WHAT TO HAVE ONBOARD

When preparing to go out on a vessel, there are a few things you need to check that are legally required to be on board. The Missouri State Highway Patrol, Water Patrol Division advises operators to make sure these items are handy.

PERSONAL FLOTATION DEVICES

Under federal law, a wearable PFD is required for each person on board regardless of vessel length. Children under the age of 7 must wear a U.S. Coast Guard-approved PFD at all times unless the child is confined to a totally enclosed area such as a houseboat or a day-cruiser.

NAVIGATION LIGHTS

The required navigation lights differ depending on the size and type of your vessel. You must display the required navigation lights between sunset and sunrise and during periods of restricted visibility.

FIRE EXTINGUISHER

All vessels (there are few restrictions) are required to have a Type B, U.S. Coast Guard-approved fire extinguisher on board in an accessible area. Check the charge level of your fire extinguishers regularly. Replace them immediately if they are not fully charged.

SOUND PRODUCING DEVICES

Vessels more than 16 feet but less than 40 feet in length are required to carry a whistle or horn to signal intentions or positions. Vessels that are 40 feet or more in length are required to carry a whistle or horn and a bell on board.

DAY TRIP

photos and story by Vicki Wood

Where the buffalo roam

Take a tour of Ottawa County, Oklahoma

Where can you find buffalo in the Midwest? Ottawa County, Oklahoma is a day trip rich in history and home to a buffalo ranch.

While photographing a historic church, a post on the Yelp App popped up a link to a nearby Buffalo prairie, and how one visitor to the church park likes to sit in his car and watch the buffalo. Being a huge fan of the creatures, the search was on. A way marker on the junction of County Road S679 and State Highway 10 catches your attention to pull over and read the sign on the Modoc Church. Look past the sign and you will see a buffalo ranch. The majestic furry creatures were lying in the sun or grazing on the pastures directly north of the sign. A quick glance around found more buffalo gathered in a field across the highway. They aren't very active or social. But the appearance of a near extinct, historically significant animal species is a glorious sight in modern times.

For lunch or dinner on this day trip three hours from Lake of the Ozarks, a convenient stop near the Modoc site

is The Outpost Casino. Heading back into the Wyandotte and Seneca area, The Outpost Casino on Hwy. 100 is a short drive from the Modoc Church way maker and buffalo ranches. It is a small casino with just over 250 slot games. The first thing to do anytime one visits a new casino is to sign up for their player's card, whether you intend to ever visit again or not. It rewards you with immediate free game play and discounts at the restaurant. The Star Grille is the place to eat when visiting the Modoc/Wyandotte reservation.

It has morphed into a new pop up concept cafe called Bacon Me Crazy with burgers, chicken, salads, sandwiches, and appetizers. The Rock Star Burger topped with egg is everything you need for a brunch burger, or late afternoon lunch, the perfect pick me up before journeying home. Non-alcoholic drinks are always free at this casino, don't be afraid to bring in your travel cup. And the prices at Star Grille can't be beat.

DAY TRIP

THE HISTORY

Ottawa County, Oklahoma's Modoc Indian Tribe is 14,000 years old, originating on the Oregon/California coast. They were hunter/gatherers and fishermen.

The invasion of non-Indian settlers saw the Modoc adopting some of the white men's tendencies, and soon had nicknames. Keint-poos became Captain Jack, the tribal leader, while others became known to history as Scar-faced Charley, Steamboat Frank, Bogus Charley, Shack Nasty Jim, Long Jim, Curly-headed Doctor, and Hooker Jim (Modoc Nation, 2022). California's first governor waged

war on the Native tribe to drive them out. After the

war for extinction, what few Modoc survived were told that they were going to Cheyenne, Wyoming as prisoners of war. But, really the plan was to ship them to Quapaw Territory. The Quapaw agency purchased 4,000 acres for the 153 Modoc Indian prisoners and settled them in the Northeast Oklahoma county of Ottawa in June 1874. Bounded by Oklahoma and Missouri state lines, they were surrounded and included within the following tribes: Confederated Peoria, Eastern Shawnee, Miami, Ottawa, Quapaw, Seneca, and Wyandotte, under the Quapaw Agency. They were described as hardworking, cheerful, and compliant by their Indian agent. They were, however, habitual gamblers. Nepotist Indian agents, including the Quakers named as the Modoc's overseers, treated the tribe deplorably. They suffered hard winters and starvation due to swindling agents and store owners. The 153 prisoners soon shrunk to a tribe of 99, with most due to infant and child mortality.

