

DELINQUENT TAX SALE

The following is a publication of lands and lots in Camden County upon which tax certificates are to be ordered for sale at the Court House beginning **Monday, August 28, 2023**, beginning at 10 a.m. indicated by the following publication by the undersigned according to the provision of Section 140 R.S.Mo 2007 Revised Statutes. The lands and lots are to sell under the name and descriptions (with the exception of Union Electric) as listed and the amounts shown are due for each year represent total amount of taxes, interest and cost, including cost of sale, and the certification be issued covering as much of said lands and lots as are necessary to discharge the total taxes, interest and charges which are due thereon at the time of sale.

Bidders may go online to camdenmo.org under Collector to view instructions and register to bid. Payment must be received by **Friday, August 25, 2023** to remove properties from Tax Sale.

A - First Time Offered • B - Second Time Offered • C - Third Time Offered

The lands to be offered are as follows:

Teresa Murray,
Camden County Collector

Second Issue Friday, August 4, 2023

WARNING - WARNING - WARNING

If Your Hands, Arms, Feet, or Legs Are Numb - If You Feel Shooting or Burning Pain or An Electric Sensation - You Are at Risk Don't Let Creeping Nerve Death Ruin Your Life

Get The Help You Need - Here's What You Need to Know...

If you experience numbness or tingling in your hands, arms, legs, or feet or if you experience shooting or burning pain, this is important. Please read this carefully.

Peripheral Neuropathis when small blood vessels in the hands, arms, feet or legs become diseased and tiny nerves that keep the cells and muscles working properly shrivel up and die.

Early-warning symptoms include tingling and numbness, mild loss of feeling in your hands, arms, legs or feet, inability to feel your feet, which increases your risk of foot-injury and falling.

More Advanced Symptoms Include...

- Loss of coordination & dexterity, which puts you at increased risk of accidents.
- Inability to feel clothing like socks and gloves.
- High risk of falling, which makes walking dangerous, and makes you more dependent on others.
- Burning sensations in your arms, legs, hands or feet that may start mild, but as nerves and muscles die, may feel like you're being burned by a blowtorch.

Without treatment, nerve degeneration that begins with slight tingling or numbness may lead to a hot burning sensation and intense pain. Without treatment muscle wasting loss of mobility and loss of independence is often the next step.

Now here's the scary part....

Nerve damage CAUSES cell damage.
Cell damage SPEEDS UP nerve degeneration

Without treatment this can become a DOWNWARD SPIRAL that accelerates.

The damage can get worse fast. Mild symptoms intensify. Slight tingling, numbness or lack of feeling can turn into burning pain.

Before you know it, damage can become so bad you hurt all the time.

Unless this downward spiral is stopped and nerves return to proper function - the damage to nerves and cells in the affected area can get so bad your muscles begin to die right along with the nerves and cells. And that sets the stage for weakness, loss of mobility, disability, and dependence on others.

If you have early warning signs of peripheral neuropathy, (tingling &/or numbness, loss of feeling or pain) it's CRITICAL you get proper treatment. It's critical, because with proper treatment the symptoms can often be reversed. Without it, you are playing Russian Roulette with your health.

Once your nerve loss reaches 85%, odds are there's nothing any doctor can do to help.

The most common method your doctor may recommend to treat neuropathy is prescription drugs

Drugs like Gabapentin, Lyrica, Cymbalta, & Neurontin are often prescribed to manage the pain. But, damaged nerves and dying cells do not heal on their own.

Pain pills do not restore healthy nerve function. They just mask the pain as the nerves continue to degenerate and cells and muscle continue to die.

Taking endless drugs and suffering terrible side effects that may damage your liver & kidney and create even more problems, is not a reasonable path. You deserve better.

Three things must be determined to effectively treat neuropathy. 1) What is the underlying cause? 2) How much nerve damage has been sustained? 3) How much treatment your condition will require?

With proper treatment, shriveled blood vessels grow back & nerves can return to proper function. How much treatment you may need depends on your condition.

At **Beck Wellness Center** we do a complete neuropathy sensitivity exam to determine the extent of your nerve damage. The exam includes a detailed sensory evaluation, extensive peripheral-vascular testing, & a detailed analysis of the findings. Dr. Mark A. Beck, D.C. will be offering this complete neuropathy sensitivity exam for **\$49**. This special offer goes away at the end of this month as we have a limited number of exam appointments available.

Stop Hurting & Start Healing
Call now to schedule Your Complete Neuropathy Sensitivity Exam with
