

But when we pursue a relationship with God and finally face truth-and that ultimately means the truth about ourselves-we grow spiritually. God is looking on our heart, and He's concerned about our motives. In fact, He's more interested in why we do the things we do than what we're doing.

I've learned to ask God on a regular basis, "Show me truth. Help me face the truth You show me - especially what You show me about myself."

Once God shows us the truth about ourselves, we can no longer hide from it. The Bible tells us the Holy Spirit leads us into all truth. He knows just how and when to guide us, and He is gentle and always does what is best for us.

It's not easy, but I want to encourage you not to reject God's guidance just because it may not feel good in the moment. Just because something doesn't feel good doesn't mean it's not good for you. Remember, God always has His best plan for your life in mind. The Red Dress

I remember when God used a red dress to reveal some truth I needed to face about myself. It was brand-new and I hadn't worn it yet. Well, I was praying for a friend and asked God what I could do to bless her, and He spoke to my heart to give her that dress.

Immediately, I began to reason with God, "But it's new!" He told me once more to give her the dress. I tried again, "But God, I bought these really nice earrings to go with it." He said to give her the earrings too! So I prayed, "God if this is really You ... "

Finally, I realized that red dress was too important to me. I had to face truth in that moment: Did I want to obey God or be selfish? I decided to humble myself and give my friend the dress.

The Truth About My Problem

You know, this struggle really wasn't about the dress...it was more about my heart. God was teaching me how to be a steward and not an owner of things. I discovered that if I'm not so attached to things, it won't be hard to give them away when He asks me to.

We all have times like this in our relationship with God if we are willing to be completely honest with Him and let Him search our hearts. If we want to grow closer to Him, we must learn to examine our motives and be honest with ourselves when God shows us something that needs to change.

Pray that you will know the truth so you can be set free from deception. And then face the truth God shows you - about you. Remember, when you embrace the truth, it will set you free!

Q: Is the cast of "Friends" reuniting in the form of a new series, like "Will & Grace" did? If so, will it be on network TV or something like Netflix? -- C.I.

A: The rumor of an onscreen "Friends" reboot began surfacing when Jennifer Aniston, who played Rachel on the show, joined Instagram and posted a picture of herself with her former co-stars. Matthew Perry, Lisa Kudrow, Courteney Cox, David Schwimmer and Matt LeBlanc were all smiling in the group selfie, as close as ever.

Even more promising to fans was an exclusive story by The Hollywood Reporter that the cast was in talks with HBO Max about possibly reuniting for an "unscripted special." It's not known if that means Aniston, et al. will be improvising scenes as their characters, or if they'll simply be sharing a couch, reminiscing about the show. We'll just have to wait and see.

Q: What do the other dancers think of Sean Spicer after having worked with him for a few months on "Dancing With the Stars"? Do they all get along despite their political differences? -- B.B.

A: I don't know how everyone felt working with or competing against the former White House press secretary, but pro dancer Cheryl Burke did offer some kind words on her blog for "Us Weekly" magazine. "I actually really love Sean's personality. Even in just the little time I spent with him, he's really funny. He's super down to earth. He's not the Sean Spicer that I think everyone thinks he is. Listen, he is having the time of his life. You can tell he's holding back tears because of how much fun he's having, and it's super sweet and endearing to watch."

Former contestant Karamo Brown told FOX News that he was honest with Spicer about their political differences, but that they had very respectful conversations on the set and that Spicer met both his son and his partner. Spicer was voted off the show in early November after a long run.

Q: Is "Days of Our Lives" going to be canceled? I read that all the stars were taken "off contract." What does that mean? -- P.A.

A: The good thing about "Days," the NBC daytime soap that has been on the air for an astounding 55 years, is that it tapes its episodes about eight months in advance. The bad news is that in mid-November the entire cast was released from their contracts, and the soap was going on indefinite hiatus.