The Modoc took any job that brought in extra money. Soon the children started thriving. The U.S. government constructed a church that served as a school house on the Modoc reservation. The church was a Society of Friends Quaker church. Tribal leaders became ministers, and one even attended seminary. Located at County Road S679, the building still stands, next to the Modoc Cemetery, with grounds that are manicured into a park-like setting including picnic pavilion and restrooms. It has been on the National Register of Historic Places since 1980. This group of Indian War prisoners/refugees grew from near extinction, back into a nation. Half returned to their homeland in 1954, and the other half remained near Seneca in Ottawa County, Oklahoma. They joined the Inter-Tribal council in the 1980s. Chief Bill Follis has led the nation since 1973. He is a rancher who is the great-grandson of the chief of the 153 Modoc prisoners sent to Ottawa County.

Idiot's Club hits \$1M in donations

Club kicks off the season at Lake area venues

The Lake of the Ozarks Idiots Club's is celebrating a million-dollar year. According to co-founder Danna Hiner, the all-volunteer, 501(c)3 charity will surpass \$1 million spent on meeting the personal and school needs of children living in poverty at Lake of the Ozarks.

The Idiot's Club was formed in June 2014 with the goal of helping Lake area children by providing assistance for underserved needs such as gift cards for gas, car repairs, new clothes, fees for afterschool activities and other expenses. The club is funded by membership fees and fundraising activities. During the last fiscal year, 93 percent of every dollar spent went directly to assist children in-need.

The charity had its 2023 fundraising kickoff party in may. The charity enrolled 84 members and raised \$3,731.

All summer long the Idiot's Club will be hosting fundraisers at various lakefront restaurants as well as a few special

M•CON ready to defend title

T Tyler Miller has high expectations. A veteran racer and legend in the powerboat world he's seen his share of highs and lows.

As the team owner and throttleman of M•CON, the offshore powerboat race team is gearing up for another racing season and will be making sure those countless hours of testing, changing setups and preparing leads to a podium finish throughout the year.

"Race prep is the single most integral part of our program to keep us at the top of our game," Tyler said. "We have an amazing crew that know and understand the importance of preparing in advance for every race."

For several years the team has par-

anticipated in Lake Race each June and the Lake of the Ozarks Shootout in August, giving spectators the thrill they've come to expect. Lake Race is undergoing a number of changes this year, including a new name — LOTO Powerfest — and a new host location. Most of the action will be held at Camden on the Lake and Shady Gators, located down Horseshoe Bend. The course will stretch from about the 5 to 8 mile markers with racing held from 11 a.m.-5 p.m. on Saturday, June 3. LOTO Powerfest will continue to be sanctioned by the Offshore Powerboating Association.

From the sidelines fans can expect to see something else new this year. M•CON will enter a Class 1 438 Skater, sponsored by Monster Energy.

"Preparation started one week after our last race in the 2022 season in November, and has been full speed ahead ever since," Tyler said. "With the help of Performance Boat Center we have been going through the boats bow to stern to make sure we are 100 percent game ready."

Humble Beginnings

M•CON Racing has been a part of offshore racing for about seven years. Their first race was in Cocoa Beach, Fla. with Tyler taking over as throttleman and his cousin, Dr. Brett Miller, as the driver. Racing among the best in the world, they finished third.

It was Brett who got Tyler interested in racing with his infamous Recovery Skater they used as a pleasure boat on Lake of the Ozarks. It was while watching the supercats run in Lake Race the need for speed sealed Tyler's fate.

Once Brett left racing to concentrate on his medical practice, driver Tyson Garvin took the wheel for the next two years.

The crew is made up of many Lake locals including Myrick Coil, driver; Jake Leckliter, crew chief; Craig Amptmeyer, mechanic/transport; Mike Powell, transport/crew; and Dave McIntyra, crew.

"We battled to finish every race but the boat just wasn't competitive in a majority of the race conditions," Tyler said. They chose a more modern 388 Skater and local Myrick Coil with Performance Boat Center as the driver.

"We have been beyond blessed in our offshore careers to date," Tyler said. "Over the past two years our team has achieved back-to-back national championships and a world championship."

