## FINANCING KICK BACKS ON ALL NEW BOATS

# How to avoid unseen Lake hazards

By Doug Beck

**W**ith warmer weather, the cool water of the Lake is inviting. It is important to remember Lake of the Ozarks is a moving body of water with many unseen obstacles and hidden dangers.

All too often it is easy to forget that the boat we are enjoying also has the possibility of causing injury or death, even if the water is clear and free of hazards. Each season, Missouri sees it's share of boating accidents. As with many tragedies, it is newsworthy for a period, people will demand action (or at the very least express concern), then people will move on and this will be forgotten. But it should not. Why is it, when tragedy occurs, we say "how could

this happen?" "What can be done to prevent incidences like this."

Nationwide on a average 171 accidents occur with at least one person struck by a propeller. Out of that 171 propeller strikes, 35 lives are lost. In 2020 at Lake of the Ozarks there were five people struck by a propeller, one resulting in death. In the State of Missouri there were a total of 15 propeller strikes.

So what precautions can be taken to prevent such events?

To start with, do not allow anyone to enter the water while the engine(s) are running. Even if the engine is in neutral, the propellers are free turning and can cut. Wait for 10 to 15 seconds or longer after the engines are off then allow people to enter the water, do not dive headfirst, use the swim ladder enter the water feet first. Look before you jump.

If the swim ladder is mounted on the stern, think about purchasing a second boarding ladder, and enter and exit the water away from the rear of the boat.

When exiting the water, keep the engines off until all passengers are on board. As well as all lines, pull toys and any other objects are on board.

Another preventive measure is to install a propeller guard, or a prop guard as it is more commonly known, consists of a steel cage which surrounds the propeller. The prop guard freely allows the movement of the propeller and safeguards it against rough underwater parts. A propeller guard will minimize propeller injury.

Be an aware boater, many of the newer engines are very quiet and run very silently, so do not take for granted that the engine is not running. Always double check.

Take a boating education class. If you took one in the past, a review can only help.

Have fun on the water, and boat safe!

*Doug Beck is a Certified National Safe Boating Council Instructor, the co-chair of Lake of the Ozarks Water Safety Council, and the president Captains Association of Missouri*

# Wakesurf Open held at Ha Ha Tonka

**M**arineMax Lake Ozark will host their annual Midwest Coast Wakesurf Open on Saturday, July 15, at Ha Ha Tonka State Park.

Proceeds from the Midwest Coast Wakesurf Open will benefit Wake for Warriors, a non-profit organization aimed at connecting injured military veterans by sharing their passion for wake and water sports. This summer, MarineMax is partnering with Wake for Warriors and will host veterans nationwide in July. By doing so, they hope to help heal the emotional and psychological wounds of military veterans and their families.

To raise money for Wake for Warriors, MarineMax will be raffling off a 1977 Chevrolet K5 Blazer, which has been fully restored by MarineMax team member Kenny Abbett who has donated his time and talent to supporting U.S. Veterans. The winner will be announced at the wakesurf open. Raffle tickets for the fundraiser will be \$25, to buy tickets, or donate, head online <https://bit.ly/3pFAeqe>.

Bring your friends and family and join in the fun at the Midwest Coast Wakesurf Open Saturday, July 15, at Ha Ha Tonka State Park. This grassroots wake surf contest is geared toward

those seeking a fun-filled, family-friendly atmosphere. Food, beverages, and vendors will be available. There is no admission for spectators.

There are divisions for riders of all ages and abilities, including Grom (girls and boys ten and under), Juniors (16 and under), Open Women's (16 and up), Open Men's (16 and up), Master's (over 40), and Adaptive (a division for men and women with physical disabilities). Participants will ride behind one of their latest Nautique models. The top three riders in each division will place. A \$50 registration fee for all riders and all classes. Riders will receive a free rider's jersey and will be entered to win event prizes.

Come by boat or by land. There will be plenty of room in the cove to raft out and watch the event from your boat. When you are not riding, hike the park and enjoy the incredible scenery and views Ha Ha Tonka has to offer.

*For more information and to claim your spot, email [teresa.riley@marinemax.com](mailto:teresa.riley@marinemax.com) or visit the MarineMax website here <https://bit.ly/41OCBEy>.*
