

# THE FUTURE

of  
MANUFACTURING

## STUDENT SPONSORSHIP

We are proud to launch our new student sponsorship program that aims to help shape the future of manufacturing. Our program seeks to inspire young minds to create the breakthroughs of tomorrow and create lasting impact on our community through manufacturing.

This program seeks to reward and support passionate and driven students. It focuses on providing scholarships, and networking opportunities at The Coolest Things in the Ozarks

Event that may lead to potential internships, mentorships, and access to cutting-edge resources.

We firmly believe that providing opportunities for these innovative individuals can not only drive advancements in manufacturing, but also provide a launching pad for their own growth and potential.

Together, let's continue to build a better world for the generations to come.

### Your sponsorship will include:

- Your company's logo displayed on a full page ad, which will be in **The Coolest Things In The Ozarks** special section on **April 10, 2023**
- Two tickets to **The Coolest Things In The Ozarks** awards event
- Tickets for 4 students w/chaperone to attend the event
- \$250 scholarship for one student from High School of your choice through the **MAM Scholarship Fund**

**ONLY \$750**

**Deadline April 4, 2023**

\*One sponsor per high school

Email your high school of choice to [advertising@sbj.net](mailto:advertising@sbj.net) to confirm availability.