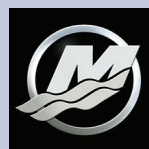

Tyler can't pick a favorite win, choosing to give a nod to "all of them" but says there's nothing like racing in front of your home crowd.

"The Supercat Class is the most competitive in offshore racing and to win against the best in the world... there's nothing like it," he said. "Winning Lake Race in 2022 in front of our hometown fans ... and on the course that nine years prior saw me sitting on a SeaRay watching and dreaming of someday not only racing but winning ... ranks right up there!"

DINING GUIDE

story and photos by Charis Patires

Casual atmosphere, upscale food

If you're looking for an Italian restaurant with a new twist, Calabria may be what your palette is craving. Owner Nexh Zeka knew there were other Italian restaurants at the Lake, but felt there was a need for something a little different.

"We found an opportunity here and always liked the Lake of the Ozarks area," he said. "In terms of Italian restaurants here at the Lake, we each offer something different."

Nexh learned every aspect of the restaurant business first-hand from his father. His parents were born in Albania and migrated to the United States in 1991. His father began his career working in pizza places in New York. He then moved to Texas and opened his first restaurant.

"My father has been in the restaurant business for over 30 years," Nexh said. "I learned every job a restaurant has to offer from him."

When he was in his early 20s, Nexh opened his first restaurant in his home state of Texas. In the seven years since, he opened a second restaurant in Louisiana and recently added the Osage Beach location to his list.

The name Calabria, Nexh explained, comes from the name of a region in Southern Italy. The cuisine is typical Southern Italian Mediterranean with pasta being an important inclusion. Dishes tend to include bold flavors of tomato, olive oil, and herbs and spices. This is the type of cuisine Nexh offers on his menu.

Calabria offers one menu for both lunch and dinner. Items include several different pasta, chicken and seafood entrees in addition to steak and veal. Appetizers, salads and desserts are also on the menu as well as New York style pizza. The majority of the items are home-made, including fresh dough daily

Popular with diners, the chicken picatta is chicken breast with fresh garlic, fresh basil and capers sautéed in a white wine lemon sauce served over pasta. Pictured with a lemon drop martini.

for pizza and bread. Each entrée comes with homemade garlic rolls and a side of pasta. Entrée prices are reasonable, ranging from \$12 to \$25. The restaurant has a full bar. Specialty cocktails include several martinis, Makers Old Fashioned, Italian Margarita and a Peach Bellini. Wine by the glass

and bottle are available.

While he has been receiving compliments on all his dishes, Nexh said customer favorites so far seem to be chicken fettuccine and lobster ravioli. Other items include lasagna, cannelloni, chicken parmigiana, chicken Jerusalem, veal piccata, shrimp genova, linguini white

clam sauce, and many other entrees. Don't skip out on dessert with these options: cannoli, tiramisu, limoncello mascarpone, Italian cream cake, chocolate mousse cake and New York cheesecake.

Nexh owns a home at the Lake and spends every day at the restaurant. The majority of his time is spent in the kitchen, but he does make a point to come out to the dining rooms and check on customers.

Previously a pizza/Mediterranean restaurant, the space for Calabria seemed a perfect fit for what Nexh envisioned his restaurant to be.

"We didn't have to do much remodeling," he said. "We re-arranged the kitchen to fit our needs and changed the artwork." The casual atmosphere offers seating at tables or booths with waiter service. There is also a bar area with TVs playing the latest news or sports.

Avoid unseen Lake hazards

Stay safe on the Lake this summer with our expert tips.

With warmer weather, the cool water of the Lake is inviting. It is important to remember Lake of the Ozarks is a moving body of water with many unseen obstacles and hidden dangers.

All too often it is easy to forget that the boat we are enjoying also has the possibility of causing injury or death, even if the water is clear and free of hazards. Each season, Missouri sees its share of boating accidents. As with many tragedies, it is newsworthy for a period, people will demand action (or at the very least express concern), then people will move on and this will be forgotten. But it should not. Why is it, when tragedy occurs, we say "how could this happen?" "What can be done to prevent incidences like this."

Nationwide on a average 171 accidents occur with at least one person struck by a propeller. Out of that 171 propeller strikes, 35 lives are lost. In 2020 at Lake of the Ozarks there were five people struck by a propeller, one resulting in death. In the State of Missouri there were a total of 15 propeller strikes.