The "Days" cast and crew always take a long break over the holidays, but we don't notice it because new episodes continue to air weekdays. However, what's different this season is the announcement that all the actors would be taken off contract with no end in sight. With so many months of episodes filmed but not having aired yet, NBC and Sony have time to negotiate with what fans hope will be a positive outcome.

"Dora and The Lost City of Gold" (PG) --While her parents seek an ancient city, Dora (Isabel Moner) is shipped off to a modern U.S. city school. After a lifetime in the jungle, she's way out of her comfort zone. But not for long. Along with a couple of high school archetypes, Dora and cousin Diego are whisked back to the bush by some jungle bad guys. They'll need to escape and find her parents to save the day. It must have been difficult to retain the exuberant innocence of the cartoon and resist the urge to stray into sarcasm. After all, Dora is in high school. But Moner carries the torch beautifully, taking the best from the wholesome child explorer and weaving her into a fish out of water adventure-nerd, all the while serving self-aware inside jokes wrapped in a can-do attitude.

"Blinded by the Light" (PG) -- For anyone who's ever had a song, or an artist, speak to you, you will see yourself in this middle-class Pakistani youth. Javed (Viveik Kalra) is an unassuming and poetic teen who lives in a culturally claustrophobic household -- his immigrant family is deeply traditional, but he yearns for something more. When he discovers the music of Bruce Springsteen, his worldview is turned upside down as he sees the Boss's message as a personal mission statement. He is born to run, indeed.

'American Dreamer" (R) -- Jim Gaffigan stars in this dark thriller as a hard-luck case who turns from deadbeat to deadly. Cam (Gaffigan) lost his job and his family. He's behind on his child support, with no good prospects in sight. Making ends meet as a rideshare driver, Cam picks up

drug-dealer Mazz (Robbie Jones), who sees Cam's nondescript car as the perfect cover. In his desperation, Cam sees more than a five-star rating or a tip in Mazz. If you think it's going to be funny because Gaffigan's a comedian, you're dead wrong.

"Cold War" -- Director Pawel Pawlikowski paints a gorgeously lush picture of the lifelong love story of Zula (Joanna Kulig) and Wiktor (Tomasz Kot), a singer and band director who meet in post-war Poland and whose romantic saga is played out in waves that are tempered by the politics of the time. The stunningly crisp and evocative black and white film underscores the magnetic passion of Zula and Wiktor, who despite all odds, keep finding each other again and again. It's lovely and heartbreaking. (Polish, with subtitles.)

Shauna left knowing that Brooke was on her way to see Ridge. Brooke became rattled when she realized that Thomas once again manipulated Hope. Meanwhile, Hope spent time taking care of Douglas. Wait to See: Bill shows a kinder side of himself as he welcomes Liam back to the family business.

What We Need for Winter

There are three things we seniors need to get through a cold winter: flashlights, insulated mittens and space blankets.

By Matilda Charles

Check your battery and flashlight supply and stock up on what you need. One of the big-box stores has small flashlights, about 4 inches long, for \$1, and they come with three AAA batteries. (At that price it's

cheaper to buy new flashlights than the batteries that go in them.) While they won't light up your whole house (20 lumens), they are small enough to carry in a pocket and get you from room to room if the power goes out. Keep a few of them scattered around the house: kitchen counter, diningroom table, nightstand and right inside the front door, just in case. That way you won't have to feel your way across the room to find a light.

Thanksgiving together.

Look for insulated mittens instead of

gloves. Mittens have the advantage of keeping your fingers together and holding in warmth. Knitted mittens won't keep you warm. Be sure they're not too big and that your wrist is covered.

Consider buying one (or more) of those thermal foil Mylar emergency space blankets. They look like large sheets of aluminum foil, folded down to a few inches. When opened, these blankets are said to hold in 90% of body heat. Right now you can get a pack of two for less than \$8 on

Amazon, or check the sporting goods area of your local big box store. (Be sure to check the size.) Keep one in the glove compartment of your car.

In the event you have a hard winter. make calls now to find out where warming stations will be held in your town if there is a long power outage.

Be ready!

To Your Good Health

By Keith Roach, M.D.

DEAR DR. ROACH: My daughter is 4 years old and has, in the past five days, developed measles. She was vaccinated at 9 months and has been treated with antibiotics, Tylenol and vitamin A supplements. What concerns me is that she is now experiencing seizures, even without a fever. They are not grand mal seizures, but simple ones. They have me worried. What can I do? -- G.A.

ANSWER: Measles remains a serious disease in many parts of the world, with 90,000 deaths reported in 2016. Even in industrialized nations, there have been outbreaks involving tens of thousands of people infected.

Vitamin A supplementation may be of value in those who are deficient, and Tylenol can help keep the fever down, reducing the risk of febrile seizures. The antiviral drug ribavirin sometimes is used, though without clear evidence of effectiveness. Otherwise, there are no effective antibiotics or other treatments for measles.

When seizures occur in a child with measles in absence of fever, it can indicate a complication called en-

cephalitis -- inflammation of the brain. Children also may experience nausea and vomiting, and they usually have a headache. Confusion and sleepiness are other common symptoms. The diagnosis can be confirmed by an evaluation of the fluid around the brain, the cerebrospinal fluid, which is sampled via a needle inserted into the lower back.

Confirmed encephalitis with measles is treated with steroids. This reduces the risk of permanent brain damage from the infection. Even so, 25% of children may be left with some impairment, including epilepsy.

Unfortunately, vaccination at 9 months is not adequate protection. Children's immune systems may not be able to fully respond to the vaccine so early. Children are recommended to have the measles vaccine at 12-15 months and again at 4 to 6 years in the United States. In countries where risk of measles mortality remains high, children are vaccinated at 9 months, then again at 15-18 months. During an outbreak, a dose may be given as early as 6 months old, in addition to the other two doses.

DEAR DR. ROACH: I get horrible

fever blisters when I go on any tropical vacation and am exposed to lasting sun. These blisters develop on my lower lip. I have tried sunscreen, but nothing has worked. On my most recent trip, the blisters appeared on the final day and took nearly three weeks to heal. It's painful and horribly embarrassing. Is there anything I can do? Should I see my dermatologist? -- S.A.

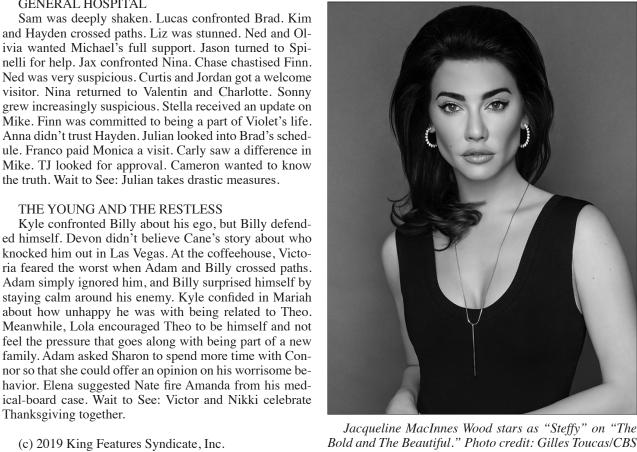

ANSWER: The sun can cause many kinds of skin reactions. In some people, the light itself causes the problem (these reactions are called photodermatoses). In others, the sun causes a reaction in combination with exposure to a particular substance. Sometimes, it's a fruit, especially limes. In people with blisters around the mouth, I think of mangoes, especially if you are enjoying them in the tropics.

Some skin diseases just get worse in the sun: Lupus is the classic example, but there are many others (my textbook lists about 50, some quite rare). A dermatologist is indeed the person to see.

When Mark Twain was editing a newspaper in Missouri, one of his subscribers wrote in, saying that he had found a spider in his newspaper and wondered whether it was a sign of good or bad luck. Twain's response: "Finding a spider is neither good luck nor bad. The spider was merely looking over our newspaper to see which merchant was not advertising, so that he could go to that store, spin his web across the door, and lead a life of undisturbed/ peace ever afterward."//