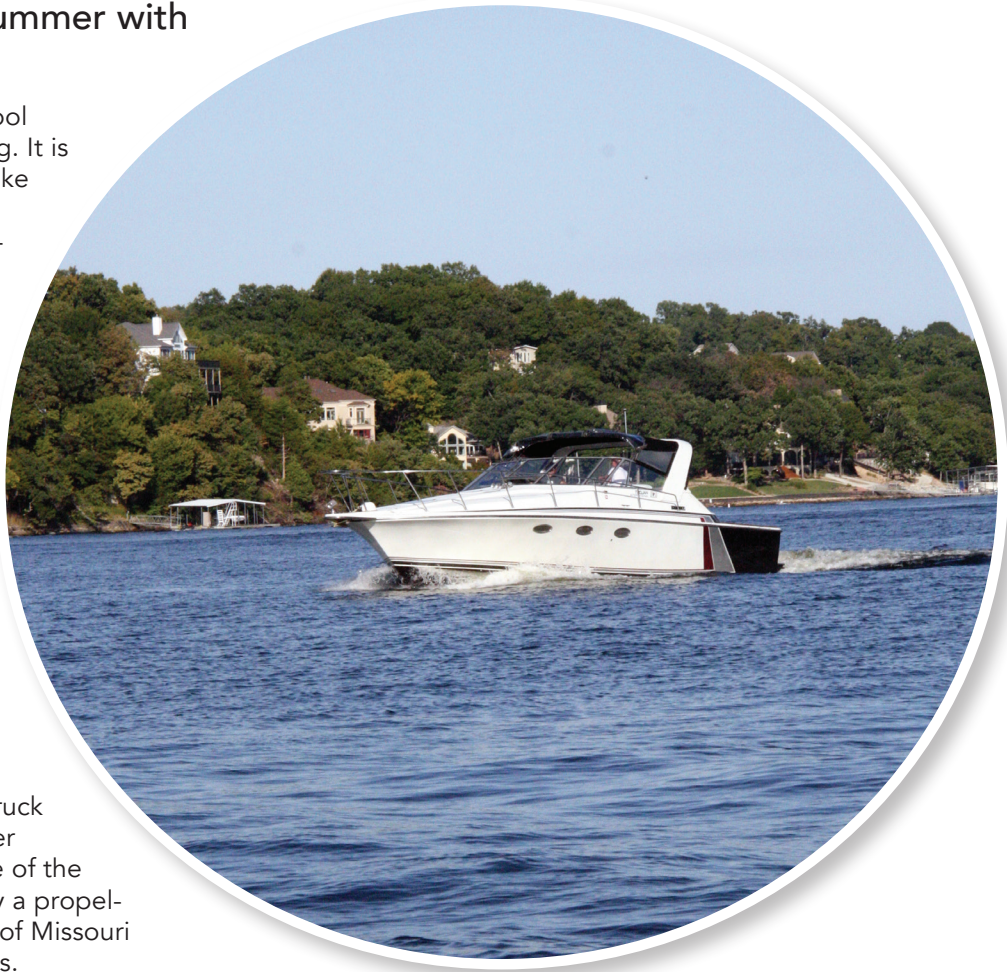

So what precautions can be taken to prevent such events?

To start with, do not allow anyone to enter the water while the engine(s) are running. Even if the engine is in neutral, the propellers are free turning and can cut. Wait for 10 to 15 seconds or longer after the engines are off then allow people to enter the water, do not dive head-first, use the swim ladder enter the water feet first. Look before you jump.

If the swim ladder is mounted on the stern, think about purchasing a second boarding ladder, and enter and exit the water away from the rear of the boat.

When exiting the water, keep the engines off until all passengers are on board. As well as all lines, pull toys and any other objects are on board.

Another preventive measure is to install a propeller guard, or a prop guard as it is more commonly known, consists of a steel cage which surrounds the propeller.

The prop guard freely allows the movement of the propeller and safeguards it against rough underwater parts. A propeller guard will minimize propeller injury.

Be an aware boater, many of the newer engines are very quiet and run very silently, so do not take for granted that the engine is not running. Always double check.

Take a boating education class. If you took one in the past, a review can only help.

Have fun on the water, and boat safe!
